#### A REAL KING IN AMERICA.

Man of Great Ambition and Wealth Could Make Potentates Cringe. What about these sons of the rich, these princes of our money aristoc-

racy? How much chance is there that one of them will develop the genius of the founder of his line, and instead of squandering millions will accumulate tens of millions; instead of living in useless luxury on his income will prove himself a force in the industrial and financial world, a man able to fight and conquer like his father or grand-

Extraordinary happenings are always unexpected, yet once in a century or so, like the advent of a mighty conquerer or reformer, they do come to pass. And if there should arise in this land a man of thirty or forty who, starting with two or three billions (owned or controlled by him) should be great enough to brush aside the trammels of indolence and temptation, great enough to see that never in modern times has there been offered to a man, not even to Napoleon, so stupendous a chance as this to wield absolute power, great enough finally to potentiality, then-well, there would surely be interesting history made in fron kings, railroad kings, copper had yet. A real king? Yes, for how long, pray, would this republic stand against the aggressions of such a man, a great-minded despot without conscience or bounds to his ambition, one in comparison to whom our Rockefellers and Carnegies would seem like blundering beginners? Already our millionaire magnates have begun to buy our courts and legislatures, to corthe laws, own the newspapers, subsi- quick oven. dize churches and colleges, mold public opinion, direct the machinery of justice, control the industries, the banks, the insurance companies, the conditions of labor, regulate supply and demand, fix prices, absorb profits, centralize everything, be everything. Why not? Even as things are, has the world any king more powerful than J. P. Morgan or John D. Rockefeller? Remember how Europe cringed to Mr. Morgan at his last visit, with emperors seeking his favor and princes waiting at his door. A real king? Why, we practically have two of them already!-Cleveland Moffett in Success

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in deing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for testimonials.
