NEWS IN BRIEF

Sandstone sixth-graders celebrate baseball challenge

Sandstone Middle School sixth-graders lived up the last two months of school with a "Take Me Out To The Ballgame" theme, where math and science classes integrated vocabulary, percentages, measurements, fractions, graphs, averages and story problems and other concept lessons around baseball. Language arts and reading classes incorporated writing and spring reading goals and competed against each other to see which class would win a "World Series of Reading."

To celebrate, "Dusty," the Tri-Cities Dust Devils mascot, ended the challenge with a surprise visit and honored the sixth-graders with free season baseball tickets to the top-winning readers from each class.

The following winners earned two tickets for any game of the season:

Shawn Conant, first-period reader from Team Uter

Pagie Counsell, first-period reader from Team Tew

Michael Garza, first-period reader from Team Wick

Brandon Rivera, fourth-period reader from Team Tew

The highest point reader was David Alatorre, fourth-period reader from Team Wick.

First-year teacher Daniel Tew's fourth-period block team crept up on Team Wick's total of 567 with a whopping 587 points, earning Tew two tickets to any game this season, as well.

The Tri-Cities Dust Devils are affiliated with the San Diego Padres, and Dusty awarded Sandstone Middle School with a baseball night June 24. Sandstone Middle School will receive \$1 back to the school for every person who comes to the game. Gates open at 6:15 p.m. The Dust Devils will be playing the Vancouver Canadians, and anyone who comes will receive hot dogs and Coke products for \$1. Also, all Hermiston students will get to participate in the in-field promotion activities, and Dusty will be signing autographs.

PROUD TO SUPPORT THE SUCCESS OF STUDENT BUILDERS

Energy Trust of Oregon congratulates the Columbia Basin Student Homebuilder Program on a job well done. This unique education opportunity allows students to work with industry experts to design, construct and sell a new energy-efficient home each year.

With technical guidance from Energy Trust, each student-built home meets EPS™ standards for quality, comfort and efficiency. EPS is a scoring system that measures home energy performance, and qualified projects are at least 10 percent more efficient than standard newly built homes. The student-built home in Hermiston is an impressive 25 percent more efficient. Now that's an achievement worth celebrating.
