The way you bake at home is different from commercial baking . . .

for home baking you need home-type flour

YES, MY BAKED FOODS ARE LIGHTER AND MORE TENDER NOW I'M USING KITCHEN CRAFT HOME-TYPE FLOUR

Home-type Kitchen Craft Flour gives finer results in all home baked foods

Kitchen Craft is light-bodied: It mixes smoothly and quickly with other home-type ingredients to give fine even texture in all your home baked foods.

Kitchen Craft is properly milled: Retains desirable moisture in your pastries, cakes and breads in spite of the drier heat of home ovens.

Kitchen Craft is dependably uniform: Absorbs the same amount of water each time — so you can follow your recipes to the letter, without change.

Your home-size recipes aren't the same as big-batch bakers use. Your ingredients are different, too. You use home-type shortening and baking powder.

For perfect results, now try a home-type flour—Kitchen Craft! Made especially for home baking, this top quality flour gives you cakes, pies and breads of mouth-melting delicacy and goodness. Adds important health values to your baked foods too because Kitchen Craft is enriched with B vitamins and iron.

Get a sack of home-type Kitchen Craft Flour and try it in your favorite recipes. If it fails to please you in any way, return the unused portion to your grocer and get all your money back!
