An organization of capital is about to be completed which will have for its primary object the building and operating an electric railway from Irrigon to Lexington, through the very best of Morrow county. This road will no doubt, make a great difference in the traffic to lone and Lexington over the O. R. & N., as stations will be established along this new line that will naturally attract trade that has been going to these points. Freight for interior points will be consigned to Lexington, as it is estimated that the difference in transportation charges justify the longer haul by team. Connection will be made with river steamers and with the north bank road by ferry, thus insuring a low freight rate to the Portland markets. With this road in operation the O. R. & N. may be expected to sit up and take notice of Lexington and perhaps put an agent at this station.

The bride never looked lovelier than on the occasion of her wedding being beautifully attired in a dress of white silk crepe de chene with trimmings of lace and ribbon and wearing a lovely veil and orange blossoms. She carried a bouquet of white chrysanthemums and ferns.

Miss Barnett was charming in a dress of pale blue silk mull and white lace, with bouquet of pale pink chrysanthemums.

**IN TIME OF PEACE**

In the first months of the Russo-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled thier roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by W. P. McMillan's drug store.

The Wheatfield prints the news.
