The plan is to anchor floating stations at intervals between Newfoundland and Landsend, the stations to be provided with crews, provisions and Eiffel tower. electric light towers, and to be connected with the submarine cable. The scheme is claimed to be entirely feasible.

THOSE tender-hearted people of the eastern states who prated so piously of the "fatherhood of God and brotherhood of man" when California was making every effort to limit the immense Chinese immigration are now having a much closer acquaintance with these "brothers" than they desire. There are thousands in New York city, and the is rotting in the fields. police records are burdened with their names, while celestial opium joints and gambling dens are numerous.

LAST Tuesday week Lynn, the great shoe manufacturing city of Massachusetts; was visited by the greatest fire, with two exceptions, that ever occurred in New England. The fire started about noon, burned with fury for over eight hours, and devastated a square mile of the business section of the city, causing a loss estimated at \$10,000,000. Over 6,000 persons were thrown out of employment and 200 families rendered homeless.

W. S. MOFFITT, of Eau Claire, Wis., has been notified that he is one of the heirs of the celebrated Moffitt estate in Ireland. Tun Tribune building, in Minneapolis, was destroyed by fire last Saturday night, and it is believed that ten or more lives were lost. The building was eight stories high and was occupied by several newspapers and other offices. It had long been regarded as a death trap, the facilities for escape in case of fire being shamefully inadequate.

In our issue of December 12th we will print an order entitling the holder to a pattern (free) of the above basque, in sizes for 34, 36, 38 or 40 inches in bust measure. A pattern of this stylish garment is very useful to any lady, as by simply leaving off the revers a plain basque is obtained, which is always desirable; and it is just such a pattern as every lady should have in the house. We have made arrangements with a New York house to furnish these patterns in the different sizes, as above, so that the holder of the "Pattern Order" may have the size she may desire. This is a great offer, as each pattern has a full value of 25 cents, being accompanied by an illustration and explicit directions for putting together and making. All present subscribers to the Buncar and all who subscribe before De-cember 12th will be entitled to one of these patterns free. WEEKLY BUDGET, Lexington, Or.
