

THE POWER OF COMMUNITY

Thank You for Staying Safe and Supporting Our Storm Restoration Efforts

At the peak of recent devastating windstorms, nearly one-half of our electric cooperative membership was without power at one time.

THANK YOU to **line crews** who worked relentlessly, and their spouses and families for their support and understanding during this storm. Thank you to **UEC employees** who spent days and nights supporting the crews and keeping efforts organized and safe.

THANK YOU to **Columbia Basin Electric Cooperative, Magnum Power and Asplundh Tree Company** for helping restore power to homes, farms and businesses in our service territory. Your assistance was vital to our response!

THANK YOU to our **cooperative membership and communities** for your patience and heartwarming efforts to help families, friends and neighbors as they removed trees off homes, business and roads. This storm proves how deep the community spirit runs in Northeast Oregon.
