TWENTY KILLED.

Heavily Loaded Electric Train Leaves the Track.

New York, Feb. 18.—Sixteen passengers were killed outright, four others have died of their injuries, and at least 50 more were more or less seriously injured in the wreck of the White Plains and Brewster express on the Harlem division of the New York Central & Hudson River railroad, near Woodlawn road in the Bronx borough of Greater New York Saturday evening.

The train left the Grand Central station at 6:13 o'clock, drawn by two heavy electric motors, and loaded with a matinee crowd and commuters on their way home from business in the city. It consisted of a combination baggage and smoking car, and five coaches. After stopping at One Hundred and Twenty-fifth street, the train was scheduled to run express to White Plains. At Woodlawn road the four tracks pass through a rough, rocky cut and take a sharp curve. When the train reached the curve it was running at a speed estimated at 60 miles an hour. Both motors and the smoking car swung safely around the curve, but the other cars left the rails and plunged over the sides with a terrific crash, tearing up the tracks for a hundred yards before they collapsed.

The cause of the wreck has not been officially determined. At Grand Central station there was inclination to blame the accident to spreading rails, but later it was said that it was believed that the axle of the first passenger coach broke.

AGREEMENT WITH JAPAN NEXT.

Follow Passage of Immigration Bill—California's Case Weak.

Washington, Feb. 18.—The state department is awaiting the disposition by congress of the pending immigration bill before proceeding further with the consideration of the Japanese exclusion question. If the bill is enacted, an immediate effort will be made to come to a formal agreement with the Japanese government that will insure the continuance of the present policy of that government withholding passports to America to Japanese laborers.

So far as the pending legislation is concerned, it is stated that there is every reason to believe that it will be acceptable to the Japanese government; at any rate, there has not yet been the slightest sign of disapproval in that quarter.

An interesting fact that has developed in the discussion of the respective rights of state and nation where treaties are involved is that, in at least one case, the California courts have taken the most advanced grounds in favor of the supremacy of the treaties, in one instance holding that the treaty rights of aliens to possess real estate could not be destroyed by a state law.

LOSSES MADE KNOWN.

Fire Insurance Companies Suffered to Extent of \$180,000,000.

New York, Feb. 18.—The committee of the five of the thirty-five insurance companies which acted in unison in settling their San Francisco losses by fire and earthquake, today made public in this city the list of their net losses by the disaster. The estimated round value of the destroyed or damaged property insured by the 233 companies in San Francisco was \$315,000,000, and there was a net insurance loss of \$180,000,000, covered by 102,000 policies. The gross loss of all kinds by the disaster is estimated by the committee at \$1,000,000,000. The 35 companies, in their settlements, handled 42,077 claims.

The eight largest settlements on individual buildings were: San Francisco Hotel, \$992,200; Fairmount Hotel, \$200,000; Merchants' Exchange, \$582,000; Shreve building, \$384,497; Spreckels (Call) building, \$515,000; Chronicle building, \$480,000; Palace Hotel, \$1,265,000.

Milk Poisoned With Formaldehyds.

Chicago, Feb. 18.—That thousands of infants in Illinois as well as many larger children, are being sent to premature graves, is indicated by the special report by State Food Commissioner H. A. Jaynes. Commissioner Schuknucht points out that of 35 cities visited not one escaped having sold within its limits milk from unclean and unsanitary cans and vessels or milk not properly strained, showing a deposit of filth, and in 32 of the cities skimmed milk was sold as standard, and was adulterated with formaldehyde, which authorities pronounce a poison.

Signal Honor for Mulkey.

Washington, Feb. 18.—For half an hour Saturday Senator Mulkey, of Oregon, presided over the senate, while the Japanese question was under discussion.

# STORMY TIME NEAR

## Radical Victory In Russia Portends Violence.

### BOTH SIDES MAKE DIRE THREATS

#### Letters Menacing Reactionary Leaders Met by Notice of Retribution on Democrats.

St. Petersburg, Feb. 23.—The returns received today were only from 15 additional electoral districts, bringing the total number of members of the duma elected up to 410, as follows:

Monarchists, 75; Moderates, 35; Progressives, 23; Constitutional Democrats, 74; Left Party, 125; Nationalists, 40; indefinite, 11.

The Monarchists made the greatest gains, 12 seats, but they have about attained their full strength, as an over-weighting proportion of the 108 members yet to be elected will surely be opposition.

The results promise a stormy session. The bowling down of ministers will be supplemented by battles royal between the Radicals and the aggressive reactionists under the leadership of M. Kroushevian, the notorious anti-Semite of Kishineff.

M. Kroushevian has received many threatening letters, to which the organ of the reactionists, the Russian Banner, replies with a first page notice to the effect that Max Vinaer, Joseph Hessen, Professor Milukoff and M. Kishaveter, the Moscow members of parliament, all leaders of the Constitutional Democratic party, have been selected for retribution in case a hair of Kroushevian's head is harmed.

#### SAYS TRAFFIC IS DECLINING.

#### Hill Predicts a Gradual Reduction in Business Volume.

New York, Feb. 23.—James J. Hill, president of the Great Northern Railway company, who has returned from St. Paul, expressed the conviction yesterday that the tide of prosperity is turning and that there are indications of a significant recession in business. Mr. Hill phrased it, "the hills of prosperity are being reefed."

"General policies of retrenchment are under way," said Mr. Hill. "Less money is to be spent on new work. The effect of this movement is being felt at the present time in the falling off of orders. The beginning of this movement is very evident in Chicago."

"While I would scarcely call it a recession in business: it is more of a drawing in. The railroads are curtailing their expenses and placing fewer orders. On our lines we will finish the work we have under way, and that is all."

#### FAVORS SAN DOMINGO TREATY.

#### Senate Committee Reports on Plan for Collecting Revenue.

Washington, Feb. 23.—The committee on foreign relations today authorized a favorable report on the treaty with Santo Domingo relative to the collection of the revenues of that country by Americans. The Democrats voted against the report.

The treaty, which later was made public, provides for collection of the revenues of the Dominican republic for the benefit of creditors by a general receiver and assistants to be appointed by the president of the United States. The sums collected shall be applied as follows: First, to paying the expenses of the receivership; second, to the payment of interest upon bonds; third, to the payment of the annual sums provided for amortization of the bonds, including interest upon all bonds held in sinking fund; fourth, to the purchase and cancellation or the retirement and cancellation of such bonds as may be directed by the Dominican republic; fifth, the remainder to be paid to the Dominican republic.

#### No Connection With Japan.

Washington, Feb. 23.—It was stated at the White House today that the conference held there between the president, Secretary Metcalf and the general board of the navy had no bearing upon the relations between the United States and Japan. The statement was made that the name of Japan was not mentioned during the discussion. The conference, it was further stated, had to do in part with the general question of the personnel of the navy and the advisability of an increase of the strength of the entire navy.

#### Predicts War for Markets.

Chicago, Feb. 23.—"The time is coming when our manufactures will outgrow the country and men may be turned out of the factories," said Secretary of the Treasury Shaw in an address last night. "One of these fine days we are going to have an excess of manufactures," he said. "Then the world will not come after our manufactures."

#### FRISCO BUILDING UP.

#### Music of Saw and Hammer Continues Night and Day.

San Francisco, Feb. 19.—San Francisco, after all, is not going to allow the opportunities for civic betterment brought about by the earthquake and fire to go entirely neglected. A beginning, feeble enough though it be, has been made. Several of the downtown streets are to be widened. The heavy teaming and the congestion brought about where building is progressing have moved the board of supervisors to decree that portions of the sidewalks must be sacrificed to the thoroughfares. While this in itself is of importance for the future San Francisco, its greatest significance lies in the fact that it has met with general approval and represents the first signs of a willingness to make sacrifices for the city that is to be.

The magnificent programme of widened streets, parks and squares outlined for the city while the embers still glowed is a gradually passing vision, but those who unselfishly love San Francisco still have hope that part of the great plan at least will be realized. The street widening is the first ray of hope.

A walk about the burned section shows that a wonderful amount of rebuilding has been accomplished. Since the first of May new buildings to the value of \$45,000,000 have been begun. Plans are being drawn for a like amount. In every case the structures are erected under rush orders. In several instances work has continued night and day. The streets resound with the sound of the pile-driver, the saw and the hammer by night as well as by day. The last traces of gloom have given way to an abiding faith.

The promotion committee has issued a bulletin bearing on the population of San Francisco at the present time. The committee, after figuring by various methods, comes to the conclusion that the city now contains 428,000 persons. Before the fire the committee figured that the population of the city was 500,000. The figures of the Southern Pacific agree almost exactly with those of the promotion committee. Due allowance, however, must be made for the zeal of both bodies, and a fair and conservative estimate of the city's population would place it at about 400,000.

#### STATEHOOD STRIKES SNAG.

#### Farmers Are Wearying of Oklahoma Constitutional Convention.

Guthrie, Okla., Feb. 19.—Anxious to get busy with their plowing and fearing they will not receive pay for a long time, if ever, for their attendance on the constitutional convention, many of the farmer delegates have scattered to their homes, intimating that they will not return unless it is to vote for the document as a whole when it is completed by the few men in control of the convention.

The expense of the convention to date above the \$100,000 appropriation made by congress is nearly \$150,000. Pay of the delegates has stopped, and if congress does not come to the rescue with an additional appropriation, some of the delegates will be in a bad way, as they cannot afford to stay longer at their own expense. Advices are coming in from the state that citizens here and there are subscribing to funds to send the delegates back to their jobs. Neighboring farmers who do not wish to see the convention entirely in the hands of the lawyers, the politicians and the urban element, have promised to take care of the farm work of the rural statesmen. The daily attendance at the session is now less than 75 per cent of the 122 delegates, and many of those still here sit sullenly in their seats and let the leaders run things to suit themselves.

Prominent delegates from Indian Territory and some from Oklahoma are openly charged with a plot to defeat statehood entirely by drawing up a constitution that will be rejected by the people at the election next August. Those involved in the alleged plot have been against making one state out of the two territories for political reasons. Disaffection has now begun to pervade the democratic members as well as those on the republican side, and charges of bossism have become so persistent that there is apprehension the convention may break up.

#### Snow Assures Heavy Crops.

Ellensburg, Wash., Feb. 19.—If the heavy snow goes off gradually crops this year will be the largest in the history of Kittitas valley. Baled hay is now selling at \$22 a ton. Loose hay, alfalfa, is worth from \$12 to \$16 a ton in the field. Potatoes are worth \$30 a ton. The Northern Pacific, owing to shortage of cars and equipment, is unable to handle freight inward or outward bound, causing thousands of dollars loss to the railroad company and to the people.

#### Kansas May Give \$75,000.

Topeka, Kan., Feb. 19.—A bill appropriating \$75,000 for the Alaska-Yukon-Pacific Exposition was introduced in the senate this morning by the committee on ways and means. The proposition is to be held in Seattle in 1909, and the appropriation is to cover the cost of a building and making an exhibit for Kansas.
