Physicians in Japan.

Medical students in Japan must have had eleven or twelve years of preliminary training in the lower schools. No one may practice medicine who has been convicted of a crime. All physicians for the first ten years during which they follow their calling must keep full written records of all their cases, and they must not issue boastful advertisements or claim the exclusive right to any healing invention with a secret formula.

Overconfidence.
"What is the title of this picture?" inquired the connoisseur.
"The Night Express Leaving on Time," said the proud owner of the painting.
"May I ask what it cost you?"
"I paid \$150 for it."

English Coffee.

An extract from the London Chronicle proves that the English can take a joke in a sportsmanlike way. The American opinion of coffee as understood in the English home is not high, and how the coffee of the English lodgings is esteemed may be understood from the following traveler's tale:

It was his first morning in London "apartments," and his landlady came up with the breakfast, and as she set down his coffee cup she opened a slight conversation.

"It looks like rain," she said.

"It does," agreed the American, "and it doesn't even smell unlike it."

KILL APPLE BOX BILL

Measure Changing Size of Boxes Stands Little Chance.

WESTERN MEN ARE WATCHING IT

Should it Appear Before Congress Again, It Will Be Riddled With Adverse Facts.

Washington, Jan. 18.—The Lefean apple-packing bill, intended to drive Oregon and other western apples out of eastern markets, lies dormant in the house committee on agriculture, and thus far there has been no indication that it is to be pressed for consideration. The bill is not a new one. In one form or another it has been introduced in several successive congresses, but never yet has it received consideration at the hands of any committee to which it has been referred. If Mr. Lefean has any intention of urging its consideration this session, he has given no intimation of his purpose to the chairman of the committee on agriculture, and without request from him the committee will take no notice of the bill.

The Lefean bill in its present shape seemingly stands no chance of passage. The radical and revolutionary character of its requirements and the manifest object sought to be attained are sufficient to guarantee a fight against it in committee, and it is doubtful if the bill could be reported to the house, but, should a report be made, it would only be after the bill had been materially amended, so as to remove the more objectionable features. But more than this, it is seriously questioned whether congress will feel disposed to enter upon the regulation of the size and contents of packages in which foodstuffs are shipped in interstate commerce. Such legislation was not attempted under the pure food law, and it is not believed to be the purpose of congress at this late day to set a precedent as would be established by the passage of the Lefean bill.

Representative Lefean introduced his bill in the last congress, it was referred to the committee on interstate and foreign commerce and there died without ever being considered. In the special session last spring he reintroduced it, and again on January 5 introduced it with some changes. The latest bill, so far as the western apple country is concerned, is quite as objectionable as any of its predecessors, for it provides that boxes in which apples are packed for shipment out of the state in which they are grown must have a capacity of not less than 23 1/2 cubic inches, the figures named in previous bills. But in addition to defining the capacity of apple boxes, the new bill fixes the standard capacity of apple baskets and barrels, the former to be of the standard capacity of 23 1/2 cubic inches, and the barrels to be of the following dimensions: "Length of stave, 28 1/2 inches; diameter of head, 17 1/2 inches; distance between heads, 26 inches; circumference of bulge, 64 inches."

The objectionable feature of the bill, so far as the western apple growers are concerned, is that fixing the standard for boxes. Mr. Lefean, for some reason, has arbitrarily chosen a box containing 23 1/2 cubic inches, the Winchester brand, the recognized standard in the United States, contains 215.4 cubic inches. Therefore the Lefean box calls for 192 cubic inches in excess of a bushel. Why such a figure should have been chosen is a mystery to the members of the committee. Mr. Lefean has never offered any explanation, yet he apparently is the only man in congress interested in this bill.

Chairman Scott of the committee has assured Mr. Hawley he will do nothing with the bill unless urged to do so by its author, and, if request is preferred, Mr. Hawley will be notified in time to enable representatives of the western apple growers to come to Washington and present their protest to the committee. But until Mr. Lefean demands such action, it seems unnecessary for such representatives to make the trip to Washington or to demand hearing.

CHINA LIVES UP TO TREATY.

Throws Open Two Cities, Regardless of Japan's Protests.

Peking, Jan. 18.—China has opened Hun Chun and Lungchin-sun, in Chientao, Manchuria, to international trade, notwithstanding the fact that a Japanese protest has not been reached with Japan regarding the matter of tariffs to be collected on the Korean-Manchurian border.

The question of tariffs will come up for settlement soon.

By the terms of an agreement between China and Japan, signed September 4, 1907, among other things the Tumen river was designated the boundary line between China and Korea, and several towns in Chientao, which were given to China, were to be opened to the residence and trade of foreigners. Two of these towns are Hun Chun and Lungchin-sun.

Various dissensions in carrying out the terms of the agreement have arisen, such as the immigration of Koreans into Chientao. By the terms of the agreement, China was to have sovereignty over the Koreans there, of whom there are about 70,000. Japan felt her control of Korea was in a measure threatened by this. Another hitch was caused by the question of tariffs. So the opening of the designated towns, promised by January 1, was delayed. Both nations recognize, however, that sooner or later in the course of progress these towns must be opened, and China's present declaration is not thought to portend any serious clash with Japan.

The importance of the opening of Hun Chun to foreign commerce is apparent when it is understood that the town is nine miles northeast of the Tumen river, 35 miles above the mouth of the Tumen river, and less than 100 miles from Vladivostok.

STOVAINO BRINGS DEATH.

Doctor Says New Anesthetic Kills Chicago Patient.

Chicago, Jan. 18.—Stovaino, according to a coroner's physician, Dr. Warren M. Hunter, caused the death of John Robry at the county hospital last Thursday.

Robry was operated on for a fractured knee cap, and died an hour after he was taken to the operating table. Dr. Hunter has made a post-mortem examination of the body, and an inquest probably will be held tomorrow.

"Death was caused by stovaino and external violence," said Dr. Hunter. "The fractured knee cap forms all the external violence marked on the body showed, and that in itself would not cause death, of course."

Dr. Hunter referred to the new anesthetic recently demonstrated in Chicago by Dr. Thomas J. Janssen, as "a medical gold brick."

SHASTA TIMBER IS SOLD.

Forest Service Bureau Approve Sale of 14,000,000 Feet.

Dunsmuir, Cal., Jan. 18.—The bureau of forest service of the department of agriculture has approved the sale of 14,000,000 feet of standing timber in the Shasta national forest reserve.

The sale was made for \$31,000 to the Castle Lake Lumber company of Castella, and consists of a quantity of yellow pine at \$3 per thousand feet, sugar pine at \$4 per thousand feet, and Douglas fir at \$1.50 per thousand feet.

The object of the sale is to remove the dead, dying and matured timber in the reserve, leaving sufficient standing timber to reproduce a supply of the particular kind most desired.

Tourist Rates to Stand.

Chicago, Jan. 18.—A special committee appointed for the purpose of considering reduced rates for 1910 held a meeting today and decided to report in favor of retaining the same rates for homeseekers and tourists as prevailed during 1909. It was unable to arrive at an agreement regarding reduced rates for other purposes. The Transcontinental Passenger association meets January 28 and will then consider the question of reduced rates. The committee will attend that meeting, and, following it, will formulate a report to be made to western lines.

OHIO FLOOD THREATENED.

Louisville, Ky., Jan. 18.—Floating property valued at nearly \$2,000,000 is in jeopardy. People in the low-lying suburb of Shipping Port are beginning to abandon their homes, and damage to business houses adjacent to Louisville's wharf territory is threatened by the swelling waters of the Ohio tonight. Rivermen say that the ice gorge has held on until the lee is grown rotten all the way through, and that there is great danger that it will go out with a rush.

More Tins of Opium Found.

San Francisco, Jan. 18.—Further search of the steamship Siberia by the customs officials today revealed 79 additional tins of opium secreted in various parts of the vessel. Including today's find, nearly \$8000 worth of opium has been found on the Siberia since she came into this port several days ago.

VENTURA'S CREW SAVED.

Steamer Fairhaven Rescues All on Board in Nick of Time.

San Francisco, Jan. 18.—Captain Paul Rappmundt, his wife and 3-month-old child, his 16-year-old son, Paul Rappmundt, Jr., and the entire crew of seven of the wrecked schooner San Buena Ventura, have been saved from the sea. They arrived in San Francisco harbor tonight on the steamer Fairhaven, and the first news of them received since their vessel drifted ashore Friday at the mouth of Rogue river came from the Fairhaven's signal flags as the steamer steered in through the Golden Gate.

The party was taken from the sinking, water-logged lumber schooner after three days of hardship and suffering. They had about despaired of their chances of escaping death in the ocean, when the Fairhaven over in sight just before dusk Friday afternoon, and the rescue was accomplished despite the heavy sea that was running.

First Mate Erickson, of the San Buena Ventura, was seriously injured on Wednesday afternoon, when the cargo of lumber shifted. Three of his ribs were fractured, and it is probable he is internally injured. J. Cosgrove, one of the men aboard, sustained an injury of the right hand. These were the only casualties.

When the Fairhaven sighted the disabled schooner Captain Paulson sent Second Mate Johann Silverstein and four men to the rescue in a lifeboat. After an exciting battle with the heavy seas the small boat reached the side of the doomed vessel.

Mrs. Rappmundt and her son were taken into the lifeboat. Then Mate Erickson was lifted over the side, nearly exhausted after their many hours on the pumps, deserted the wrecked craft; but Captain Rappmundt refused to leave the ship.

"She'll stay afloat for a week yet, and I'll stay with her," he shouted to his men. They pleaded with him in vain, and it was not until Mrs. Rappmundt threatened to leap into the sea with her three-month-old baby in her arms that the ship's master finally yielded.

Man Dies by Blast Route.

New London, Conn., Jan. 18.—Placing three sticks of dynamite in the front of his shirt, William A. Bennett lighted the fuse and was blown to death today. Bennett, on returning from work Friday, handed his wife a bouquet of flowers, with the remark: "You will know what to do with them when the dynamite goes off." Then he demanded money. On being refused he drew a revolver and fired at the bullet striking a corset steel, glancing off. He was arrested.

Cable Breaks; No News.

North Sydney, N. S., Jan. 18.—As a result of the breaking of the cable that connects the Magdalen islands with the mainland at Bay St. Lawrence, the islands are completely cut off from all communication, either by cable or otherwise, until the opening of navigation in the spring.

One Last Chance.

She was shopping. She drifted into the place where they sell blankets. Roll after roll was deposited and spread out before her. Still, she listlessly asked for more. Finally, with brazen face, she remarked, as she rose:

"Oh, well; I don't really mean to buy any. I was only looking for a friend."

"Pray wait a moment, ma'am," said the attendant, suavely, "there's is one more blanket on the shelf. Perhaps your friend is in that."—"The-Bits."

The Mess in the Oven.

"How came such a greasy mess in the oven?" said a fidgety old spinster to her maid of all work.
"Why," replied the girl, "the candles fell into the water and I put them into the oven to dry."—London Tatler.

A Lesson for the Old.

"I hear, my boy, that you have lately told your mother several falsehoods. This grieves me to the heart. Always tell the truth, even though it may bring suffering upon you. Will you promise me?"
"Yes, father."
"Very well. Now go and see who is knocking at the door. If it's the collector, say 'I'm not at home.'"—Detroit News-Tribune.

When the Hair Falls

Stop it! And why not? Falling hair is a disease, a regular disease; and Ayer's Hair Vigor, as made from our new improved formula, quickly and completely destroys that disease. The hair stops falling out, grows more rapidly, and all dandruff disappears.

Does not change the color of the hair.

Ayer's

The little book in each package gives the formula of our new Hair Vigor, tells why each ingredient is used, and explains many other interesting things. After reading you will know why this new hair preparation does its work so well.

Made by the J. C. Ayer Co., Lowell, Mass.

Trees Brought Home.

In lower Egypt rain fell very seldom. During the French occupation, about 1789, it did not rain for sixteen months, but since Mahomet Ali and Ibrahim Pasha completed their vast plantations—the former alone planted more than 20,000,000 olive, fir, cotton, acacia, plane trees, etc.—there now falls a good deal of rain.

Fiendishly Gloating.

"You've made money by carrying a peddler's pack and selling notions from house to house?"
"I have."
"What's the secret?"
"It all depends on the way you use your voice. Always put on the soft peddle."

A High Course.

He—Do you believe in the higher education for girls,
She—Oh, my, yes; I'm taking lessons in aviation already.—Boston Herald.

Just Before He Swears Off.

Man—Jants a great deal here below. (The poet hat it wrong.)
He wants a lot—the man you know—And wants it good and strong.
