**WILL YOU TAKE ONE LAST LOOK...TOO SOON?**

There have been a lot of farm sales in this locality in the last couple of years. Just count up the number of farmers you know who have given up their places...given them up during the best opportunity in their lives for making real money. Why?

Run over in your mind, once more, the list of farmers you know who have retired. Didn't most of them quit just because they were physically unable to go on any longer? They were hard workers, but they had worked too hard for too long.

Many men past sixty right around here have found a way to add years to their active career on the land. They are using the Ford Tractor with Ferguson System. They have done away with back-breaking labor.

Implements attach to their tractors

so easily their six-year-old grandsons can actually put implements on or take them off. Hands that have years of hard work written on them now move a little finger tip lever that sets, raises or lowers ground tools.

While their work is easier, they are getting more done, and they are doing it at far less cost. Most important, they are continuing to live the kind of life they want to live.

The next time you are going by our place of business stop in for a few minutes and let us tell you about the important features of the Ford Tractor with Ferguson System and Ferguson Implements...the modern farm equipment that will add years to your active life on your farm.
