

Oregonians Endorse Work Of Sen. Holman

Citizens Praise Results Gained For This State

Portland, Ore. (SPECIAL) — The following quotations from letters are typical of hundreds received expressing appreciation of Senator Rufus C. Holman's effectiveness at the nation's capitol:

"I have witnessed your fights in our own state for the Oregon National Guard, and later in the United States Senate your fearless stand for adequate appropriation for our defense forces. You have truly been a champion."

New Oregon Industry

"I hasten to extend congratulations and sincere appreciation on behalf of the people of Oregon for the splendid work you have done in securing for Oregon the alumina clay plant."

"You are doing a commendable job in protecting the interests of the Pacific Northwest as well as the war effort."

"We have been dealing for the past twelve years with Oregon senators and congressmen in Washington and never have we received such smooth cooperation and rapid handling of our every request for information and action."

"I want to congratulate you heartily on the successful outcome of your effort to obtain increased forest fire appropriations. This was a hard, fighting chance, but you took it and have won out. We are all indebted to you."

"May I express my sincere thanks to you for your interest and support given this recent deficiency appropriation bill to provide maternity care to wives of enlisted men in the armed forces."

"We take this opportunity of extending to you our thanks for your assistance which made it possible for us to secure tin plate to continue packing carrots, which would otherwise have gone to waste in this locality. We had been trying for weeks without any success until we called upon you."

Turkey Growers Save

"Thank you for your efforts in behalf of the turkey producers of our state, as this means a saving to them of several hundred thousand dollars."

"People like and respect you for your independent and forthright position on the vital problems that are facing the country at this time."

"It is a pleasure to know that when some emergency like this arises that we have representation back in Washington that is able to produce results."

"At this time we want to thank you on behalf of the industry and the farmers for your efforts in seeing that the irrigation equipment was included with other farm equipment." (For priorities)

"I am sure that your resolution asking for a full and complete investigation of Federal regulations governing the distribution and sale of meat, poultry and dairy products will meet the universal approval of the growers."

Farm Program Aided

"I want to express our appreciation of your great and effective help with regard to agricultural appropriations affecting the extension and research programs of the Land-Grant Colleges. Thank you for your assistance."

"Your activity in the Forest Fire Protection Appropriation is being very well received in the Pacific Northwest. You are doing yeoman service in this field. We are very appreciative of your interest in Extension matters. A number of land grant colleges have indicated their appreciation of your interest."

Original letters containing these quotations may be seen at the "Holman for Senator Committee" headquarters, 408 Wilcox Building, Portland, Oregon.

Names of signers not published here as these were unsolicited letters written to Senator Holman during his present term.

Pd. Adv. Jerry Saylor, Sec. "Holman for Senator Com." Wilcox Bldg., Portland, Oregon.

IRRIGON NEWS ITEMS

By Mrs. Grace Shoun

Mr. and Mrs. R. M. McCoy bought the place they have been living on for four years. They bought it from R. A. Baker of South Gate, Calif.

Benny McCoy, AOMB 2/c, of the bombing squadron, is leaving for overseas duty with his address San Francisco, according to a letter received by his mother, Mrs. R. M. McCoy. Mack McCoy is at Williamsburg and is an instructor there.

Mr. and Mrs. Lyle Mulkey are the proud parents of a baby girl Lila Hazel, born Wednesday night at the Pendleton hospital. The mother and daughter are doing nicely. They have a small son Jerry about 20 months old.

Mr. and Mrs. Paul Haberlein spent the week end at The Dalles, going down Thursday.

Mrs. Nellie Netter and children are visiting with her sister, Mrs. Ruth Umiker. Sam Umiker also spent the week end at home in Irrigon.

D. C. Conrad and four soil conservation men spent Friday in Irrigon.

Rev. and Mrs. Joseph Wildeman are leaving after two weeks stay in Irrigon at the Pentecostal church.

Open the Door to Home Ownership

Why defer the pleasures and benefits of home ownership when F.H. A. makes it so easy to attain? The rent money you have paid out in the last five years would have given you a substantial equity in a fine home of your own . . . paid for on the easy installment plan. Investigate the F.H.A. plan in connection with the purchase of a new home from Interstate Homes, Inc., in Hermiston. A small down payment will do it.

See Elmer Fritzke today at the Hermiston Hotel. He has information which tells you how you may own your own home.

FRANK TALK to City People . . . about the Farm Situation

by **Wayne Morse**

It is time someone spoke frankly about the organized attempt that is being made to turn City People against Patriotic Farmers. . . .

I've seen this program go on in Washington, D. C., and I'm seeing it go on in our own State of Oregon. It is time that the truth be told.

The New Deal is promoting the idea that the farmer is to be considered as a workman, entitled only to wages. . . . not as the business man that he is. It takes a sizeable investment, depending on the type of farm, to provide a unit that will give a man full-time employment. Such an investment certainly justifies the farmer being considered as a business man.

OPA Incites Feeling Against Farmers

I deplore the efforts on the part of the Administration offices, in particular the OPA, to create a class feeling between the city dweller and the farmer. Reports are continuously being circulated that the farmer is now receiving two and three times the amount for his crops as compared to pre-war. This is bound to build an antagonistic feeling against the farmer, because it insinuates that he is profiting from the war. The same agencies which have the facilities to estimate incomes also have the facilities to know about the increase in the costs of production of farm products. But not one word of this is mentioned, because it would make an entirely different story.

Says Farmers Can't Quit

There are many small business men whose sales have nearly doubled, and yet are operating at a loss, because their costs have risen so high. But in the case of a farmer, all you hear about is the increase in sales—nothing about the increase in costs. Many a farmer has been caught between the price ceiling on farm products and the unregulated increase in farm costs. One Administration official has been heard to state: "We cannot be concerned about whether or not farmers stay in business. We feel sure that enough of them have so much invested in buildings and equipment that they cannot afford to quit even if they operate at a loss during this period. It would be cheaper for them to keep operating than quit. Our only concern can be that enough is produced."

Farm Costs Increase 3 Times—Income One-Half

I'll give you an example. The gross income of the Grade A dairyman has increased about 40%, including the

WAYNE MORSE

Distinguished Republican leader of Oregon who was urged by many prominent farmers to become a candidate for United States Senator.

★

federal subsidies he receives. Grain, hay, straw, and labor, his biggest items of cost, have doubled and in some cases tripled. Since it takes 10 to 15 years to build a good dairy herd, the dairyman can't just quit and wait until things get better. He doesn't want to quit; it's his patriotic duty to stay on the job even if it bankrupts him, which has happened in many cases.

City Dwellers Will Pay Fair Price

You city dwellers want to pay a fair price for what you buy. You do not want to be overcharged, and again, you do not want anyone to be forced to sell to you at below cost of production. But when city dwellers are constantly fed the information that producers are receiving two and three times as much for what they buy as previously, how can they help but feel that the farmer is unpatriotic and profiteering at a time when the farmer actually is doing one of the biggest and best, yet so far unrecognized jobs of any group.

City People and Farmers Must Cooperate

When this war is over we will need the close cooperation of the city people and the farmers. They must understand each other's problems and work together because the prosperity of both groups is dependent on the success of the other.

Paid adv. Morse for Senator Committee Ralph D. Moore, Corbett Bldg., Portland, Ore.
