The Magic Seed Box.
Procure a large pill box and push the bottom in a little way; then get some gum and stick a small portion of canary or other seed on the bottom so as to make it appear a full box. Obtain a small bag with a little seed in it and pretend to fill the box, but instead of doing so only bring out a little seed on the bottom. Afterward rub the loose seed off, and the audience, seeing the seed that is fast on, will naturally think the box is full. Then take the box in the right hand, a cap or hat in the left hand and cover the box and show the empty side. Again cover the box and say: "Presto! Come back!" Turn the box and show the full side.

WOUNDS, BRUISES AND BURNS

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principal. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by W. P. McMillan's Drug Store.
