**LOCAL NEWS**

The Wheatfield job department has been quite busy the past two weeks, but then we like to work, it's good healthy exercise.

A Phonograph makes a splendid Christmas present for the children. Call at the Wheatfield Printery and place an order for one.

Another of those pleasant dance is billed for Thursday evening, November 30th. Don't fail to attend for you will miss it if you miss it.

All my accounts have been left W. P. McMillan for collection. All those knowing themselves indebted to me will call there and make settlement.  
DR. C. C. CHICK.

We have the agency for the Edison Phonograph and Records. If you contemplate buying a phonograph, call and get our prices. We can and do sell them as cheap as the large mail order houses, besides saving some freight.

**To Whiten Linen.**

Handkerchiefs and doilies that have become yellow from the use of too much soap or from old age may be whitened in the following simple manner: After they have been washed in the usual way in soft water with a good soap, put them to soak overnight in clean water into which has been put some cream of tartar. A teaspoonful to a quart of water is the right proportion. After they have been rinsed and ironed the next day they will be almost as white as when new.

**Washing Black Muslin.**

Boil two quarts of wheat bran in two gallons of water for half an hour. Set aside until lukewarm; then strain through a cheesecloth bag, pressing hard. If thick, thin with cold water to the consistency of what is known as "raw starch water." Wash the lawn in this, using neither soap nor starch. Shake and wring and hang in the shade to dry. While still damp iron on the wrong side over old flannel tacked upon the ironing board.

**To Remove Mildew.**

A spoonful of chloride of lime in a quart of water and strained through flannel is the best solution to use to remove mildew. Soak the spots in the solution for about a minute and then lay it in the sun. If the spots have not disappeared repeat the process. Sour milk and salt is also very good, but in any case plenty of strong sunlight is essential.

**Laundry Hints.**

Cold rain water and soap will remove machine grease.  
A little borax in the last rinsing water will make handkerchiefs easier to iron and look better when done.  
Ten cents' worth of sugar of lead in three gallons of soft water will prevent any color of blue from fading in the laundering.

**Tomato Butter.**

To nine pounds of ripe tomatoes, peeled and sliced, allow three pounds of sugar, a pint of vinegar, three tablespoonfuls of cinnamon, one and one-half tablespoonfuls of allspice and a tablespoonful of cloves; cook until thick, stirring often to prevent scorching.

**Laundrying Battenberg.**

Soap the doilies well. Let stand in warm water and a little ammonia for an hour or so. Give a good rinsing. Tack a piece of white cloth the size of doily to the carpet, pin every point down firm, stretch good and let stay until thoroughly dry.
