The Wheatfield is quite productive, yet vegetables do not yield well in the stubblefield, so we must depend on someone else to raise them. If you have more than you need and cannot sell them any place else, bring them in to us and trade them on subscription. If you have no vegetables bring fruit instead.

One of the needs of Lexington is a station agent. We believe the amount of business done at this station would justify the company in keeping an agent here. Every train brings freight and express to Lexington which has to be looked after by the owners or some one for them. Our citizens should take this matter up with the railroad company and shown some good reason why Lexington is not given the service she is entitled to from the Company.
