# **AWAITING HARRIMAN**

### His Health Matter of Concern to Entire Country.

### WALL STREET IS DISAPPOINTED

Financiers Wanted Him to Jump Into Harness at Once, but Condition Will Not Permit.

On Board S. S. Kaiser Wilhelm II, Aug. 24.-The condition of E. H. Harriman has undergone no notable change. He still remains most of the time in his private cabin owing to the heavy fog which has prevailed throughout the entire trip. The present indications are the steamer will be late in arriving, because of the delay occasioned by the

H. Harriman's return grows acute. General anxiety as to his health has found

There is manifest disappointment in Wall street that Mr. Harriman's so-journ abroad has not set him up suf-ficiently that he may resume at once active charge of the great interests with which his name is as ociated. Tomorrow both the Southern Pacific and the Union Pacific directors will meet, but it has not even been suggested that Mr. Harriman will try to attend these meet-

Alexander Millar, secretary of the Harriman lines, one of Mr. Harriman's most trusted lieutenants, spoke of his chief today with seriousness and

warmth.
"'Mr. Harriman," said he, "has been i'Mr. Harriman, said ne, pictured as an ogre, a huge spider, an octopus. You don't know what a bighearted, big-souled man he really is. I call him today the biggest, the brainiest, the most patriotic American citizen gave other evidences of control over

"If I should be asked to name the chief characteristics that have contrib-uted to his success, I should say, his wizardry with figures, his faculty for getting instantly into the kernel of facts, his judgment of men and his in-sight into and faith in the future.

"He makes changes, but the very men shifted will tell you they do better work in the new positions.

"Like all big men, he is not what you would call methodical. He jumps to conclusions by seeming intuition. No doubt the logical processor are all there.

doubt the logical processes are all there—for Mr. Harriman is no visionary—but they elude analysis by their swiftness.

''Does he play as hard as he works?

To tell you the truth, I never saw him play, except with his children. His children and his work—these are his life.''

#### MAKES THRILLING FLIGHT.

#### American Aeroplane Lowers Record for Rheims Course.

Rheims, Aug. 24 .- Glenn H. Curtiss, the American aviator, and M. Paulham, representing France, divided honors of the second day of aviation week, the former in a thrilling flight just before dusk, in which he lowered the speed record for the course, which measures 6 1.5 miles, to 5 minutes 35 2-5 seconds; the latter making two impressive highaltitude flights of 491 and 56 kilometers, respectively, in the endurance test for

the prix de la Champagne.

Curtiss' performance began just as
the time limit for the start of the prix de la Champagne was expiring. Bleriot only a few minutes before had clipped 16 seconds off LeFebvre's record. Suddenly, at the end of the field a cry

went up: 'The American is starting! a preliminary run along the ground of 100 yards, the machine rose lightly and shot by the tribunes at a height of 60 feet. It was going a ter-rific pace, with the wing level as a plane. Curtiss made the last run under the mistaken impression that the finish line was closer. He descended so close to earth that many thought he touched, but perceiving his error, he mounted quickly, crossing the line majestically. An instant later the signal was hoisted that he had made a record.

#### Wheat Prices Tumble. Minneapolis, Aug. 24 .- No. 1 North-

ern wheat today broke 15 cents from the opening price, dropping from \$1.25 to \$1.10. Opening figures today were 15 cents under Saturday's quotations of \$1.35, making a total decline of 25 cents since Saturday. New No. 1 Northern sold a week ago at \$1.45. Saturday's price was \$1.35. Today it sold early at \$1.25, but when 445 cars of wheat were received, of which 105 contained old wheat, 160 new-crop Winter and 180 new-crop Spring wheat, the market broke wide open.

### Earthquake Swallows Island.

Mexico City, Aug. 24.-Dispatches from Acapulco today say the people of that port believe Clipperton Island was swallowed up by the sea during the late earthquake. No word of any kind has come from the island and as the neighboring bed of the ocean is known to have been greatly disturbed, the port officials at Acapulco are urging the War Department to send out the gunboat General Guerrero on a search. The be-lief of the Acapulcans has not yet fully impressed the War Department, and no gunboat has so far been sent in quest.

### Prosperity Hurts Army.

Washington, Aug. 24. - Returning prosperity is having its effect on re-cruiting men for the United States Army, making it more difficult to keep up the standard established during the time following the panic of 1907, when splendid material was available from the ranks of the unemployed. The authorized strength of the Army is 84,500 men, exclusive of the ship corps, which numbers 3500 men. It will not be a hard matter, therefore, to reduce the size of the standing army

Grasshoppers Devastate Farms. Cheyenne, Wyo., Aug. 24.-A plague of grasshoppers has caused thousands of dollars' damage in the neighborhood of Cowley. Farmers have been compelled to cut their alfalfa before it matured in order to save it from destruction.

All green stuff has been eaten. Around Cheyenne practically all vegetation has been destrayed.

Cowley. Farmers have been compelled this afternoon caused a flood in this afternoon cau

#### AIR FULL OF AEROPLANES.

#### Speed Record Broken-Wright Machines do Best.

Rheims, Aug. 24.-The spectacle of six aeroplanes simultaneously winging their flight in huge circles near the plain at Bethany here today marked the opening of aviation week. At the finish there was a great burst of cheers over this wonderful and impressive exhi-

Intermittent showers and high winds prevailed, and the eliminating trials for the selection of the French representa-tives for the James Gordon Bennett international cup, which is to be contested next Saturday, were spoiled. Only Le Febvre, with a Wright bi-plane, Bleriot, Esnault-Pelterie and Captain Forber College, Que., a photo and plan of braved the gusty puffs. LeFebvre alone succeeded in negotiating the complete circuit of the course. He remained in the air for 16 minutes in a 25-mile wind, breaking the speed record heretofore held by Tissandier, covering 10 kilometers in 8 minutes 55 4-5 seconds. Of the others entered in the trials Bleriot was only able to cover a suf

ficient distance to qualify.

Shortly before dark the rain suddenly ceased and the wind fell to a dead calm. The sky pilots soon were busy in getting their machines out. Latham fog.

New York, Aug. 24.—As the Kaiser
Wilhelm II hourly draws nearer to her
pier in New York, public interest in E.
H. Harriman's return grows acute. Genthe delay occasioned by the
getting their machines out. Estam
was first away, ascending high from
the start. He passed the cheering tribunes at the height of 150 feet. Lambert, Sommer, Cockburn, De la Grange
and Fournier followed in quick succession, and as Latham
was completing their machines out. eral anxiety as to his health has found expression in a series of published appreciations of his personality and achievements such as probably never before has been accorded a private cities. A probably never before has been accorded a private cities on into a haystack as Lambert swept on into a haystack as Lambert swept on into a haystack as Lambert swept around into the second lamber is wepting. around into the second lap, his machine seeming to cut a brilliant rainbow.

filled with mammoth birds.

Latham came down after finishing the second round, the others gradually dropping out until only three Wright machines remained afloat. Lambert rial. A loose board ceiling over which made four and LeFebvre and Tissandier is placed straw provides for the abthree circuits each.

LeFebvre concluded with a thrilling

demonstration of the maneuvering capacity of his machine, circling around the starting point, cutting several fig-ure eights and swooping down over the people in front of the tribunes, Lambert finishing at the same time.

gave other evidences of control over their machines. The Wright aeroplanes alone completed the required three rounds.

All the principal automobile manufacturers have representatives here watching the contests with a view to embarking into the manufacture of mo-

Lientenant Commander F. L. Chapin American naval attache, is here, having received cable instructions from the navy department to attend the contests.

#### FLEE BEFORE FLAMES.

#### Settlers Driven From Idaho Forests and Fires Still Rage.

Spokane, Aug. 24.-Fires raging in forests northeast and southeast of Spokane are destroying an immense area of splendid timber and driving the few special timber and driving the rew settlers in the more isolated region to the river's brink for safety.

While the fire along the Pend d'Oreille river in Washington is under

F. C. Elford. control, it still blazes furiously, having cut a swath a mile wide and several

miles long. The damage will total an mmense sum.

Terrific winds are blowing this evenlonging to H. C. Culver. Eighteen men are now fighting this fire, but cannot

subdue it. The Lumbermen s Protective Association is pressing every available man into service to fight the flames. A large fire is reported to have done a great deal of damage at Naples, Idaho, but at present there is no means of communication with this place. Another large fire between Granite and Athol is reported to have destroyed a large tract of standing timber.

Forest fires have destroyed several farm houses in the vicinity of Port Hill, tion is certainly worth while.—Denver north or Bonners Ferry, Idaho, burning much timber also. Men cannot be had fight the flames. West of Bonners Ferry a large force of men is working day and night to extinguish the flames, but have not made any headway. A million dollars would not pay for difficult to estimate the exact loss. Forest rangers have the fire under control east of Bonners Ferry.

### Crazed by Fool Questions.

San Francisco, Aug. 24.-George L. Root, a tourist conductor of the Chieago, Burlington & Quincy, who was found wandering about the railroad yards in a half-demented condition to-day, attributes his mental breakdown to the complaints, protests and ques-tions poured into his unwilling ears by party of tourists of which he was in charge on the trip to the coast from Kansas City. In his lucid intervals, at the hospital, he declared that the woes of his charges after a slight accident general classes—direct and indirect, in Colorado caused his mind to become unbalanced from worry.

# Six Killed in Labor Riots.

Pittsburg, Aug. 24.—In a battle be-tween troopers and strikers tonight, fol-lowing a wild riot, six were instantly killed, ten perhaps fatally wounded and nearly a score seriously hurt. The rioting followed a day of quiet and broke without warning. The fight occurred at the Pressed Steel Car plant at Schoenrille. During the early stages of the rioting women were conspicuous. Some of them were armed, and others ef-fectively used clubs and stones. These women, all foreigners, were apparently insane with rage, and were mainly re-sponsible for inciting the men to ex-

### Wellman Will Try Again.

treme measures.

# YOUR FARM EQUIPMENT IS IT COMPLETE?

In these days of progressive farming no man can afford to neglect his farm equip-t. It is just as essential that the farm should have the benefit of the best possible farm machinery and most modern labor saving devices as it is that a properly conducted factory should have it, and even more so. We have in our extensive stock, labor saving machines of all kinds, machines that increase profits and make the farmer the most independent man on the earth; machines that make farm life more enjoyable and tend to keep the young man satisfied with farm work. No farmer ever invested his money to better advantage than when he bought one of the machines mentioned below. These are lines which are in season NOW and are goods which should interest every farmer who desires to make a success of farming.
