Will Erect Store Building.

Ground was broken yesterday for the erection of a store building on the lot adjoining A. Stewart's store on Main street, purchased recently by Nathan P. Sturgess. The building will be 24x40 feet, with living apartments upstairs.

Mr. Sturgess will have no difficulty in securing a tenant for the store, as he has already had several applications for it. In fact, so great is the demand in Mosier for buildings of all kinds, that so soon as the erection of one is contemplated it is spoken for. Mosier's growth is not phenomenal or of the mushroom variety, but a steady, consistent and healthy development, which bids fair to continue through the winter months, despite the inclement and unusual weather. The greatest hindrance at present to the development of the town is the difficulty in obtaining lumber. Not one of the many buildings erected here this year has been begun or completed on time, because of the delay in getting the lumber, most of which has been shipped in from outside points. This emphasizes the great need of lumber yard in Mosier. Some enterprising firm or individual could do a good business here in this line, as there will be a constant demand for lumber in the town and surrounding country.

TO MOSIER VALLEY PROPERTY OWNERS.

We have recently opened an office at Hood River for the handling of orchard lands and we are making a specialty of Mosier Valley fruit lands and will be glad to have you give us a description of your property and the price on same.

We expect to send a large number of people to Mosier in the next six months and would like to give prospective orchard growers information as nearly accurate as possible as to prices of brush land and young and bearing orchards.

Our office is in the Davidson Building at Hood River, where we can be reached either personally, by telephone or by letter.

Yours very truly,
 B. E. DUNCAN & CO.

Once upon a time a man, who was too economical to take a paper, sent his boy to borrow the copy taken by his neighbor. In his haste the boy ran over a stand of bees and in ten minutes looked like a watery summer squash.

His cries reached his father, who ran to his assistance, and failing to see a barbed wire fence, ran into it, breaking it down, cutting a handful of flesh from his anatomy and ruining a pair of \$4 pants.

The old cow took advantage of the gap in the fence, ran into the cornfield and killed herself eating green corn. Hearing the racket, the wife ran, upsetting a four-gallon churn full of rich cream into a basket of kittens, drowning the whole flock. In her hurry she dropped a \$7 set of teeth.

The baby, left alone, crawled through the spilled milk into the parlor and ruined a \$20 carpet. During the excitement the eldest daughter ran away with the hired man, the calves got out and the dogs broke up eleven setting hens.

MORAL:—Subscribe for your home paper.—Ex.

A few apple growers in the Hood River district who formerly marketed their fruit through the union are shipping independently this season to New York points, using some left over union wrappers in packing their fruit, which is declared to be of an inferior quality by purchasers in the American metropolis. There it is again. Some persons do not appreciate what has been done in their interests through a well-established organization and are doing such acts that will tear down the good work of the past and probably injure their prospects for the sale of future crops from their orchards. The union should take vigorous action in preventing the use of their trade mark hereafter by calling in all over supplies of such paper.—Salem Statesman.

The most deadly instrument known to mortal man is the human tongue. Dynamite is not in it as a trouble breeder. The fewer brains there are back of it the freer the action. It goes off on the slightest provocation. It strikes harder blows than a prize fighter or a mule kicking down hill. It causes more heartaches than a tax collector. A tongue can make a sore spot for years. The crimes charged to the tongue are words of criticism, unkindness, gossip, scandal, lying, malice and hate. The aggregate of sorrow caused every year by the tongue far exceeds that of theft and murder.—Ex.

It is said that the recent cold snap froze a good many potatoes that had been dug and sacked and left unprotected. One man is reported to have lost several hundred sacks of fine "spuds." The very unusual and unexpected cold weather caught every one unprepared.
