TOO BUSY FOR REVISION Senator Warren Says Country Is Too

Prosperous to Think of Tariff. Washington, June 29 .- Senator War-

ren made a speech in the senate today on his resolution calling on the director of the census for a statement covering the extent of the livestock industry of the United States and of the foreign

business in this country in leather and raw material. He cited the recent agitation concerning this industry as his reason for seeking this information. He confidently asserted that the statement would show an astonishing increase and that the product of not less than \$2,000,000,000 annually, more than the value of all the gold produced by the United States in the entire history of the country.

Warren pronounced as unjust and selfish the demand made by the manufacturers for free hides. He said that while the livestock men do not envy

Massachusetts its prosperity they do not desire to add to it by taking off the appeal for the continuance of the tariff.

"We are," he said, "too busy, too well employed, too well paid for our labor, too prosperous to think seriously of tariff revision in the year of our Lord, 1906."

ly are exercising a great degree of con-fidence in the city's future prosperity."

Olans Spreckles, of San Francisco, who with his wife was in San Francisco yesterday, thus expressed himself in discussing the future of his home city. All financial interests, he said, although he spoke especially for the sugar interests, were firm in the belief that San Francisco would become the

largest and most important port of entry in the western hemisphere.

"When our Oriental trade, already large, has become still larger, and when new modern buildings have eprung up out of the ruins, as they surely will, San Francisco will be a greater city in all ways," he said.

o'clock tomorrow.

Thursday, June 28.

Washingtno, June 28 .- The senate consumed the greater part of the day discussing the public building bill. Efforts by several senators to secure increases for public buildings in cities and towns of their respective states were in no instance successful. For San Juan Porto Rico, Senator Foraker secured an advance from \$200,000 to \$300,000. In reporting the bill, Senator Scott, chairman of the committee on public buildings and grounds, referred to it as "the pork harrel."

The agricultural bill reappeared in a partial conference report. The report was complete, except with reference to the meat inspection provision, and on that another conference was ordered.

There was some desultery discussion of the conference report on the pure-food bill, but its disposition was postponed until tomorrow.

Washington, June 28. - The house worked under forced draft today and accomplished an immense amount of business preparatory to adjournment at the week's end. Conference reports on a number of measures were adopted without debate, but it required special rules in other properties to effect consideration and adoption of some important conference agreements.

Interests centered about the conference reports on the railroad rale bill and the agricultural appropriation bill. Both were considered and adopted under a blanket rule permitting the consideration of conference reports without being printed in the Record.

Wednesday, June 27.

Washngton, June 27 .- The senate was in open session for about five hours and a half today, and, notwithstanding the ression began with a roll call in order to assure a quorum, the day was crowded with business of importance, including the announcement by Senator Proctor, chairman of the senate committee on agriculture, of a deadlock in conference on the meat inspection provision of the agricultural appropriation bill; a reply by Senator Bailey to the recent attack upon him in the Cosmopolitan magazine; the passage of the naturalization bill; the continuance of Senator La Follette's effort to pass his bill limiting the hours of service on railroad trains, the acceptance of an almost complete report on the sundry civil appropriation bill, and a speech by Senator Warren in support of his resolution relative to the livestock industry.

Washington, June 27. - The general deficiency bill, the last of the big money measures, passed the house at 6 o'clock today, with few changes in the bill. Several items were inserted, due to late information of deficiencies in the departments, the net increase being about \$600,000 over the bill as reported from the committee on appropriations.

Among the important actions of the house today were the passage of the senate bill providing for a lock type of canal and the adoption of the item in the general deficiency bill ratifying and legalizing the duties collected during President McKinley's term from imports from the Phlippine islands.

NEWSPAPER SHOPS SEIZED.

Government Attempts to Suppress Ac-

counts of Mutiny in Army. St. Petersburg, June 27 .- The government, taking advantage of the effect produced by the frankness and sincerity of Interior Minister Stolypin's declarations in the lower house of parliament, has taken prompt steps to prevent any further anti-Semitic disturbances. But this effect is waning and the impossibility of the present situation is daily coming more to the fore. The sentiment in favor of a change in the ministry is now not only shared by the lower and upper houses of parliament, and voiced by the entire press, but is supported by a strong faction at court.

The revolutionists are jubilant at the progress made by the military propaganda. The conservative Novoe Vremya today devotes a leading editorial to the subject, and the radical organs print columns of accounts of military troubles, some of which undoubtedly were invented for suggestive effect, but the majority were based on fact.

STAY WITH WORK.

Cannon Says Congress Must Finish Before It Can Adjourn.

Washington, June 27 .- Congress will stay in session until its work is finished. This is the dictum of Speaker Cannon and his lieutenants, and is being emphasized at this time to counteract any impression that the pure tood bill, at least, might go over until the next session.

There is also trouble on the meat inspection bill, and the "tie up" on the railroad rate bill indicates delay. The immigration bill is also in conference, as are several of the appropriation bills. All of these things must be worked out without any date of adjournment being set, according to the decision of the house leaders. When the work is done an adjournment resolution will be forthcoming in short order.

While the situation today spells desy until next week; the work on the floor is progressing. Members say there is no need to prolong the session beyond Friday, if the conferees make up their minds that the work must be done or that agreements which will meet all demands can be arranged on all matters before that time, and that if the idea of prolonging the session for the purpose of killing certain bills is abandoned, this week will see the end.

SPREAD FERMENT.

substitute for the educational test, providing that the whole matter be submitted to a commission, was adopted by a close vote. The most important feature of the bill were thus eliminated and the bill was passed without division.

At 5:35 p. m. the house took a recess until 8 o'clock this evening to devote three hours to oratory.

Saturday, June 23.

Washington, June 23 .- Shortly after noon today Senator Cullom signed the conference report on the railroad rate bill, adding his name to that of Senators Elkins and Representatives Hepburn, Sherman and Richardson. Senator Tillman did not sign the report, and it was turned over to Representative Hepburn to present to the house. It is expected the refusal of Senator Tillman to subscribe to the agreement in regard to the McLaurin commodity amendment, which would permit pipe lines to carry commodities they produce, will result in debate in the senate when the report is presented there for adoption.

Earthquake In Wales.

Cardiff, Wales, June 29. - Violent earthquake shocks were felt throughout South Wales at 94:5 this morning. Houses rocked and many of the cheaper ones were damaged. Hundreds of chimneys fell, occupants of dwellings weret hrown to the ground and people fled from their houses, shrieking in panic, with visions of the San Francisco disaster before them. Though there were many narrow escapes from falling chimneys and copings, there were no casualties so far as known. Earthquake shocks were also felt at Bristol, Ilfracombe and elsewhere. They were accompanied by loud rumblings.

Tuesday, June 26.

Washington, June 26 .- After two or three more speeches on the conference report on the railroad rate bill, the senate today sent the bill back to conference, again designating Senators Tillman, Elkins and Cullom as conferees. During the day the naval appropriattion bolill, which has been in conference for several weeks, was finally passed, the senate receding from its amendment concerning the naval training station at Port Rofyal, S. C., which was the only item remaining in controversy. The most interesting incident was a conflict over a motion by Senator LaFollette to enter upon the consideration of the bill limiting to 16 years the time railroad employes engaged in the movement of trains may be employed consecutively.

Washington, June 26 .- A bill recently passed by congress providing for the opening to settlement of the Blackfoot Indian reservation in Montana probably will be recalled by resolution of the house. President Roosevelt hesitates to veto the measure, but he has been shore of Lake Erie for a distance of informed by the bureau of Indian 100 miles, the eastern limit being affairs that the bill does not sufficiently protect the water rights on the land subject to allotment to the Indians. It is likely the measure will go over until pristion bill.

Russian Parliament Openly Advocates Revolution.

St. Petersburg, June 27 .- The session of the lower house of parliament today was openly devoted to the revolutionist propaganda for undermining the loyalty of the troops. A score of speeches couched in ardent revolutionary tone were delivered, with the direct object of their dissemination among the soldiers.

The authorities, who are able to confiscate papers containing telegraph accounts of the ferment among the soldiery, are unable to prevent the publication of parliamentary speeches, and those delivered today will tomorrow be printed in every radical paper in the empire and so find their way into every barracks, camp and outpost.

The rostrum was abandoned almost entirely to Cossack representatives. The conservative Cossacks did their best to counteract the addresses of their revolutionary conferees. The lie was freely passed on both sides regarding the sentiments of the Cossack soldiers and their devotion to duty, in spite of the utmost efforts of Prince Paul Dolgourokoff, who occupied the chair in the absence of President Mouromtseff.
