A LESSON FOR DAD

An old gentleman farmer, who had two or three very pretty daughters, was so very anxious of his charge that he would not permit them to keep the company of young men. However, they adopted the following expedient to enjoy the society of their lovers, without the knowledge of their father.

After the old man had retired to rest, the girls would hang a sheet out of the window, which was quite a distance from the ground, and the beau would seize hold of it, and with the assistance of his lady-love, who tugged lustily at the end above, would thus gain an entrance. But it so happened that one evening the girls hung out the sheet rather early; for the old gentleman, by some ill wind, was blown around the corner, and spying the bed covering could not conjecture the meaning of it being there. He took hold and endeavored to pull it down. The girls, supposing it to be one of their beaux, began to hoist, and did not discover their mistake until the head of the old man was level with the window sill, when one of them exclaimed: "O Lord, it's dad!" and letting go their hold, souse came the old man on

IN TIME OF PEACE

In the first months of the Russo-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled thier roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by W. P. McMillan's drug store.
