

Coughs of Children

Especially night coughs. Nature needs a little help to quiet the irritation, control the inflammation, check the progress of the disease. Our advice is—give the children Ayer's Cherry Pectoral. Ask your doctor if this is his advice also. He knows best. Do as he says.

Ayer's

If you think constipation is of trifling consequence, just ask your doctor. He will disabuse you of that notion in short order. "Correct it, at once!" he will say. Then ask him about Ayer's Pills. A mild silver pill, all vegetable.

A Hard Proposition.

A young man visited his doctor and described a common illness that had befallen him.

"The thing for you to do," the physician said, "is to drink hot water an hour before breakfast every morning."

"Well, how are you feeling?" the doctor asked a week later. "Did you follow my advice and drink hot water an hour before breakfast?"

"I did my best, sir, but I couldn't keep it up more'n ten minutes at a stretch."—The Bits.

At the Summer Resort.

Clara—What an interesting man Mr. Robinson is. He always holds one's attention.

Charlie—When I saw you both on the porch last evening I thought he was holding something much more substantial than your attention.—Judge.

Uncle Eben on Brains.

"I dunno," said Uncle Eben, "whether it's better to have mo' money dan brains or mo' brains dan money, but heaven help de man dat ain't got any of either."

Raises the dough and complies with all pure food laws.

ITO IS ASSASSINATED

Foremost Man of Japan Killed by Korean at Harbin.

CONSTERNATION AND GRIEF REIGN

Emperor's Trusted Adviser and Leader of Modern Japan—No Details Are Known.

Tokio, Oct. 26.—News has been received here that Prince Ito, the famous Japanese statesman, has been assassinated by a Korean at Harbin.

The news was received at Tokio at 3 o'clock yesterday afternoon. The dispatch contained only the brief announcement that Prince Ito had been assassinated.

It has caused great grief and consternation.

Prince Hirobumi Ito was perhaps the greatest statesman of modern Japan. The achievement with which his name has been chiefly associated in the minds of Occidentals was the framing of the Imperial constitution, by virtue of which Japan took her place for the first time in the rank of modern civilized states.

As the emperor's trusted adviser and the medium through which the state was placed on a constitutional basis, he must be regarded as one of the positive factors which have helped to win for Japan her present standing among the nations.

MANY WANT PLACE.

President Likely to Appoint Democrat Supreme Justice.

Washington, Oct. 26.—President Taft, in selecting a successor to the late Justice Peckham, is expected to choose a Democrat. Senator Root and Secretary Knox, however, are considered among the possibilities. The New York senator has accumulated enough of this world's goods to be able to devote the remainder of his activities to government service, but it is rather doubtful whether Mr. Knox could be persuaded to accept.

So far as administration officials are advised, the president has not made his selection. A number of important cases are soon to be argued before the Supreme court, and in a large measure the school of the new justice will decide the issue. Therefore exceptional importance attaches to the selection.

Solicitor General Bowers, of the Department of Justice, who is a Chicagoan, is known to stand high in the esteem of the president, and it has been understood that Mr. Taft would like to see him upon the Supreme bench. If a Democrat is to be chosen, Secretary of War Dickenson, ex-Secretary of War Wright and Judson Harmon loom up prominently, with Mr. Dickinson running as favorite.

EVIL TRADE GROWS.

White Slave Traffic Is Declared to Be Spreading.

Omaha, Neb., Oct. 26.—"The traffic in girls has become an evil more widespread than the public imagines," said Dr. O. Edward Janney, of Baltimore before the National W. C. T. U. convention today. "The main line of its operation," he continued, "is from Montreal, Boston and New York, westward through Buffalo, Pittsburgh, Chicago, Omaha and Denver to San Francisco and Seattle. It even reaches across the ocean for victims."

"The Federal government is doing all it can to suppress the traffic, but is impeded by a Supreme court decision that this is a matter which the police power of the states should regulate. I urge the members of the W. C. T. U. to influence their state legislatures to pass more drastic laws on this subject."

Dr. Janney is chairman of the national vigilance committee for the suppression of the "white slave" trade.

One of the notable speakers tonight was Miss Ellen M. Stone, the missionary whose abduction and ransom in Southern Europe a few years ago made her internationally known.

Takes No Risk of Feuds.

St. Louis, Oct. 26.—Mayor Roy C. Woods, of Wellston, St. Louis county, today received notice from an insurance company that it had cancelled his \$5,000 policy. No explanation is given, but Woods believes the action was caused by two recent political feud shootings in Wellston. His life is insured for \$40,000, and his will provides that if he dies at the hand of an assassin, "Joseph W. Folk, former governor of Missouri, shall receive \$1,000 and five other lawyers \$500 each to prosecute his slayers."

Socialists Arouse Doubts.

St. Petersburg, Oct. 26.—Discussion of the bill for the consolidation of rural holdings was begun in the duma today. The measure authorizes the consolidation of such peasant holdings as are at present scattered in small areas over the lands belonging to private owners or the state. A scene of great disorder was caused today by the Socialist interpellation in the duma, declaring unconstitutional the ukase issued with reference to military legislation. Secretary Zamyovski refused to read the interpellation.

Women Start Strike Riot.

New Brunswick, N. J., Oct. 26.—Several hundred women took part in rioting today outside the cigar factory of Hirschorn & Co., where a strike is in progress. Three women were knocked down and roughly handled. Nearly 500 young women left their work Saturday when their demand for an increase in the piece work rate was refused. A number of American girls who refused to strike were attacked when they attempted to enter.

Peace Promised in Balkans.

Paris, Oct. 26.—The Temps prints an interview with M. Iswolsky today, in which the Russian minister of foreign affairs describes the Russian-Italian rapprochement as destined towards the maintenance of peace in the Balkan states.

BOMB FOR JAPANESE.

Eureka, Cal., Wrought Up Over Outrage at Night.

Eureka, Cal., Oct. 26.—The town is worked up over the throwing of a bomb at an early hour this morning. The Tsuchiya Brothers, Japanese, opened a store in this city a few days ago and at 2:45 this morning someone exploded a bomb in the entrance of the store. The explosion demolished the store front and broke windows in a number of buildings nearby. The report was heard for miles and people were in great fear until they learned the cause.

The owners of the store were sleeping in the rear and when the explosion occurred one of them ran to the front and seeing the damage and fearing bodily harm, started to run. Two policemen, thinking he was the bomb thrower, started in pursuit, firing their revolvers as they ran. The Japanese stopped when the shooting began and no harm was done. There is no clew to who fired the bomb, and no evidence is at hand to incriminate anyone.

The store had been in operation here but three days, and is the first Oriental store to be established here since the exclusion of Chinese from Humboldt county in 1887. It is believed someone opposed to the invasion of the business field by Japanese fired the bomb.

JUSTICE PECKHAM PASSES.

United States Supreme Court Loses Eminent Member.

Albany, N. Y., Oct. 26.—Rufus W. Peckham, justice of the United States Supreme court, died at his summer home at Altamont at 8:15 Sunday night.

Death was due to a complication of diseases—heart trouble, Bright's disease, and hardening of the arteries contributing.

Justice Peckham had been in ill health for some time, but his condition was not considered serious until recently. Following adjournment of the May term of the United States Supreme court, he came on from Washington with Mrs. Peckham to spend the summer at Altamont, expecting to return for the beginning of the October term.

A few days ago his condition became such that his physicians said he was likely to die at any time, or might linger for several months. Up to a few days ago Justice Peckham exhibited considerable strength and was able to be about the house. The circulatory disturbance, which contributed to his death, was first noticed about six years ago.

Justice Peckham was appointed in 1896 and was the last of Cleveland's selections.

REBELS GAIN VICTORY.

Nicaragua Loses One Hundred Dead and Three Hundred Injured.

Bluefields, Nic., Oct. 26.—The tug Blance, which arrived here from Greytown, brings news of the first important battle of the revolution. General Chamorro's army fought an engagement on Friday with 1,000 of President Zelaya's troops at a point below Boca Sica Carlos on the San Juan river.

The revolutionists won a decisive victory, 100 of the government troops being killed and 300 wounded. General Chamorro's losses were slight. The insurgents captured two Krupp siege guns and 400 rifles.

The defeat doubtless will have a deterrent effect in recruiting for the government service at Managua, and is likely also to bring additional reinforcements to the standards of the insurgents.

The steamer Yulu, belonging to the Emory company, also has reached here with the details of the capture by the revolutionists of Cape Gracias Dios. This point was easily taken, not more than five or six men being killed, and a small number wounded. This gives the revolutionists control of the entire Atlantic coast.

De Lara May Go Free.

Los Angeles, Oct. 26.—The \$3,000 necessary to secure the release on bail of Gutierrez de Lara has almost been raised, and it is probable that he will be set free tomorrow. A. C. Ridgeway, the government immigration inspector here, denied a statement printed this morning that de Lara was being held at the request of the Mexican government. "Mexico has nothing to do with it," said Mr. Ridgeway. De Lara, in a statement issued from the county jail tonight, again asserted his innocence of being an alien anarchist.

Canada to Claim Pole.

Ottawa, Ont., Oct. 26.—That the Canadian government is to send an expedition early next spring to the North Pole in command of the veteran Arctic explorer, Captain Joseph E. Bernier, was the announcement made by Sir Wilfrid Laurier at the Canadian club banquet in this city tonight to Captain Bernier. Captain Bernier said he had claimed for Canada "in detail and by wholesale" every bit of land to the pole. With reference to the polar trips of Peary and Cook the captain said they did not take possession of any.

Storm Records Broken.

Menlo, Oct. 26.—Some storm records were broken in the recent typhoon which crossed Northern Luzon and the Benguet mountains. Eighteen inches of rain fell in nine hours and 26 inches fell in the 24 hours the storm lasted. The Blue River rose 60 feet. The wind gauge at the observatory broke when the wind attained a velocity of 95 miles an hour. It is estimated it will require two months to restore the Baguio road.

Chilean Hero Honored.

Santiago, Chile, Oct. 26.—A great demonstration was held here today in honor of General Jose de San Martin, a celebrated Spanish-American general in the war for independence, whose brilliant victory at the Maipo, April 15, 1818, virtually drove the Spaniards from Chile. Thousands of troops and school children formed a procession and marched past the statue erected in his honor.

MERRY AND GARDEN

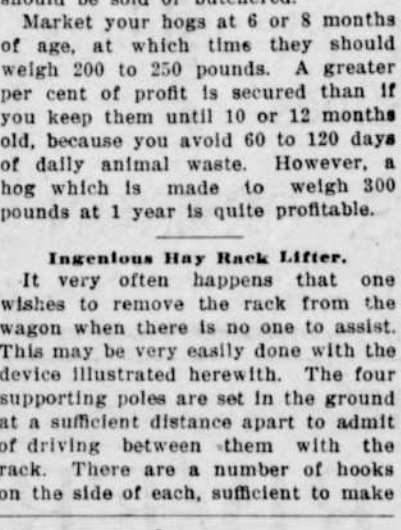

Fattening Hogs.

The hog is an omnivorous animal, and needs "roughage" and green feed for his best health and growth. A certain amount of grain feed is needed to grow hogs with the greatest profit, and still more is necessary to fatten and fit them for market. When young animals have an abundance of range with a good supply of nitrogenous foods, like alfalfa, clover, vetches and cow peas, corn makes a valuable addition to the ration, but should not be given in excess, and will usually be found more profitable if mixed with shorts, bran or other feed combining a large proportion of protein. For young pigs bran is not so good as shorts and ground cow peas may be used in the place of the latter when the price exceeds \$20 per ton.

Feeding for the finish should not begin more than ten or twelve weeks before the hogs are to be sold. For the last six or eight weeks corn is undoubtedly the best grain, as the feed consumed during this time greatly influences the quality of the meat. Hogs take on flesh rapidly during the first weeks of heavy feeding, but longer feeding means slower gains. Quick work pays in fattening as well as in growing hogs, and when the animals are on good feed and fall to make a gain of at least one pound daily they should be sold or butchered.

Inexpensive Hay Rack Lifter.

It very often happens that one wishes to remove the rack from the wagon when there is no one to assist. This may be very easily done with the device illustrated herewith. The four supporting poles are set in the ground at a sufficient distance apart to admit of driving between them with the rack. There are a number of hooks on the side of each, sufficient to make

ONE MAN CAN HANDLE BIG RACK.

it possible to lift the rack a little at a time by means of the poles, as illustrated by the dotted lines. There is no need of a complicated block and tackle when such a simple device is so effective.—Frank Monroe in Farm and Home.

Best Type of Milk Cows.

A cow with her second or third calf is the most desirable of all, and this is undoubtedly the most profitable age to buy them. As milkers and breeders, they have all their best days in front of them, and with sufficient time to pay handsomely. Young and old cows are very distinct in appearance. The former have an unmistakable appearance of fullness of flesh and coat, while the old ones are more or less shrunk. The teeth give an indication of age, and the horns are often looked to as a guide, the young having smooth horns, while those of the aged are wrinkled. If cross-breeds are bought, get them with the greatest tendency toward the best breed the cross has been secured from. Cows with a male or bull type of head are rarely good milkers. The head should be refined, neck thin, forequarters wide, square and robust, with deep, broad thighs.

Value of Skim Milk for Hens.

Systematic tests made by the West Virginia Experiment Station prove that skim milk is a valuable food for laying hens.

The first test covered 132 days. The twenty-two hens fed the skim milk laid 1,244 eggs, as compared with 996 laid by twenty-two hens fed a mash wet with water.

In another test sixty hens fed skim milk laid 862 eggs in thirty-seven days, as compared with 632 eggs laid by a similar lot fed no milk.

Other tests gave about the same comparative results.

The conductors of these experiments estimate under prevailing conditions, with eggs selling at 20 to 25 cents a dozen, that the skim milk had a feeding value of 1 1/2 to 2 cents a quart.

They'll Want the Wood.

The forest famine is not to be immediate, said Mr. Pinchot at Denver. "We have forests in plenty for the present generation, and perhaps for the next, but in the years to come there will be famine-plenty if we don't at this time take the stitch in time."

The Ohio Experiment Station recommends as a treatment for killing peach and plum tree borers, 3 pounds of naphtha soap emulsified by boiling in three gallons of water; while hot add one gallon of carbolineum emulsion, which can be obtained through dealers in market gardeners' and fruit growers' supplies. This can best be mixed by the use of a force pump. When the soap solution and carbolineum are thoroughly mixed add four gallons of water and apply with a spray pump, being careful to protect hands and face when using.

Why He Got His.

The vender of images, who had just been thrown out of a large office building, wept bitterly as he looked at his torn clothes and broken wares.

"Who did this?" inquired the friendly cop. "I'll pinch 'em if you say the word."

"No; it was my fault," said the victim, gathering up the remains of a plaster image. "I insisted on trying to sell a bust of Noah Webster to a meeting of simplified spellers."—Denver Republican.

Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet, it cures painful swollen, smarting, sweating feet. Makes new shoes easy. Sold by all Druggists and Shoe Stores. Don't accept any substitute. Sample FREE. Address A. S. Daniel, Le Roy, N. Y.

Money to Burn.

The big touring car had just whizzed by with a roar like a gigantic rocket, and Pat and Mike turned to watch it disappear in a cloud of dust.

"Them chug wagons must cost a hape av cash," said Mike. "The rich is fairly burnin' money."

"An' be the small av it," sniffed Pat. "It must be that tainted money we do be hearin' so much about."—Success Magazine.

Great Home Eye Remedy

For all diseases of the eye, quick relief from using "PETTIT'S EYE SALVE." All druggists or Howard Bros., Buffalo, N. Y.

Safest Location.

In those days the proprietor of the Rabeltower flats was asking and getting fabulous prices for apartments between the twentieth and thirtieth floors.

"You see," he said, "they're most desirable because they're the safest. Aeroplanes never fly that low and automobiles seldom blow up that high."—Catholic Standard and Times.

Two Sides to Everything.

A little boy was given too much underdone pie for his supper and was soon roaring lustily.

His mother's visitor was visibly disturbed.

"If he was my child," she said, "he'd get a good sound spanking."

"He deserves it," the mother admitted, "but I don't believe in spanking him on a full stomach."

"Neither do I," said the visitor, "but I'd turn him over."—Success Magazine.

Faulty Example.

"You must think you ought to run around barefooted, Johnny," said Mrs. Lapsling, chidingly, "just because Bobby Starford does. He's no centurion to go by."

Destroying Quack Grass.

I often see directions given for killing out quack grass, but I think they are all inferior to the method that I employ. I would never try to drag out the roots with harrow or rake, because not all of the roots will be gathered and those left will soon fill the soil again. The pest can most easily be killed right where it is, the roots furnishing an abundance of plant food, by using a double action cut-away harrow. Now, please don't think that any kind of a harrow will do, because it will not. If you rely on any except the one I have mentioned you will be disappointed. I have used cre to destroy quack grass many times, and am sure of what I am writing. If you plow before using the harrow, run the plow shallow—just deep enough to turn over the quack roots, bottom side up; let lay thus for a week and then go over the field with the double action cutaway harrow; then after a few days repeat the harrowing and keep at it, going over the field at intervals of a few days until the pest is all destroyed. It is no use to think that if the field be gone over, perhaps a dozen times in one day, the quack will be killed, for the sun, as well as the harrow, must get in its work. The way to do is to go over the field once, then wait a few days for the roots to dry and repeat the operation. By being thorough in this the grass can be destroyed and a crop grown the same year if commenced early in the spring.—F. H. Dow in Agriculture's Epitome.

Protecting Birds.

With very few exceptions, birds are most valuable live stock on the farm. Even the so-called grain-eating birds earn their right to a home and protection by reason of the vast quantities of weed seeds they devour and the number of insects they destroy. Quails and meadow larks eat more insects than vegetable food and a very large percentage of the latter is composed of weed seeds. A single farmer cannot protect the birds on his place against all kinds of destructive vermin, including the town hunter, but he can combine with his neighbors, post every farm and secure his rights by helping to secure the rights of his brother farmers. Now is a good time to begin.—Kansas Farmer.

The Kind You Have Always Bought

CASTORIA

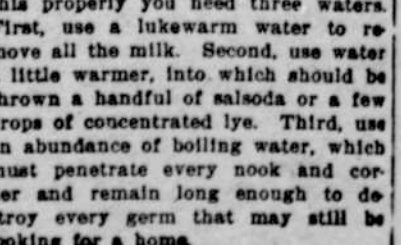

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-good" are but Examinations, and endanger the health of Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
