# The Great Spring Medicine

In thousands of homes, for more than thirty years, Hood's Sarsaparilla has been taken, as a Spring Medicine, by every member of the family.

**Peculiar to Itself** in what it is and what it does, it combines the best blood purifiers, appetizers and tonics, and effects complete cures of

**Spring Ailments**—all blood diseases, pimples, eruptions, eczema, scrofula, all stomach, liver and kidney complaints, loss of appetite, that tired feeling, all low or run-down conditions of the system.

**Hood's Sarsaparilla** effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies that successful physicians prescribe for the same diseases and ailments. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Begin taking Hood's Sarsaparilla today, in the usual liquid form or in the chocolated tablets known as Sarsatabs. 100 Doses One Dollar.

**Promoting the Glad Expression.**

"Have you done anything to make life more cheerful?" asked the optimist. "Have you helped anybody to smile?"

"I should say so. I have helped more people to smile than anybody else in the neighborhood. I'm a dentist."—Washington Star.

**Explanatory.**

The great ocean liner was limping into port.

"You see," lamely explained the captain, "the injury is in the ship's forefoot. It got on the wrong tack."

Scowling at the reporters who had come on board from the tug, he nervously paced the bridge, after the manner of all great captains.—Chicago Tribune.

**Horrid Man!**

Husband—Holy Moses. What has happened?

Wife—What do you think! The cat has eaten every bit of the meal that I have just cooked!

Husband—The poor thing? But never mind; I will get you another cat.—Fliegende Blatter.

A merchant died, leaving to his only son the conduct of an extensive business, and great doubt was expressed whether the young man possessed the ability to carry out the father's policies.

"Well," said the kindly disposed friend, "for my part, I think Henry is very bright and capable. I'm sure he will succeed."

"Perhaps you're right," said another friend. "Henry is undoubtedly a clever fellow; but take it from me old man, he hasn't got the head to fill his father's shoes."—Harper's Weekly.

**How Lighting New York.**

It took 33,000,000,000 cubic feet of gas to light New York during the last twelve months to say nothing of electricity, kerosene, and candles. The gas passed through 1,086,026 meters, and the electricity through 108,239 meters. For the latter there were 84,474 consumers, and for gas 907,752 consumers. If all the gas was stored in a pipe one foot square in cross section the pipe would go 248,000 times around the world. The meters set side by side would reach from New York City to Washington.

A Scottish parson, still on the under side of 40, was driving home from an outlying hamlet when he overtook a young woman. He recognized her as the maid of all work at a farm which he would pass, so he pulled up and offered her a lift. Mary gladly accepted his offer and then chatted pleasantly all the way to the farm gate.

"Thank you, sir," she said as she got down.

"Don't mention it, Mary. Don't mention it," he told her, politely.

"No, I won't," Mary obligingly assured him.

# TELEGRAPHERS QUIT

## French System Under Postoffice Department Is Demoralized.

## TELEPHONE SERVICE CRIPPLED

Electricians May Follow Operators and Go Out—Strike is Protest Against Director.

Paris, March 16.—A general strike of the telegraphers of the postoffice department was declared tonight, following a meeting of the general association of post telegraph employes, at which 5,000 were present. A resolution to strike was voted without a single dissenting voice and orders were issued for the withdrawal of all operators employed in the department.

The resolution says the strike is ordered as a protest against the arbitrary administration, and that the decision was precipitated by an insult addressed by M. Simyan, under secretary of posts and telegraph, to the association officials.

The government put forth every effort to preserve international communication, but the central telegraph station was demoralized today and practically out of communication. The Bourse station, however, was almost normal and there was not much interference with the telephone service.

M. Palaud, secretary of the Electricians' union, who had openly threatened to call out the electricians, made no move to do so.

Both telegraphic and telephonic communication with London was greatly interrupted, not so much on account of the strike, however, but because of a fierce storm which prevailed during the night. Some of the London correspondents are sending their dispatches by way of New York, to which both land lines of the cable remain open.

## SHIP YET AGROUND.

Four Steamers Fail to Haul Transport Logan from Reef.

Honolulu, March 16.—With engines running at full speed, and assisted by the winches and propellers of the vessel they sought to aid, the British cruiser Cambrian, the light house tender Kukui and the tugs Iroquois and Intrepid strained for three hours this morning in the effort to drag the stranded transport Logan off the reef on which she had driven 25 feet of her bow while maneuvering to enter her slip last Saturday night.

Several hawsers were snapped by the strain put upon them, but when the position of the troopship was ascertained by measurement it was found that she had been moved only six feet, and the attempt to refloat her was abandoned until high tide comes again tonight.

Many shipping men believe that it will be necessary to lighten the Logan of her cargo before she can be freed from the reef. If the effort in which the Cambrian and the three tugs join at high tide proves fruitless, it is probable that the work of hoisting out cargo will be begun tomorrow morning.

## SERVIA PLAYS FOX.

Evades Direct Issue in Austro-Hungary Dispute.

London, March 16.—It cannot be said that the relations between Austria-Hungary and Servia have yet reached a point where an outbreak of hostilities is probable. Throughout the negotiations in connection with the delecate Balkan situation the Austrian idea has been to force Servia first to acknowledge that the question of annexing Bosnia and Herzegovina had passed beyond the stage where it could be made subject to a rearrangement; and, second, to take effective steps for demobilizing the troops.

The unsatisfactory side of Servia's reply to Count Forgach's note, referring the Austro-Hungarian government to Servia's previous communication to the powers, is the fact that it purposely evaded these issues, thus tacitly implying that the matter has been left in the hands of the signatories of the Berlin treaty.

**Plans Wireless Phones.**

Los Angeles, March 16.—Wireless telephones are to be established in Los Angeles, and if the experiment proves to be the success its projectors claim for it, they will be made a permanent institution. William Dubilier, of Newark, N. J., who is chief electrician of a wireless telephone company, arrived today. He says the company has control of an instrument by means of which articulate speech can be sent any distanec without wires. Some of these instruments will be working in Los Angeles soon.

**Still But Six Jurymen.**

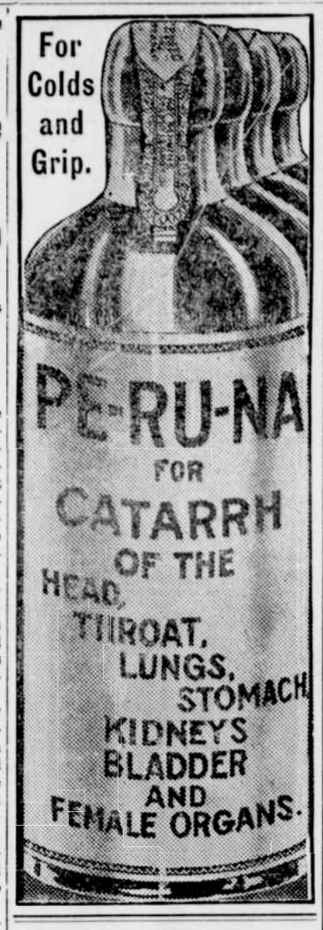
San Francisco, March 16.—With nine weeks of proceedings entered upon the records of the court and but six jurors sworn to try the case, the trial of Patrick Calhoun, president of the United Railroads, who is accused of having bribed municipal supervisors, made little progress today. Walter J. Towers, a former union iron molder, whose examination occupied most of the early part of the day, was excused until tomorrow.

**Massacre Stirs Persia.**

St. Petersburg, March 16.—A dispatch to the Novoe Vremya from Julfa on the frontier between Persia and Russia, says that 1,000 Persian government horsemen and 500 infantrymen were marching on Julfa from the Persian bank of the Araxes river, devastating the villages in their path and shooting down the people.

**Revive Three-Cent Fare.**

Chicago, March 16.—The resumption of a 3-cent passenger rate in Missouri on April 10 to replace the present 2-cent rate, declared confiscatory by Judge McPherson, was decided upon today at a meeting here of executive and traffic officials of the interested roads.



**Why They Wanted George.**

The young wife answered the phone.

"That's another call for George," she said to her mother. "Somebody wants him to come somewhere and play bridge. It's the third invitation he's had this evening."

"That would seem to indicate," said the mother, "that George is very popular."

The young wife sniffed.

"It unquestionably indicates," she said, "that George is an easy loser."—Cleveland Plain Dealer.

**On the Other Foot.**

"On the basis of what you have told me, madam," said the lawyer, "there will be no trouble whatever in your getting a divorce, if you wish. Do you care to sue him for separate maintenance?"

"For what?"

"Separate maintenance."

"Why, of course," said the fair caller, impatiently. "After I get my divorce he'll have to maintain himself separately. I certainly shan't support him any longer."—Chicago Tribune.

**Horrors of Minstrelsy.**

Bones—Mistah Walkah, kin yo' tell me w'y a waud caucus am like a valise?

Interlocutor—No, George; that's a hard one. Why is a ward caucus like a valise?

Bones—'Cause yo' most jin'ly packs it afo' yo' carries it.

Interlocutor—Ladies and gentlemen, Sig. Jarr de Roofoff, the eminent and popular basso, will now sing the touching ballad, "Think of the Microbes on a Street Car Strap!"—Chicago Tribune.

**Tamed.**

"Are you happier than you were before you were married?"

"I can't answer that question."

"Why not?"

"Well, you see, I've got so that I have to accept my wife's opinion on all subjects. And when you ask me about this one, you put me in a quandary. I can't very well put it to her, can I? And without asking her, I can't be sure."—Cleveland Leader.

**Tactless.**

"He's not what you call strictly handsome," said the major, beaming through his glasses on an utterly hideous baby as it lay howling in its mother's arms, "but it's the kind of face that grows on you."

"It's not the kind of face that ever grew on you," was the unexpected reply of the indignant mother; "you'd be much better looking if it had!"—Detroit News-Tribune.

**Ignorant, but Careful.**

"Ignorance nearly always makes fools of us," said a lecturer. "I remember a man, ignorant of etiquette, who once sat beside me at a public dinner. I noticed that this man, as soon as he was seated, took up one by one the knives at the right of his plate and began to try their edges on his thumb. A waiter behind him leaned forward and said in a hurt tone:

"'The knives are all sharp, sir.'

"'The point is,' said my neighbor. 'I'm looking for a blunt one. Last time I attended a banquet here I cut my mouth.'"

**Chinese Schools Copy American.**

Dr. Ng Poon Chew, editor of a Chinese paper in San Francisco, said China made more progress in 1907 than in the previous 50 years. He ascribed the remarkable advancement in so short a time to the fact that the schools there are now patterned after those in the United States.

## CONVICT TOO FAT.

Missouri Warden Has No Accommodations for Prisoner.

Jefferson City, Mo., March 16.—Matt W. Hall, warden of the penitentiary, admits that he has a hard problem to discover some means of handling Louis Decker, of St. Louis, a former member of the house of delegates, who was prosecuted and convicted of boodling and sentenced to the penitentiary for five years.

Decker came here last Thursday and surrendered. That evening he was delivered to the warden of the penitentiary. Then the trouble started for the warden.

It was discovered that there was not a suit of clothes in the prison large enough to fit the prisoner, and that the cell doors were too small to admit him. Decker tips the scales at 320 pounds, and is by far the heaviest prisoner ever received at the penitentiary.

Prison Physician Chastain was called in for counsel. He said he believed a place could be fixed up in the hospital building where Decker could be kept. The warden at once accepted the proposition and Decker was taken there and has been confined there since.

## PLOT TO FORCE INTERVENTION.

Returned Traveler Says Federation of States is Object.

City of Mexico, March 16.—According to J. H. Graham, an American traveler who has recently returned here after visiting the Central American capitals, the trouble fomented by President Zelaya, of Nicaragua, is the result of a definite program to enforce the intervention of the United States.

Both Honduras and Salvador have already appealed to Washington to intervene, and Zelaya is co-operating with them, according to this authority.

Zelaya and the other Central American executives cannot retire, as that might mean a forfeiture of life. If intervention will bring about the federation of the five republics, allowing the present rulers to step down and enjoy peacefully the fortunes they all have amassed, the purpose of Zelaya and his allies will have been accomplished, according to Mr. Graham.

## SERVIA PREPARES FOR WAR.

Expects to Have 250,000 Men Ready for Field by April.

Vienna, March 16.—According to information from the best of sources, Servia's military preparations are being pushed with haste and energy which strongly belies the protestations of the late memorandum as to the desire of the country to remain at peace.

Beginning in February, the entire first line of reserve was placed on a war footing and it has been drilled for three weeks. At the end of January 30,000 recruits were called up, as compared with the usual number of 17,000. In the last few months the second reserve has been called out for two weeks' exercise.

Beginning in April, Servia counts on being able to place 250,000 men in the field.

Austria-Hungary is fully prepared for action and is inclined to force an immediate solution of the present crisis.

**People Burn Effigies.**

El Paso, Texas, March 16.—Bitterly indignant over the passage by the legislature of New Mexico of a bill changing the county seat of Sierra county from Hillsboro to Cutter, the citizens of Hillsboro, N. M., burned the figures of Representative Julien Chavz and R. H. Hunter in effigy. Chavz introduced the bill, and Hunter was instrumental in securing its passage through the legislature. Over the image of Chavz a placard was posted reading, "Hon. Julien Chavz, buffoon of Sierra county."

**Aeroplane is Christened.**

New York, March 16.—What is said to have been the first christening of an aeroplane in the history of the world, took place today at Morris park under the auspices of the Aeronautic society. Virtually all of the ceremonies which attend the launching of a ship were performed, including the breaking of a bottle of champagne on one of the steel bars of the machine. The sponsor named the new craft "New York No. 1."

**Ship Sinks, 20 Drowned.**

Rotterdam, March 16.—The Norwegian steamer Mascot, for Sunderland, collided today with the German ship Margretha, from Iquique, for Hamburg, about 20 miles west of Maas lightship. The Margretha sank almost immediately. Twenty of the 26 members of the crew were drowned. The Mascot returned here with a big hole in her bow. The Margretha was commanded by Captain Woethre.

**Coal Strike is Predicted.**

Philadelphia, March 16.—"The anthracite miners will strike." Secretary Hartlein, of District No. 9, of the United Mine Workers of America, made this statement last night in discussing the union's agreement with the mine owners. He based the prediction upon the apparent inability of the opposing sides to get together.

**Morse Fortune All Gone.**

New York, March 16.—Mrs. Charles W. Morse, wife of the former bank and ice company promoter, tonight confirmed the report that her husband's fortune had been entirely dissipated and that she had to sell her furniture and jewels to meet the obligations incurred by him in his recent trial.

**Plan Timber Pickling Plant.**

Anaconda, Mont., March 16.—E. F. Sherman, chief of the timber preservation division of the forstry bureau, has closed contracts in this city for the installation of a timber pickling plant southeast of this city. By the pickling process the government hopes to be able to preserve the life of the timbers.

**Wreck Hurts Seventeen.**

San Antonio, Tex., March 16.—Seventeen passengers were injured, some seriously, and two perhaps fatally, in the collision last night of a Southern Pacific passenger train and a switch engine at Sanderson, Tex.
