Nothing definite has been done by those talking of taking up review work preparatory to taking the teachers examination in February. The scarcity of teachers and the fair wages paid for teaching should lead some of our folks to take up this work. This review class if started should commence not later than the first of November. No extra changes will be made to anyone taking the course. In addition to the common school branches special work will be given in theory and practice of teaching, school law, course of study and current events.

WOUNDS, BRUISES AND BURNS

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principal. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by W. P. McMILLAN'S Drug Store.

The Wheatfield prints the news.
