Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. Follow his advice.

Ayer's We publish our formulas / We banish alcohol from our medicines / We urge you to consult your doctor

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia. We wish you would ask your doctor about correcting your constipation by taking laxative doses of Ayer's Pills.

—Made by the J. C. Ayer Co., Lowell, Mass.—

In All Reason.

Bingley—Going East, are you? How far?

Dingley—Well, I want to go to Pittsburg, but I've got only money enough to take me as far as Wheeling.

Bingley—Well, that's as close as I'd want to get.

Trust Troubles.

Oil Trust—Isn't it a shame they are hounding us so? It makes me burn with indignation.

Ice Trust—It certainly is a frost for me.

Sugar Trust—And talking about sending me to jail and I so used to refining influences!—Baltimore American.

Shifted.

"Say, I've got a new one on Smith."

"What is it?"

"Why, the other day——" (etc., etc., etc.).

"Yes, that's a new story—on Smith. But the last time you told it, it was on Peters."—Cleveland Leader.

DEEP SEATED COUGH

CURED IN 5 HOURS.

New Home-Made Syrup.

(Cut This Out.)

From Boston Press.

Progress in medical compounds never ceases, and now it is stated by a prominent medical man that any deep-seated cough or cold on the lungs can be actually cured in five hours by the clock. Opium and morphine have been resorted to in the past, as relief measures. But now it is learned that the system must be treated to rid it of inflammation and congestion. A tonic laxative cough syrup does the work so quickly and thoroughly as to be almost magical. What heretofore has taken weeks to cure can be accomplished in hours. Get this formula filled or mix it at home and always keep it on hand: One-half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Shake the bottle and take twenty drops every half hour for four hours. Then take one teaspoonful if to one teaspoonful three or four times a day until the system is purified and toned up. Give children less according to age. One filling will usually cure a whole family, as the dose is small.

Hypothetical Questions.

"What will your mother say to you when you get home?" said one boy.

"She'll start in by asking me some hypothetical questions," answered precocious Willie.

"What are they?"

"Questions that she thinks she knows the answers to before she starts to talk."—Washington Star.

Improvement.

"Don't you think you could make some improvement in that orchestra? They could hardly hear my song, last night, for the drum," said the soubrette.

"Well," replied the manager with a smile, "I might add another drum."—Yonkers Statesman.

Not Exempt.

An evangelist was exhorting his hearers to flee from the wrath to come. "I warn you," he thundered, "that 'there will be weeping and wailing, and gnashing of teeth!'"

At this moment an old woman in the gallery stood up. "Sir," she shouted, "I have no teeth!"

"Madam," returned the evangelist, severely, "teeth will be provided."

A Deal That Fell Through.

"Baron Fewcash was rather exacting as to the dot."

"That wasn't what broke the engagement," answered Mr. Cumrox. "I don't object to seeing a young man look out for his interests. But when he applied for a cash advance in order to buy an engagement ring, I must say it struck me as unbusinesslike."

Not Exempt.

An evangelist was exhorting his hearers to flee from the wrath to come "I warn you," he thundered, "that 'there will be weeping, and wailing, and gnashing of teeth!'"

At this moment an old woman in the gallery stood up. "Sir," she shouted, "I have no teeth."

"Madam," returned the evangelist, severely, "teeth will be provided."—Success Magazine.

DEATH WINS FIGHT

John A. Johnson, of Minnesota, Passes Away.

WAS VERY PROMINENT DEMOCRAT

Three Times Elected Governor and Was Candidate for Nomination for President.

Rochester, Minn., Sept. 21.—Governor John A. Johnson, three times elected governor of Minnesota and a candidate for the Democratic nomination for the presidency of the United States, and looked upon by many as the possible Democratic standard bearer in 1912, died at St. Mary's hospital here at 3:25 o'clock this morning following an operation last Wednesday.

Death watch was kept at the bedside of Governor John A. Johnson all day yesterday. Mrs Johnson and two attending physicians sat by the dying man, hourly expecting the end. At intervals bulletins were issued, and each message from the sickroom was less hopeful than the one preceding.

In the early morning Drs. Charles and William Mayo issued the first bulletin:

"Governor Johnson has not made natural progress; his condition is grave;" it read, and waiting friends at once stormed the hospital for further news.

At 2:30 p. m. word came from the sick room that the governor had been in a semi-comatose condition for two hours. The source of this information said the patient might continue in this state for days, but there was slim hope that he would live more than a few hours.

Next came the brief bulletin, "Life is fast ebbing."

At 1:15 this morning Dr. Mayo said: "There is absolutely no hope. However the governor may not die for several hours yet, possibly not before 6 o'clock."

At 12 o'clock Governor Johnson was conscious and complained of being uncomfortable. He was conscious almost all night and evidently realized the end was drawing near, although he said nothing.

SOUTH IS STORM SWEPT.

Gulf Hurricane Brings Death and Destruction.

New Orleans, Sept. 21.—After attaining a velocity of 60 miles an hour at New Orleans, last night, the West Indian hurricane that struck the Louisiana and Mississippi gulf coast was reduced in its intensity.

It left four dead at New Orleans and perhaps others along the gulf coast, though no definite advices of mortality in other sections have been thus far reorted here.

The property loss in New Orleans will exceed $100,000. Many houses were unroofed and many frail buildings were partially destroyed. With all wires down it is impossible to ascertain the loss of life or property along the gulf coast. The ferry steamer Assumption sank, but no lives were lost. Much property along the river front was damaged.

Taft Reviews Troops.

Des Moines, Ia., Sept. 21.—With a review of 5,200 soldiers from all over the Middle West by President Taft yesterday the greatest army maneuvers and tournament in the history of the country began.

Brigadier General Charles E. Morton, commanding the department of the Missouri, stationed at Fort Omaha, is in commannd of the operations.

Cavalry, infantry and artillery took part in the tournament. Many valuable prizes are offered for the best tactics, feats of horsemanship and evolutions. The Third battalioon, Sixteenth infantry, captured first prize for wall scaling. A record of 27 seconds was made.

Old English Coin Valuable.

Rich Hill, Mo., Sept. 21.—Tom Brown, an English coal miner residing at Panama, a coal camp four miles south of this city, is the lucky holder of a five guinea English gold piece, dated 1691. It had been handed down in the Brown family from one generation to another until now. It is valued at $3,850. At least that is the offer made by a Boston coin dealer. Only two coins of this denomination and date are known to exist, one having recently been purchased by the English government.

Opium Will Do Good.

Manila, Sept. 21.—The Philippine government soon will ship to Washington nearly half a ton of opium—the proceeds of many customs seizures. The government plans to dispose of the opium for medicinal purposes among drug manufacturers, receiving in exchange medicines for the use of hospitals, dispensaries and other government institutions in the Philippiens. When the transaction is completed the bureau of health will make cash returns to the bureau of customs for the tariff duty of the seizures.

To Remove Fulton's Body.

New York, Sept. 21.—The surviving grandchildren of Robert Fulton, in a letter addressed to Cornelius Vanderbilt, president of the Fulton monument association, sanctioned today the removal of Fulton's body from a vault in Trinity church to a mausoleum and memorial to be built in Riverside drive. The moverment for the Fulton memorial has been under way for some time and $40,000 has been subscribed. In all it is proposed to expend $3,000,000.

Cubans Are Destitute.

Havana, Sept. 21.—Telegraph wires and bridges between Havana and Pinar del Rio are still down and consequently it has been impossible to ascertain the extent of the damage wrought by the storm in that section. It has been learned, however, that many hundreds of peasants are destitute because of the destruction of their huts and crops.

CANADA'S GREAT CROP.

Yield Estimated at 168,386,000 Bushels of Wheat.

Ottawa, Sept. 21.—An official statement of the grain harvest of Canada has just been issued by the government. It gives estimates of production, computed from reports of a large staff of correspondents, and although totals are somewhat less than those of a month ago for wheat and barley, they still show that Canada has reaped an immense harvest.

The wheat crop is put down at 168,386,000 bushels, giving an average of 22 bushels an acre, and barley at 57,000,000 bushels, or 31 bushels an acre. The yield of oats is 355,000,000, or 38 bushels an acre.

One thing is assured, that the Canadians have reaped the biggest and most profitable grain crop the country ever has produced, and with present prices they will have an enormous sum added to their spending powers. It is estimated that a surplus of $100,000,000 will go into the pockets of the farmers.

TRANSFER IS URGED.

Forestry Service May Be Put Under Interior Department.

Washington, September 21.—As a result of the Pinchot-Ballinger row, the administration may later determine to recommend the transfer of the forest service from the department of agriculture to the department of the interior. Such a change can only be made by act of congress, and it probably would call for considerable pressure from the president in order to get the necessay authority, especially if Gifford Pinchot is permitted to remain as chief forester.

The forest service, in the opinion of most Western men in congress, is misplaced in the department of agriculture. It has nothing in common with the other bureaus of that department, but has much in common with the general land office and geological survey, both of which are bureaus of the department of the interior. In its present situation, the forest service is, or until recently was, in effect an independent bureau, subject to only nominal supervision by a cabinet officer. That is why the forest service was allowed to grow up in the agricultural department, and that is why Mr. Pinchot has always opposed transfer to the interior department.

Graft in Russia.

St. Petersburg, Sept. 21.—Despite the secrecy of the Russian war office, a scandal which promises to involve prominent officials in the army has leaked out. A general in command of the provinces had for years been drawing pay for the officers and the men of a six gun field battery which exists only on paper. To keep the fraud from being discovered, the general showed the same battery twice to the inspecting officers who visited his barracks occasionally. He would show one battery, then another, and while the inspecting officers were viewing the second, the first battery would be rushed to another garrison, where the troopers were reinspected.

MOON DISPROVES PEARY.

Italian Astronomer Points Out Discrepancy in Story.

ROME, Sept. 21.—According to the well-known astronomer, Signor Francesco Faccia da Schio, of Bergamo, the moon absolutely disproves Commander Peary's claim to having discovered the North Pole.

In his dispatch to the New York Times the explorer states that April 6, having accomplished the six stages he had planned, he was favored with an opening in the clouds which permitted him to take astronomical observations. From these he established his position as latitude 89:57.

Signor Faccia points out, however, that unquestionably accurate astronomical calculations show that with the horizon at 89:57 the moon could not be seen at the time indicated by Commander Peary, because from midday, April 5, Paris time, or 6 o'clock, central standard time, the declination of the moon became negative, that is to say, the moon was below the equator, which is the natural horizon of the pole.

Ryan Succeeds Rogers.

Milwaukee, Sept. 21.—John D. Ryan, of New York, was elected a director of the Chicago, Milwaukee & St. Paul Railroad Company today, to succeed Henry H. Rogers, deceased. Donald Geddes succeeds his father on the directorate. Rosewell Miller, William Rockefeller and John A. Stewart were re-elected. David L. Bush was appointed general manager, and H. B. Earling, ex-general superintendent of the Chicago, Milwaukee & Puget Sound branch, becomes general superintendent of the whole system.

Can't Afford to Expand.

Berlin, Sept. 21.—General von Heeringen, the new Prussian minister for war, has made a statement relating to the demands for army reform which appeared in many quarters on the resignation of his predecessor, General von Einem. The new minister denies that he has been appointed in order to carry out any special programme. He declares that an increase in Germany's military preparations is at present impossible, owing to the unfavorable financial position, which has already reacted on the last estimates.

Frenchman Is Kidnaped.

Shanghai, Sept. 21.—News reached Saigon from Tonkin recently that a prominent French resident at Hanoi had been kidnapped by brigands belonging to the bands of De Tham, a famous outlaw. The robbers sent a message to the authorities that they would strike off their captive's head at the first shot fired at them. The government retorted by holding several leading brigands prisoners as security for his life.

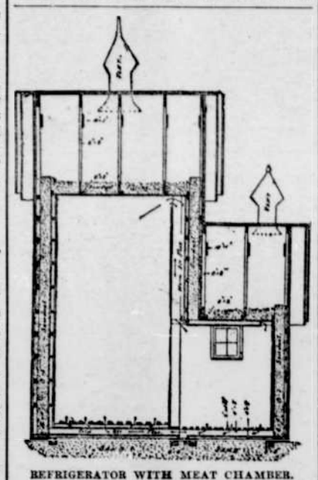
Paulhan Flies for $5,000.

Ostend, Sept. 21.—Louis Paulhan, the French aviator, flying in a Voisin biplane here today, won a prize of $5000. He covered 73 kilometers (45¾ miles) in one hour, at an altitude ranging from 240 to 300 feet. He made his way up and down the coast line, part of the time over the North Sea. In alighting the aviator fell into the water. He was promptly rescued by spectators and received no injuries.

FARM AND GARDEN

Meat Refrigerator.

The accompanying illustration shows the plan of refrigerator with meat chamber attached, the accompanying illustration is given. Provision must



REFRIGERATOR WITH MEAT CHAMBER.

be made for the circulation of air so that it will not become stagnant at any point and by coming in frequent touch with the ice will be kept cool. The relative sizes and positions of the ice chamber and refrigerator are shown and these can be made larger or smaller in proportion to meet the requirements.

Keeping the Wheat Pure.

One of the most important factors in growing improved wheat for seed is to keep the wheat pure. Many farmers are careless on this point, often planting new seed on old wheat ground, thus allowing it to become mixed with volunteer wheat the first year. This mixing of varieties causes wheat to detriorate in yield and quality. When wheat is grown for seed it should be on clean land, which is free from volunteer wheat and from other volunteer grain, rye being especially objectionable. Care must be taken in harvesting and threshing the seed wheat to keep it from becoming mixed with other varieties of wheat. Again, in order to maintain the quality and yield of wheat it is necessary to maintain the fertility of the soil and to give the land good culture.—Farmers' Mail and Breeze.

A Good Gate Tightener.

This can be put on any wire gate. Nearly everybody knows how to make a wire gate as shown in the cut, so

GATE TIGHTENER.

all that needs an explanation is that wire No. 3 is common wrapping wire. Put around post A and make long enough to reach post B. Run a stout stick or iron rod through wire No. 3, drawing it toward post A. In this way the gate can be made as tight as possible.

Preventing Disease.

It is more easy to prevent disease in animals than it is to cure. Hog cholera prevails more or less in all sections of the country, but in the majority of cases it is due to the condition of the herds and mismanagement in feeding than to any other cause. Hogs must have green or bulky food, also salt and charcoal. These substances are not in a direct way preventive of cholera, but they keep the animals in a more thrifty condition and render them less liable to disease.

The Cowpea as a Fertilizer.

The cow pea is a large beanlike plant that produces a large amount of forage. It is valuable as a green food or for plowing under for green manure. It has been used successfully for improving wornout soils, especially those that are light and sandy in texture. Its greatest advantage for this purpose is its ability to gather nitrogen from the air and mineral elements from subsoil. When the crop is plowed under, these are left near the surface, where they will be available to shallow-rooted crops and those which cannot get nitrogen from the air. It has been little used for hay in the North, because it cannot be readily dried in this climate. It makes a good green feed for milch cows between August 15 and September 15, or it may be preserved in the silo by mixing with corn fodder. For green manuring, the seed should be sown broadcast in late June or early July, at the rate of one and a half bushels per acre. It is especially valuable for growing in young orchards. When wanted for fodder it should be sown in early June, in drills 2½ feet apart, at the rate of one bushel seed per acre.

Fly Repeller.

The Kansas Agricultural College has experimented with the various chemical formulas to repel flies from live stock and recommends the following as fairly satisfactory: Resin, 1½ pounds; laundry soap, two cakes; fish oil, one-half pint; enough water to make three gallons. Dissolve resin in a solution of soap and water by heating, add the fish oil and the rest of the water. Apply with a brush. If to be used as a spray, add one-half pint of kerosene. This mixture will cost 7 to 8 cents a gallon and one-half pint is considered enough for one application for a cow. At first it will be necessary to use two or three applications per week until the outer ends of the hair become coated with the resin. After that retouch those parts where the resin is rubbed off.

To Destroy Woodchucks.

A Pennsylvania farmer gives this experience with woodchucks (ground hogs): He had set several hundred early cabbages, and in going through his patch early one morning he found several plants missing. He found the woodchucks' hole under the wall—in fact, several holes—near his cabbage field. He armed himself with several steel traps and used all his cunning in setting them in the burrows of the woodchucks, but after several mornings of patient waiting, capture by trap proved unsuccessful. But, having heard that they were very fond of salt, he mixed a liberal quantity of paris green in about a quart of salt and placed a handful near each burrow. He was not troubled again that season, and this has been his remedy ever since.

The Dutch Mulch.

Shallow cultivation conserves the moisture and prevents it from escaping from the surface. Every time rain falls the loose ground absorbs more than does the hard soil, as the letter permits the water to flow off. When the rain goes down into the soil, and the soil is then loosened, the capillary tubes are sealed and the flow of water upward is arrested. A loose top soil, therefore, not only permits of securing a large share of water from each rain, but also retains it.

Destructive Rats.

According to a recent report of the biological survey of the Department of Agriculture, rats destroy annually $100,000,000 worth of American grain. It is estimated that one rat will eat 60 cents' worth of grain in a year, while of oatmeal it will consume $1.80 worth. Rat-proof construction, especialy the use of concrete foundations, is urged, as well as some rational method of disposing of garbage and storing food.

Ammonia as a Fertilizer.

The value of sulphate of ammonia as a fertilizer was demonstrated in some German tests where marsh lands were fertilized with nitrate of soda and sulphate of ammonia. With both oats and beets the plants receiving sulphate yielded much more than those receiving nitrate. These results indicate that on marsh lands a liberal supply of lime or sulphate of ammonia may be advantageously substituted for nitrate of soda and confirms the wisdom of the practice common in Germany

FORMS OF HOOFS.

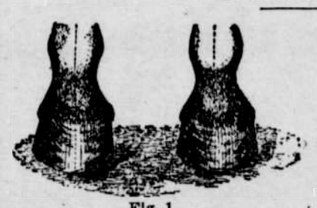


Fig. 1.

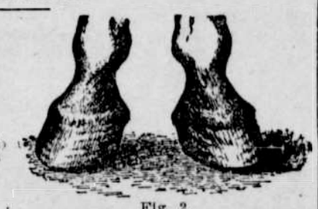

Fig. 2.

The form of a horse's foot determines the peculiarities of the shoe that is best adapted to it. Viewing the foot from the side the regular position is that shown in figure 4, in which the weight will be borne to best advantage. Looking from the front the regular form is that shown in figure 1, the wide toe being indicated by figure 2, and the narrow toe by figure 3. With the regular or normal shape the weight falls near the center of the hoof, and is evenly distributed over the whole bottom of the hoof. The toe points straight forward and when the horse is moving forward in a straight line the hoofs are picked up and carried forward in a line parallel to the middle line of the body. A pair of hoofs of the form shown in figure 2 allows the weight to fall largely into the inner half of the hoof. In motion the hoof is moved in a circle. Horses that are "toe-wide" are likely to interfere when

Fig. 3.

in motion. In the third form (figure 3) the weight of the body is directed on the outer half of the hoof. The irregularity of form causes a paddling motion and frequently interfering.

Fig. 4.—Regular Form Is Shown in B.

Why the Boat Upset.

Helen—Of course he clasped you in his arms when the boat upset?

Hazel—No; just the opposite.

Helen—Just the opposite? What do you mean?

Hazel—Why, the boat upset when he clasped me in his arms.—Rochester Democrat and Chronicle.

Boiled potatoes should be served as soon as they are cooked. To make them drier drain off the water quickly, shake them in a strong draft of air and do not put back the lid of the pot.

Poultry Note.

"So you are raising chickens?"

"Yes," answered Mr. Crosslots.

"What do you find the greatest menace to the welfare of poultry?"

"Sunday company."—Washington Star.

One Thing That Will Live Forever, PETTIT'S EYE SALVE, first box sold in 1807, over 100 years ago, sales increase yearly. All druggists or Howard Bros., Buffalo, N. Y.

Test of a Reformer.

"Father," said little Rollo, "what is a reformer?"

"In numerous cases, my son, a reformer is a man who considers himself peculiarly qualified to hold office because of his professional inexperience."—Washington Star.

Case of Unselfish Crusaders.

We (Irish) have got the name of being an adventurous people. You will hear the Irish accent in every continent. There is no speech or language where our voice is not heard. We have helped to civilize every country except our own.—Dublin Irish Homestead.

Friendship's Tribute.

Nan—I haven't much of a singing voice, you know, but I have it under excellent control.

Fan—Yes; that's what I like about you, dear. You seldom let it escape you.

Hamlins Wizard Oil is over fifty years old, and, like an old friend, it can be depended upon just as surely as the family doctor who may be miles away.

Identification.

Mistress (at door)—Well, my dear, what is it?

Little Girl—Please 'm, our kitty is losted. Did you see a kitty go past here by the name of Nuddles?—Boston Transcript.

His Real Purpose.

Lady (on the bank)—My dear sir, how did you come to tumble in?

Man (in water)—My dear madam, to be frank, I didn't come to tumble in—I came to skate.—The Bystander.

Uncle Allen.

"A cannon cracker," said Uncle Allen Sparks, after the celebration was over, "is another of those things with fire at one end and a fool at the other."—Chicago Tribune.

The Kind You Have Always Bought

Bears the Signature of *Chas. H. Fletcher*

Disapproves.

"I always had a high opinion of Mr. Roosevelt," said Mrs. Lapsling, "until he went to Africa to kill animals. I don't like that one bit, even if he does call himself a fawning naturalist!"

What's in a Name.

Farmer Hayrick—Why are you going to charge the summer boarders more this year? Farmer Corntassel—I've called the place a bungalow.—Puck.

Mind Cure.

Pretty Cousin—Algy, don't your knees get cold in that uniform?

Algy (in Highland costume)—Baw Jove, they did at first, but I said to them: "Hoot! Dinna forget that my ain grandfeyther was a Scotsman!" and, baw Jove, they warmed right up to the idea!

Going to the Play.

"I should think it would be a simple matter to induce a woman to get ready in time to attend an evening performance."

"What's your scheme?"

"Ask her to go to the matinee."—Kansas City Journal.

Hard Luck.

Rivers—You say you won a dozen bets on the election, and lost only one. What are you kicking about?

Brooks—The bets I won were "freak" bets. The one I lost was cash.

Item Welcomed By Many Men

This recipe can be filled at home, so that no one need know of another's troubles, as the ingredients can be obtained separately at any well stocked drug store. They are in regular use and many different prescriptions are constantly being filled with them.

This will prove a welcome bit of information for all those who are overworked, gloomy, despondent, nervous and have trembling limbs, heart palpitation, dizziness, cold extremities, insomnia, fear without cause, timidity in venturing, and general inability to act naturally and rationally, as others do, because the treatment can be prepared secretly at home and taken without anyone's knowledge.

Overworked office men and the many victim's of society's late hours and dissipation will, it is said, find the restorative they are in need of.

If the reader decides to try it, get three ounces of ordinary syrup sarsaparilla compound and one ounce compound fluid balmwort; mix and let stand two hours; then get one ounce compound essence cardiol and one ounce tincture cadomene compound (not cardamom), mix all together, shake well and take a teaspoonful after each meal and one when retiring.

A certain well known medical expert asserts that thousands of men and many women are sufferers all because of dormant circulation of the blood and a consequential impairment of the nervous force, which begets the most dreadful symptoms and untold misery.

BAND INSTRUMENT LESSONS

Learn to play some musical instrument. Musicians make money and make it easy. We teach Cornet, Clarinet, Saxophone, Flute, Piccolo, Slide Trombone, Valve Trombone, Alto or Melophone, Tuba and Baritone, direct from Conservatory to pupil at home. Easy to learn. Courses simple, thorough and complete. Endorsed by United States Government and famous musicians. Results guaranteed. Write us now for free sample lessons for instrument you desire to learn. Prices and terms reasonable.

INTERNATIONAL CONSERVATORY OF MUSIC

MASONIC TEMPLE, PORTLAND, OREGON.

Would Have to Be Labeled.

"What do they put under these corner-stones?"

"O, current coins, literature, and the like. We want posterity to know about our peculiar customs."

"Then why not include one of the current hats?"—Kansas City Journal.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Fine Mind.

"Everybody says that Jones has the finest mind, insight, and sagacity he ever ran across. How did Jones get such a reputation?"

"Easy. Whenever you make a statement he says, 'By Jove, that's so! Why didn't I ever think of that before?'"—Cleveland Leader.

Headache

"My father has been a sufferer from sick headache for the last twenty-five years and never found any relief until he began taking your Cascarets. Since he has begun taking Cascarets he has never had the headache. They have entirely cured him. Cascarets do what you recommend them to do. I will give you the privilege of using his name."—E. M. Dickson, 1120 Resiner St., W. Indianapolis, Ind.
