LEXINGTON GROWS WITHOUT WATCHING

# LEXINGTON WHEATFIELD

VOL. I

LEXINGTON, OREGON, THURSDAY AUGUST 2, 1906

NO. 45

## COUNTY NEWS.

Home Proclaimer—

Miss Nina Dorman returned yesterday from Heppner where she has been working in the Pastime the past six months.

Rev. J. L. Jones and daughter, Margueret, went to Weiser, Idaho, Wednesday, where Margueret will make her home with her aunt, Mrs. Roy Buerley.

Heppner Times—

An indication that a very large amount of grain is being harvested in this county is that almost every day now farmers are in for farm machinery. Threshing will start up about the first of next week.

N. Williamson of Moscow, Idaho, buys the entire stock of the Fair Store. A bill of sale has been filed with County Clerk Hill from S. E. Carr to N. Williamson for all the merchandise and fixtures of the Fair Store.

The dog killer has been at large the past few days in Heppner and the result is some dozen dead dogs, some of which were classed as very fine animals. While our city may have altogether too many worthless curs, it would seem that a more humane method than poisoning might be employed in disposing of them.

Heppner Gazette—

Garfield Crawford returned from

Portland, Saturday. He left Monday for Burns where he goes to take charge of a Burns newspaper.

Work is now progressing on Frank Roberts' new building which will be used as a skating rink. This building which is 40x120 feet will contain more floor space than any single room in Heppner. There will be a fine hard wood floor and the rink will be one of the finest in the country.

### Adulterated Leather.

The Scientific American takes occasion to call attention to adulterated leather. Lightweight stock is made to pass the weight test by the use of glucose and barium. Leather so treated has a peculiar quality of absorbing moisture at all times. Shoes made from such stock are never dry and are a constant menace to the health of the wearer.

### "Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea. Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by W. P. Mc Millan's Drug Store.

### "Cheap and Nasty."

Professor Rouleaux, who died in Berlin recently, is said to have originated the phrase "cheap and ugly" or, as it is now more commonly quoted in this country, "cheap and nasty." He was the rector of the Berlin Academy of Commerce and came to this country in 1876 as head of the German jury on the German exhibits at the Philadelphia exhibition in 1876. He used the phrase in his official report to describe some of the exhibits.

History, English Literature.
