SUGAR FOR HOME CANNING READY AFTER MARCH 23

Sugar for home canning will be made available to customers at the same rate as last year, and in much the same way. Willard Case, district OPA rationing representative, explained Saturday.

As announced earlier, five pounds of sugar for home canning may be bought with sugar stamp 40 in war ration book 4. The remainder—a maximum of 20 pounds of sugar per person—will be granted on application to local OPA boards any time after March 23, Case explained.

Procedure is simple for getting extra sugar for home canning (in addition to the 5 pounds that can be bought with sugar stamp 40).

Application is made to local OPA boards on Form 3-323, and the whole transaction may be handled by mail. Single application may be filed for all persons living at the same address.

listing names of persons for whom sugar is requested, including the name of person making application, and the number of pounds of sugar (in units of 5 pounds) the family needs for canning and for making fruit spreads.

In order to make it unnecessary to send ration books through the mails, spare stamp 37 from book 4 is used for identification purposes. This stamp must be attached to the application form for each person applying for sugar.

RAIN BREAKS UP MENU FOR WEEK

The past week saw a great deal of typical March weather—wind, which brought with it dust and other debris left about during the winter months. The first day of spring (Monday) did not see the sun very much, the day being cloudy and stormy. A gentle interlude came late Wednesday evening when a heavy shower broke up the dust storm which was threatening.

The report for the week, according to Chas. Taylor, follows:

Date	Max.	Min.
March 15	62	15
March 16	66	38
March 17	70	46
March 18	67	24
March 19	5	41
March 20	58	37
March 21	55	20

IGLOO BLAST IS FATAL TO SIX

(Continued from Page 1)
strict military rule after the blast. In Hermiston, Victory Square and Ordnance, as well as Echo, Stanfield, Umatilla, Irrigon and other places where families of U.O.D. workers reside, the night was a long one until word was received that their loved ones had escaped injury.

Several freakish instances of damage were found the next morning. Directly across the highway at Ordnance, the merchandise had been knocked from the shelf but no windows were broken. In many cases doors were blown in, and in several instances the casements went with the door. In Hermiston where the blast was felt quite heavily, in many instances residents at first thought that their stoves had blown up except for the severity of the shock.

The theory that concussion travels in waves was also proven correct because that shock was not as severe near Ordnance as it was several miles away. A checkup of broken windows also revealed that the damage was very spotty and at times skipped several miles. That it traveled far is another certainty. At Spokane, Wn., a seismograph registered a "very slight" earth disturbance.

Another item that traveled fast is news. The Herald office was swamped with calls Wednesday from anxious relatives from far and near. It appeared that the farther the news went, the greater was the damage done. One resident of Pasco stated over the phone that "Hermiston had been levelled."

It is hoped that, in spite of the great tragedy, everyone will contribute much of it to the war effort and that activities will not only continue on schedule but will be accelerated because of the sacrifice.

CENTRAL CHURCH OF CHRIST

The sermon topic for Sunday morning will be, "The Necessity of the Cross for Today," and Sunday evening, "Christ of The Cross."

The Bible school meets at 10 a. m., morning worship at 11, C. E. at 7 p. m. and evening worship at 8.

U. O. D. NEWS

(Continued from Page One)

Clara Correa, Magazine Area, is in the Post Hospital.
Laura Ayers, Magazine Area, is back on the job.

Sue Breeding and Courtney Belt, West Area, are on the sick list.

Frances Culver, formerly of Control, has been transferred to West Area.

Fire Department reports Joe Primm is quite ill with pneumonia. He is in the hospital at La Grande.

Jerry Gronquist, Verl Crane and Norman Engle, of Rail Transportation, are terminating. They have a record of over two years employment here and we will miss them very much. Good luck, and we will welcome you back.

It seems that the fountain pens in Rail Transportation office have a habit of mysteriously disappearing. Pack rats, we suppose.

Joyce Henderson finally found time to go home, however, she used rather an odd method.

Marilyn Viola is taking annual leave this week to take care of her daughter who is ill.

Mr. Johnson has moved and now has a spacious garden. He is going to raise plenty for all. Those of the box factory are looking forward to fresh vegetable time.

Viril Wilson moved his daughter to Seattle. We hope he has a pleasant trip.

Charley Bacon is in Yakima, having been called there by his sister's illness.

Charley Rowland is spending his time off farming.

Mrs. Dexter is visiting her son who is in the armed forces. Another son, Bert, will leave for the forces soon.

Buy More Bonds

Let us keep ever in mind the fact that this is not a 10 per cent war. Our fighting men are giving 100 per cent in their effort. Let us not forget that the money we are putting into War Bonds is also going into Peace Savings. Let's remember that while we might spend more money now for less of real value, today's savings can be tomorrow's wherewith-

al, tomorrow's security. Let's start now by increasing our investment in War Bonds at least 15 per cent through Pay Roll Savings.
Let's All Back the Attack!

Ordnance Flashes

Army Ordnance guns in Italy and the Southwest Pacific are so accurate that they can lay artillery shells on a bedsheet at 3,000 yards.

The six man crew of the "Jinx", an Army Ordnance tank destroyer, attacked a fortified German position in Italy and demolished a pillbox, five medium tanks, an armored half-track, an ammunition truck, and a house, in 25 minutes. The six Americans were uninjured and received the Silver Star award.

The Army Ordnance caliber .50 machine gun is one of the few weapons used by all our armed services: Army Air Forces, Army Ground Forces, Navy, Coast Guard, and Marines. It far outranges the 20-mm. cannon used by the Axis.

Safety Today Means Surety Tomorrow

There never was a time in our history when accident prevention of workers was more important than it is today. Aside from the natural selfish, human interest, every liberty loving American wants to do his share in our national defense program. Every injury retards this great undertaking and time is the essence of our goal.

It is, therefore, plainly the patriotic duty of management and workers alike to continue to cooperate fully in behalf of the safety and progress of
