Attention, Farmers!

Now is the time to get your farm equipment in shape for the strenuous season just ahead. Be wise, like the owl, and prepare your equipment for the time when material will be hard to get. When the war effort moves to the west coast, repair parts and mechanics will be scarce—be wise and repair now while both are available.

Charlie Says:

"This is news of interest to us all — now that there are no new cars being made, it behooves us all to take the very best care of the car we now have.

"If you have your car paid for, you can now have a complete rebuilding job done and pay one-third down and the balance in easy monthly payments. Or if your car is now financed by General Motors Acceptance Corp., you may also have your repair work on easy monthly payments."

Take good care of your car now.
