NOTICE

The best way to build up your own town is to do your trading at home. Patronize your home merchants. If they succeed the chances are you will succeed. When you send a dollar to a mail order house you have the goods and they have the money. Trade at home and we keep both the goods and the money.

LOCAL NEWS

Don't judge the picture by the frame around it.

The old sea dog is easily known by his barque.

Push your business with an add in The Wheatfield.

The cook's duties are bound to cover a wide range.

Drive on to Lexington, it's a good place to trade.

A lucky man seldom believes in luck.

A man's word ought to be as good as his bond.

A foolish man is one who thinks he understands woman.

One of the funnest things in a little town is its smart set.

Nothing worries a fair like being forced to tell the truth.

Don't waste time trying to squeeze an old maid or a lemon.

Don't worry about your kidneys when you can obtain 30 days' treatment of Pineules for \$1.00. These little globules bring relief in the first dose. Backache, Lumbago and Rheumatism yield quickly. If not satisfied your money refunded. This is a fair offer you can't lose. Sold by W. P. McMillan.

All who attend the Congregational Sunday School old and young are asked to be present next Sunday to meet Mr. Folsom and also to have a group picture taken in front of the church. Let every one who takes an interest in the Sunday School be there as this will be the only chance to have a good group taken.

To cure a cold first move the bowels. Bees Laxative Cough Syrup acts gently on the bowels, drives out the cold, clear the head. It's pleasant to take and mothers highly recommend it for colds, croup and whooping cough. Equally good for young and old. Sold by W. P. McMillan.

NOTICE

Commencing Monday, September 16th, the price of hair-cutting will be 35c, massage 50c, bath 35c, shampoo 35c, honing razors 50c. Every thing else has increased in price and

this increase is made necessary by increase in price in material.

FENCING OUT RATTLES.

A Preservation of Animals That Man Uses to Advantage.

Did you ever hear of a rattlesnake fence—not one made of rattlesnakes, of course not, but one made of prickly thorns to protect one from the rattlers and keep them away? That is what the Arizona campers build, and the only way to keep these deadly poisoners away is by building one of these fences of okta, a shrub covered with thorns which grows on the desert.

As the tents have no doors and are not set much above the ground, it would appear easy for Mr. Rattler to effect an entrance. Imagine the sensation of crawling into bed some cold night to strike against the clammy skin of a snake, and this is just where Mr. Snake likes to snuggle, in among the warm blankets.

To avoid this men who work in the mines have found that a snake will not go near this okta, and they have built closely knit fences around their tents, with little gates to go in and out, and beyond this the rattler will not penetrate. It was first the Indians of the desert who discovered this deadly shrub, and they got the secret from birds and animals, which, to protect their young, travel sometimes many miles back and forth, bringing the thorns with which to cover their little nests. Gophers and other small animals there cover their nests in this manner.

It is strange that in that country, so dry and forbidding many things grow in exuberance, and especially noticeable are the great fields of Brown Eyed Susans, the yellow daisies with the brown centers. They grow so high and wild that you can step in a field and your head will just peep over the top of the nodding sea of bright eyed faces.—Los Angeles Times.

Boil It Down!

It is the short piece, be it letter or editorial, that catches the reader, and correspondents who wish their letters to be read should never extend them beyond a quarter of a column, and half that length is preferable. Condensation is an art, but it can be acquired with a little practice. Never try to see how long you can make your article but how short. Use never a superfluous sentence or word. Be as brief as an intelligible statement of the case will allow and you will have ten readers where the long winded fellow will have one.—Richmond Dispatch.

Home Churning.

A barrel or box churn is the best for the home dairy. When the cream is ripe, scald the churn and cool to the temperature of the cream, which should be from 56 degrees to 64 degrees, according to conditions. If color is used, it should be put in the cream when it is put in the churn. Turn the churn so as to get the greatest concussion possible. The butter should come in from thirty to fifty minutes. After the butter comes draw the buttermilk, using a strainer to catch the particles of butter that may escape with the buttermilk, then wash with cold water, using about the same quantity as there was of cream.

A HUMANE APPEAL

A humane citizen of Richmond Ind Mr U. D. Williams, 107 west Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough and cold cure the world over Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthisis, stops hemorrhages of the lungs and builds them up. Guaranteed at W. P. McMillan's drug store. 50c. and \$1.00. Trial bottle free.
