AMENDMENT

For the benefit of the rural schools, which merely comply with law, and to raise the standard of school work, in rural districts and to give the pupils, in said districts, an equal advantage with other pupils, we recommend that the compulsory law be extended from three months to five or more months.

(The following were received too late for publication last week.)

School closed on Tuesday evening to allow the teachers to attend the county institute at Heppner. Next Monday it will open again. The school law provides that all teachers must attend so there is no two ways a- bout it, all teachers must go. How- ever it is a very wise idea that such provisions are made as much better results are obtainable when all must be present. When it is noticed that such men as Supt. Ackermen and many others from the leading institutions in the state are there, then it is quite evident that a teacher can get suffi- cient number of new ideas and enough new inspiration to more than counter- balance a few days lost. These in- stitutes serve as a school for the teach- er and are very beneficial.

Examinations were held the first two days of the week, a report of the result will be given in next weeks issue.

Several new pupils have entered school and the enrollment is now the largest it has ever been.

The debate Friday afternoon was quite warmly contested. The quest-

Bee's Laxative Honey and Tar the original laxative cough syrup acts as a cathartic on the bowels. It is made from the tar gathered from the pine trees of our own country, therefore is the best for children. It is good for coughs, colds, croup, whooping cough, etc. Try our free offer. Sold by W. P. McMillan's drug store.
