

THE TRUTH ABOUT TIRES

IS THAT ONLY AN INSIDE INSPECTION

Can tell about Fabric Breaks which do not show from the Outside until too late. It's like this:

Tires less than a year old are usually sound, but OLDER TIRES (which are most of them) GENERALLY SHOW FABRIC DAMAGE SPOTS, often started by a puncture, severe bruise or rock cut which occurred so long ago the owner has probably forgotten all about it.

AN INSIDE INSPECTION AND THEN VULCANIZED REPAIR OF ALL WEAK SPOTS WILL GIVE YOU MUCH EXTRA MILEAGE

Come in and see us now.

Hermiston Auto Co.

Hermiston, Oregon

Can You Picture OREGON without Police?

We of this state are proud of our police organizations — city, county and state. Most of us need their efficiency. They're on the job day and night, whether we need them or not.

Some of us in Overland Greyhound Lines, because of the nature of our work, have frequent occasion to cooperate with the police. We are in a position to see clearly how much the police of this state have contributed to the safety and convenience of bus transportation — and how skillful in their handling of all traffic problems.

Overland Greyhound Lines' job is to make near neighbors and good-neighbors of all the communities that our buses serve throughout this state. In this, the able cooperation of police forces throughout the state has been of great value.

Over 30 Years Successful Optical Experience!

DR. DALE ROTHWELL OPTOMETRIST 418 South Main St. — Pendleton Near Bus Depot

Robert Louis Stevenson's preoccupation with toy theaters in his youth, much of which was spent in illness, led to the flowering of his dramatic prose in adulthood. The Wright brothers' first interest in flying is traced to youthful experiments with kites and toy airships.

The Teddy bear is the most popular doll of all time. The first Teddy bear was designed by Margarette Steiff from a cartoonist's version of the late President Theodore ("Teddy") Roosevelt's bear hunt in the Rockies, and thus the toy was named.

Year in and year out the Teddy bear and his stuffed cousins, from Uncle Remus in 1909 to the Panda in 1937, have topped all others in popularity, the authors say. They estimate that there are some 10 million Teddy bears in American homes today.

The ball is one of the closest rivals of the doll among children and its antiquity can be traced to ancient Egypt. Pottery, wood, and papyrus balls were common in the land of Cleopatra and a manuscript of the 15th century mentions "the yellow glass used for the little balls with which school boys play, and which are very cheap."

CHRISTIAN SCIENCE CHURCHES

"GOD the Preserver of Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 11.

The Golden Text was, "I am with thee, saith the Lord, to save thee" (Jeremiah 30:11).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And, behold, there was a woman which had a spirit of infirmity eighteen years, and was bowed together, and could in no wise lift up herself. And when Jesus saw her, he called her to him, and said unto her, woman, thou art loosed from thine infirmity" (Luke 13:11,12).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Our Master cast out devils (evils) and healed the sick. It should be said of his followers also, that they cast fear and all evil out of themselves and others and heal the sick. God will heal the sick through man, whenever man is governed by God. Truth casts out error now as surely as it did nineteen centuries ago" (p.494).
