Editor and Proprietor.

OFFICIAL PAPER TOWN OF LEXINGTON

Subscription, per year, \$1.00

Advertising rates on Application

Copy for change of advertising must reach this office by Wednesday noon.

Entered as second-class matter October 6, 1905, at the post office at Lexington, Oregon, under the Act of Congress of March 3, 1879.

THURSDAY JULY 25, 1907.

NOTICE

The best way to build up your own town is to do your trading at home. Patronize your home merchants. If they succeed the chances are you will succeed. When you send a dollar to a mail order house you have the goods and they have the money. Trade at home and we keep both the goods and the money.

LOCAL NEWS

Read The Wheatfield and be happy

Nothing can exceed the intense affection which a girl deals out to her father for a day or two before the time when she asks him for a new dress,

For sale at all times the finest Berkshire pigs and shotes, males or females also half breeds Poland china and Berkshire, B. F. Swaggart.

The Wind River Lumber Co's yard at this place is being stocked as fast as possible. They intend to have one of the largest stocks of lumber and fuel in the county.

Mrs. E. A. Beymer and Miss Grace Cypert returned yesterday from the McDuffey Hot Springs where they have been for several week. They report everything all right.

A number of the state papers have been asking one another if Orchard, of Idaho, is a peach or a lemon? He looks to us like a prune orchard suffering from a bad case of San Jose scale.

Mrs. B. F. Estes and children returned Tuesday to their home at Moro after a weeks visit with relatives here. Mrs. Frank White and children accompanied her home for a few days visit.

P. M. Christenson left some fine samples of grain at this office last Sunday, among which is wheat, barley and oats. These samples are good

enough to be saved and taken to the Pendleton fair.

The work of the combined harvester is being watched with a great deal of interest by our farmers. Present indications are that a number of these machines will be brought into this county another season.

An Indiana man has gone to stealing so as to be put in prison, which will keep him from drinking. After he has had a good taste of prison life he will probably go to drinking again to stop himself from stealing.

C. O. Burrows, local manager of the lumber yard, departed last Saturday for Dayton, Wash., where he was called by the illness of his father. Mr. Waite, traveling auditor, being in charge of the yards during his absence.

It is said by some that profess to know that Morrow county will produce enough potatoes this season to supply the local market. This will mean a saving of several thousand dollars to the people of the county by keeping the money at home.

Our greatest need today is harvest hands. Any boy large enough to carry water is getting from \$2 to \$2.50 per day. We understand that some of the women have consented to go in the field and help as best they can until the situation eases up a little.

Luther J. Green, of Zebulon, Georgia, arrived in Lexington Sunday evening to visit Rev. T. P. Graham and family. Mr. Green is a brother of Mrs. Graham. He expresses himself as well pleased with this country and will probably remain in Oregon permanently.

Our readers will notice by last weeks issue the Editor was still celebrating the Fourth, however this week he has settled down to work and gone to the harvest field, actually working in "The Wheatfield" with P. M. Christenson. If this weeks issue is better give the "devil" credit for it, if not so good blame the Editor for not staying at home and attending to business.

SWINE NOTES

Keep the sleeping quarters clean and dry

Keep clear water before them all the time.

Do not feed an extreme green corn diet.

Have good shade during the warm weather.

Keep the hogs and their yard in a sanitary condition and watch the herd carefully in order that no disease may get a start.

All these points should be kept in mind for they are the only effective insurance against cholera and kindred diseases.

Give the hogs salt and ashes, especially hard coal ashes, and an oc-

HARVEST SUPPLIES

We have a large stock of everything needed for the harvest and can supply your wants promptly. No order too large for us to fill, and none too small to receive prompt attention. A child can buy as cheap as its parents.

W. F. BARNETT & CO.

LEXINGTON,

OREGON

casional dose of copperas and sulphur in the slop. Be particularly careful about this with the hogs that are in the feeding pens.

About cement floors a swine breeder says: "I see a good deal of talk about cement floors for hoghouses. I have never seen one that was a success, the best floor, in my opinion, is dirt, with a good woven wire netting stretched over it to keep the hogs from rooting it up."

Most of the profit in hogs, excepting from breeding sows is made by fattening them when they are 6 to 7 months old. If kept growing without check until this time they ought to weigh 225 pounds or more. It pays better than to feed an extra year, even though the weight is doubled in that time. The pork pig sells quickest and highest. Breeding sows may be kept so long as they produce two good litters a year, one dropped early in the spring and the second in August or September.

NOTICE FOR PUBLICATION.

Department of the Interior
Land Office at The Dalles, Oregon
June 20, 1907

Notice is hereby given that SAMUEL T. HUMPHREYS, of Strawberry, Oregon, has filed notice of his intention to make final five-year proof in support of his claim, viz: Homestead entry No. 9859 made Oct. 22, 1901, for the NE $\frac{1}{4}$ of Section 25, Township 1 North, Range 25 E., W. M., and that said proof will be made before J. P. Williams, U. S. Comm'r, at his office in Heppner, Oregon, on August 17, 1907.

He names the following witnesses to prove his continuous residence upon, and cultivation of, the land, viz:
