We would like a few more correspondents from the different neighborhoods. If you have any items of general interest from your section, send them in. Other people like to know what's going on around them, and we want to get all the news.

Mrs. Geo. Parrish and son Alfred, Alex Stewart, Geo. Carroll, J. M. Elliott, Geo. Sellinger and G. P. Sturgess were passengers on Wednesday's local for The Dalles. A number of them went up to take in Norris & Rowe's big circus, others went on business.

J. Margulis, a real estate man of Portland, was in town last Friday. Mr. Margulis has a fruit ranch in Hood River, and was here looking over some Mosier lands. He expressed himself as highly pleased with this section and intimated that he might become a resident.

Peter Dome, of The Dalles, spent last Sunday in Mosier. Mr. Dome was inspecting his crop of barley on the flat and took a sample of the grain home with him. It measured 5 feet in length. This was an average height, a good deal of the grain standing over six feet.

C. F. Stauffer went to White Salmon last Tuesday, where at night he attended a joint celebration of Odd Fellows and Rebekahs of 90th anniversary of the institution of Oddfellowship. Mr. Stauffer says he had all kinds of a good time, and that the White Salmon people surely know how to entertain.

S. E. Francisco left for Portland this week to procure a pool table and fixtures, which he will place in his new building on Washington street. It is his intention to conduct a confectionary and cigar store in connection with the pool room, and as warm weather approaches he may also put in a soft drinks and ice cream parlor.

Mrs. Ada Wallace-Unruh, National Lecturer of the W. C. T. U., will lecture in the church at Mosier next Wednesday night, May 12. Her subject will be: "The Passing of the Saloon." Mrs. Unruh has the reputation of being an excellent public speaker, and as her subject is one which interests and affects everyone, she will no doubt have a large audience on the occasion of her visit here.

The residents of quite a thickly settled section of Mosier District have combined and named their farms, collectively, the Grand View Fruit Farms. The ranches composing this section are: C. J. Littlepage, Arthur Kuhn, W. Miller, Tom Evans, Barren Bros., Mrs. E. Haselep, C. P. Porter, C. J. Phillips, B. Eaton and several men whose names we did not get. These farms are located 3 1-2 miles southeast of Mosier and are well named, as a grand view of the country round about can be obtained from each farm. The view up and down the beautiful Columbia is magnificent, while at night, the course of the river, and the trains on this and the Washington side is distinctly seen by the "lights along the shore." This view must be seen to be appreciated.

It seems not at all certain that the road up the Deschutes river will be built. The railroad magnates fear that the country through which the proposed road would pass will not support it. Possibly not at first, altho no one ever heard that the Columbia Southern road, for instance, was not a winner from the start. Railroads in a new country draw attention to the country and population and business will follow them. Eastern Oregon has the resources, undeveloped. One cannot "make bricks without straw." Eastern Oregon will not—cannot reach its full development until it has proper transportation facilities. The constant see-sawing of the rival railroad magnates is retarding the development of the largest section in the United States that is uncrossed by steel rails.
