Fruit crops at Umatilla are very abundant and farmers are promising peaches and apricots enough for all home canning, and this will be a good year for all to fill their jars with these fruits as cherries are light. The Umatilla orchards serve Pendleton, Heppner, and surrounding country with canning fruit of finest quality, and anticipate a good demand this year at prices in keeping with the times. Fruit begins ripening in July.  
 On May 28th the local church will hold a public meeting with Rev. Paul Prouty in charge of the services. Umatilla citizens are trying very hard to get people interested in building a new church and of obtaining the services of a minister.
