

# Rivoli Coalition

## PROGRAM OVERVIEW

Currently, the Rivoli Coalition is working on Phase One of restoration of Pendleton's Historic Rivoli Theater. This Phase includes initial theater framework design and construction. The Coalition anticipates completion of Phase One fundraising in April, 2016. The Coalition will then host a team of architects and engineers, who will develop Phase One architectural plans.

The Rivoli Coalition will begin architectural and structural design work in 2016. The project will be directed by Opsis Architecture and Froelich Engineering. When this first phase of design work is complete, the Rivoli Coalition will begin the first phase of theater construction.

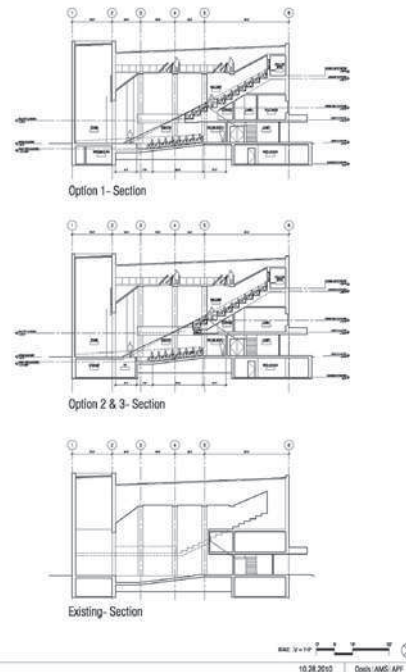

## VOLUNTEER

Volunteer opportunities in 2016 include hosting members of the Architecture and Engineering team, as well as assisting with fundraising events in January, February and March. Please contact us for details.

## GIVING OPPORTUNITIES

The Coalition will host three fundraising events in early 2016 — more information will be available soon. Updates will be posted to the Rivoli Coalition website and Facebook page.
