Success Magazine:- Laughter is undoubtedly one of Nature's greatest tonics. It brings the disordered faculties and functions into harmony, it lubricates the mental bearings and prevents the friction which monotonous, exciting business engenders. It is a divine gift bestowed upon us as a life preserver, a health promoter, a joy generator, a success-maker. Life, with the average American, is too serious at best. Never lose an opportunity for relaxation from the stress and strain of your business or profession. Every draught of laughter, like an air cushion, eases you over the jolts and the hard places on life's highway. Laughter is always healthy. It tends to bring every abnormal condition back to the normal. It is a panacea for headaches for life's bruises. It is a life prolonger. People who laugh heartily keep themselves in physical and mental harmony, and are likely to live longer than those who take life too seriously.

BLESS THE MAN OF CHEER

Some unknown philosopher says: "We love the man with roses on his tongue, the man who sees the boy's dirty face, but mentions his bright eyes; who notices your shabby coat, but praises your studious habits; the man who sees all the faults, but whose tongue is quick to praise and slow to blame. We like to meet a man

whose smile will light up dreariness, whose voice is full of music of the birds, whose handshake is an inspiration and his "God bless you" a benediction. He makes us forget our troubles as the raven's dismal croak is forgotten when the woodthrush sings. God bless the man of cheer. There is plenty of trouble here, but we need not increase it. There is lot of dying done ahead.
