We often read a lot of trash in the exchanges about the "poor editor" and what a hard time he has, about subscribers who read the paper and never pay for it, etc. Such rot is disgusting to an ordinarily intelligent newspaper man. The newspaper man should have no more troubles and no harder time than any other business man. He can be just as independent as any man on earth if he chooses to be. But if he allows himself to be influenced by this or that organization or sect and is afraid to speak out his convictions he surely will have hard times. We might suggest also that he turn down all 3 cent per inch advertising propositions and reject all complimentary tickets in exchange for advertising.

Common Colds are the Cause of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Every one knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful

drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by W. P. McMillan's Drug Store.
