The most mistaken endeavor and fervor is better than sleek apathy and indifference. They are making the least out of life who are ever thinking of what they can make. He who is too busy to listen to they voice of a child is likely to miss they voice of his lord. The feet of men are not kept in the cath of right by the light of brillian thoughts alone. The heretic hunter thinks that the cutting of many thistles will create an least a few roses. How would the men who are goind to heaven on their wives' religion lood wearing their wives' wings? Not he who has no weakness is the strong man, but he who makes there serve his strength. The best cure for the blues is the to heaven of yourself and best
