### EQUAL SUFFRAGE.

Arrangements have been made with the State Association to publish their communications on this subject—Ed.

The Boston Transcript publishes an article that will find hearty endorsement by Oregon Women. It says:

"That reform has won such a victory in Philadelphia is due (as the new leaders willingly concede) in large measure to the influence of the good women of the Quaker City. The women brought into the campaign, it appears, the most approved and perfected plans. They were instant and prompt in method.

"The work of the women in both the great cities of the Atlantic seaboard, this fall, for the purification of municipal administration, is significant and impressive. It is regarded in some quarters, and with manifest show of reasonableness, as an index of the distinct trend of the times toward the day when public-spirited and capable women will be called, not only to subsidiary service, but to the fullest exercise of their abilities and leisure in civic and national housekeeping."

Women are daily demonstrating in their clubs and social duties a high aptitude for method and organization

This training enables the up-to-date women to participate in public affairs with credit to herself and benefit to the community. The public spirited woman needs but the opportunity to apply her patriotism and wisdom to affairs of state and nation. Oregon has many women who could serve with zeal and discretion making this the greatest state on the Pacific coast. But to have a voice in promoting the public good she must be a constituent and armed with the ballot to enforce her views.
