## LEXINGTON CREAMERY

### Completed and Ready for the Butter Maker

#### BUILDING AND MACHINERY MODERN THROUGHOUT

On Monday last the Lexington Creamery was pronounced complete and formally turned over to the Executive Committee to be transferred by them to the Lexington Creamery Company. Everything is in shape and ready for the butter maker to assume charge and commence operations.

#### THE BUILDING

The building is twentyfour feet wide and thirtytwo feet long with an addition or L twelve feet wide and twentyfour feet long. The building is divided into four rooms, viz: Manufacturing room, Boiler and Engine room, Office and a Cooling room. All put up in a workmanlike manner and finished with two coats of paint on the outside.

#### EQUIPMENT

The equipment is the latest improved in every respect and is better than the contract called for. It is equipped with a ten horse power boiler, six

horse power engine, 300 gallon twin cream vat, 500 gallon receiving vat, DeLaval separator with a capacity of 1800 pounds of milk per hour, operated with a steam turbine motor independent of the engine; skim milk tank, automatic skim milk weigher, receiver-scales, water tank, Disbrow combined churn and butter worker, Babcock tester with steam turbine motor and in fact everything needed to commence operations. The entire building is piped for steam and water at every point where either will be needed. The office is equipped with a good substantial flat top desk and office chair. The entire building is furnished with steam heat, two radiators be-

#### "Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea. Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by W. P. Mc Millans' Drug Store.

ing furnished for that purpose. Taken as a whole the plant is modern and would be a credit to a town many times larger than Lexington. It is expected that the butter maker will arrive in time to commence operations by September 1st, although he has been delayed on account of sickness, when the Lexington creamery will commence turning out as good a grade of butter as any creamery in existence.

#### SENTENCE SERMONS

By Henry F. Cope.

Self shrinks the soul.

The keen eye needs the kindly heart.

There's no argument equal to a happy smile.

Imaginary evils have more the imaginary effects.

You never find truth by losing the temper.

Menial work may be noblest service.

Homes are often closest knit about some grave of separation.

Weapons that fly off the handle have little effect on the walls of sin.

The leaders of men are not the ones who are trying to get ahead of their fellows.

The life that would be fruitful seeks shower as well as sunshine.

You cannot travel toward heaven with your back turned to honor.

Earthly prudence is a large part of heavenly providence.

When two churches find a bone of contention you may be sure the devil has the meat.

Many a man thinks that taking a lease on a front pew gives him a freehold on a corner lot in heaven;

Success is not in an endeavor to do a great thing, but in repeated endeavors to do greater things.

In the European cathedrals they gather the dust of the dead, but in the American churches the great thing is to get the dust of the living

When a man says "I will," something may be done, but when a woman says "I will," something has got to be done.

#### HE WAS IN TROUBLE

"I was in trouble, but found a way out of it, and I'm a happy man again, since Dr. King's New Life Pills cured me of chronic constipation," says E. W. Goodles, 107 St. Louis St., Dallas, Mex. Guaranteed satisfactory, Price 25 cents at W. P. McMillan drug store.
