Advanced Hydropower, Inc. Project No.14837-000

NOTICE OF PRELIMINARY PERMIT APPLICATION ACCEPTED FOR FILING AND SOLICITING COMMENTS, MOTIONS TO INTERVENE, AND COMPETING APPLICATIONS

(May 8, 2017)

On January 24, 2017, Advanced Hydropower, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the McNary Dam Advanced Hydropower Project (project) to be located at U.S. Corps of Engineer's (Corps) McNary Dam near Plymouth in Benton County, Washington and Umatilla in Umatilla County, Oregon. The purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would use the Corps' existing spillway bays 1 and 2 at the McNary Dam, and would consist of the following new facilities: (1) a 110-foot-wide, 440-foot-high intake channel with gates and trash racks from the existing spillway bays 1 and 2 of the McNary Dam spillway; (2) a 38-foot-wide, 40-foot-high, 50-foot-long concrete penstock; (3) a 49-megawatt Alden turbine; (4) a draft tube discharging flows to the existing tailrace; (5) a 1.5-mile-long, 13.8- or 23-kilovolt transmission line interconnecting with the existing McNary Dam switchyard; and (6) appurtenant facilities*. The estimated annual generation of the project would be 190 gigawatt-hours.

Applicant Contact: Mr. Kurt Ross, Advanced Hydropower, Inc., 925 Fairgrounds Road, Goldendale, Washington 98620; phone: (509) 773-5650.

*In a letter filed on April 11, 2017, the Corps states it believes the Commission lacks jurisdiction over hydropower development at the McNary Dam. However, the Corps also states it does not oppose the issuance of a preliminary permit on operational grounds despite noting several potential concerns with the proposal. *Compare Advanced Hydropower, Inc.*, 155 FERC ¶ 61,007 (2016) (denying preliminary permit application following Corps' February 8, 2016 comments opposing the project) and *Loxbridge Partners, LLC*, 156 FERC ¶ 62,163 (2016) (denying preliminary permit application following Corps' August 2, 2016 comments opposing the project and requesting that staff reject the permit application), with *Rivertec Partners, LLC*, 156 FERC ¶ 62,060 (2016) (issuing preliminary permit following Corps' April 13, 2016 comments that it has no objections to the permit application).
