### STATE EXPLAINS SPLIT TICKET

is absolutely secret, it was announced today by Secretary of State Robert S. Farrell, as election's officer.

Misinformation and misunderstandings have caused some confusion in the minds of many Oregon voters, especially newly registered citizens, Farrell said.

"Any voter, duly registered in Oregon, be he democrat or republican, may vote for candidates of the opposite ticket, either individually or as a whole," he emphasized. "Split ticket voting is perfectly permissible in the election on November 7th."

Use of the Australian ballot method of voting assures absolute secrecy at the polls and registrants need have no fears that any person can ever find out how or for whom they have voted.

The misunderstandings probably are due in part to the fact that in the primary election, voters must cast their ballots for those candidates of the party in which they are registered. But in the

general election, there is no such restriction and the voter may vote for candidates of any party.
