These warm days are bringing the river up rapidly and in a short time the bottoms below town will be submerged. The boys are now having great sport spearing carp as they come onto the flat to feed on vegetation.

We were obliged to crowd out this week a report of Memorial Day exercises of School District No. 64. We regret these omissions, but they will occur at times.

It is reported this morning that the upper Columbia and Snake rivers are coming out together, and it is predicted that the Columbia will reach a very high stage this month.

GOING SOME—We met our old townsman, G. E. Townsend, in The Dalles the other day, and he informed us that he had severed his connection with Shank & Co., of Portland, and was with Kaufman, Davidson & Semmel Co., of that city. Mr. Townsend is evidently a man well versed in his line of business—that of buying hides, for his company has recognized his ability by offering him \$150 per month and expenses. This rise in Mr. Townsend's fortunes only proves what any man, young or old, can accomplish by strict attention to business.

The base ball suits arrived last Friday morning from San Francisco. They are fine ones and greatly improve the appearance of the team.

Last Sunday Mosier was again defeated, this time by the team from Belmont by the score of 16 to 2. Stroup and Higley were the lucky ones in scoring. 'Nuff ced.

J. E. Higley and Fay Bosler started on Wednesday last for Idaho, where they will be present at the opening of the Shoshone Indian reservation. They hope to get a good claim each, and if successful, will probably move their families out there.

Geo. Sellinger brought into our office this week a sample of wheat grown on his farm near town which "takes the cake" for anything of the kind we have seen in this country. The wheat is of the Russian Red variety and stands six feet high. It is in the bloom and will grow some yet. Mr. Sellinger has about 24 acres of this grain, and will cut it all for hay.

Funny Proposition.

Man comes into the world without his consent and leaves it against his will. During his stay on earth his time is one continuous round of contraries and misunderstandings. In his infancy he is an angel; in his boyhood he is a devil; in his manhood he is a damphool; if he raises a family he is a chump; if he raises a check he is a thief; if he's a poor man he is a poor manager and has no sense; if he is rich he is dishonest; if he is in politics he is a grafter and a crook; if he goes to church he is a hypocrite; if he stays away from church he is a sinner; if he donates to foreign missions he does it for show; if he doesn't he is stingy and a "tight wad." When he first comes into the world everybody wants to kiss him; before he goes out they want to kick him. If he dies young there was a great future before him; if he lives to a ripe old age he is in the way, only living to save funeral expenses. Life is a very funny proposition after all.—Ex.
