

**UMATILLA NEWS**

*By Mrs. Glenn Ostrom*  
**First Umatilla Casualty**  
 Herbert Lane Sr. received a message Tuesday from the War Department that his son, 1st Lt. Donald Guade Lane was killed in action February 8th in the Burma-

India area. Lt. Lane, born and raised here and graduate with the class of '41, was a fighter pilot and had completed 150 combat missions up to November last. Lt. Lane had won three medals and three oak leaf clusters. This is Umatilla's first casualty and it is a great shock to everyone.

Roberta Lane and Herbert Jr., sister and brother of Lt. Lane, are also residents of Umatilla.

The Umatilla basketball team were champions of the Weston tournament playing their final game Saturday evening with Stanfield. Jim Barbouletos and

Louis Gilham made the first all-star team and Bill Barbouletos was chosen on the second team while Dan Cooney was given honorable mention.

Pfc. Dean Newgard arrived Thursday from his camp in Texas for a short furlough here with his wife and his mother in The Dalles.

**Gather Vegetables at Their Best**

—Photo Courtesy Perry-Morse Seed Co.

Do you know when to pick your sweet corn at its sweetest and juiciest? When your snap beans are snappiest? Your Swiss chard leaves most tender and the stems at their crispest?

Every vegetable in the Victory Garden has best stages for eating, before and after which their goodness is considerably less than one hundred per cent.

Snap beans should be picked before the seeds inside the pods have formed. If some of them get past that stage before you can use them, let the beans grow to full size and use them as green shells. Peas should be picked when the pods are plump and bright green. When pea pods are somewhat wrinkled and show streaks of white, the peas are too old for enjoyable eating.

Cut the outer leaves of Swiss chard when they are no more than ten or twelve inches long. Let the inner ones continue to grow, always cutting before they are grown to full size.

Be sure to cut sprouting broccoli while the buds are green and tightly closed. When they open and begin to show a hint of yellow, they have lost their fresh new goodness. Cauliflower, cousin to sprouting broccoli, should have heads that are firm and creamy

white. Spongy looking heads are past their prime.

Too young sweet corn has neither flavor nor substance; too old, it is mealy and usually tough. It's exactly right when ears are well filled and kernels spurt milky juice at the prick of a thumb nail.

Cut kohlrabi bulbs when between one and three inches in diameter. Larger than that they are likely to be tough as shoe leather. Turnips are best at medium size, rutabagas when fully grown under cool moist conditions.

Let parsnips and salsify or vegetable oyster stay in the ground until late fall. Then the roots should be fully developed. Some of them can be dug for winter use, but plan to leave at least part of the crop in the ground over winter. Dig them in early spring for flavor unsurpassed.

Mrs. Harry Seeley of Arlington spent the week end here visiting her husband. They went to Weston Saturday to visit their daughter.

Word was received here of the death of Mrs. David (Gladys Sromdahl) Lane in Spokane. Mrs. Lane was a grade student here and her parents lived here for several years.

Mr. and Mrs. Bill Hanson and daughters are spending a few days in Portland.

Mrs. George Butterwood returned last week from Chehalis where she had spent several weeks with her sister who is receiving medical care.

Mr. and Mrs. George Butterwood spent Wednesday in Portland.

W. Derry, new industries manager for the company, now en route east to make a circuit of the large centers of manufacture, chemical production and processing.

Purpose of Derry's trip is to make a personal "follow-up" of correspondence and earlier direct contacts with firms which might logically make plant investments in this region, according to Ramon Beatty, local manager for P. P. & L.

**TIRE INCREASE NOT EXPECTED**

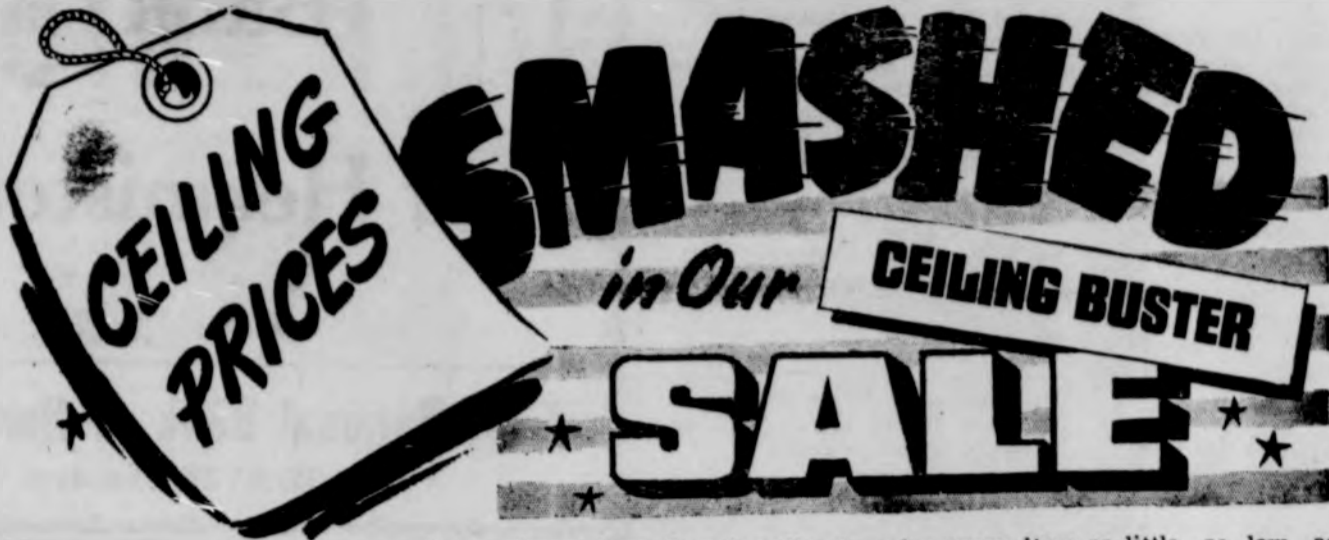

The advent of warmer weather will doubtless show an upswing in demand for passenger car tires, Harold G. Rankin, OPA rationing board chairman, said today, but an increase in passenger tire production is not anticipated.

Rankin said the demand for truck tires will probably be greater than at any time since rationing started, but that no increase in quota is expected in either the large or smaller truck tire sizes. He emphasized need for recapping and other conservation measures.

**NEW INDUSTRY BEING SOUGHT**

Latest information about industrial opportunities in the territory served by Pacific Power & Light company will be put on the desks of many eastern industrialists during the next month by H.

**Let Stone's Help You to "Hold That Line" Against Inflation**

It has always been Stone's policy to price every item as little, as low, as possible. Consequently, you'll find many of our shelf prices far lower than our allowable "ceiling" prices . . . none higher, of course. We're pledged to fight inflation, to hold prices DOWN! Here's how—

- Clapp's Baby Foods**  
Ask your doctor about Clapp's Baby Foods.  
Tin ..... **.07**
