Special Offer
to our
Subscribers

We are making a special offer to our subscribers that will appeal to them, particularly those who are fruit growers or are interested in fruit growing.

Our offer is to give the MOSIER BULLETIN and BETTER FRUIT One Year for Two Dollars.

Every person in Mosier District should subscribe for his home paper, and every person should have that publication, BETTER FRUIT, which is invaluable to the man who would make a success of fruit-raising. In fact, he can't afford to be without it. Here is your opportunity to get the two papers for almost the price of one. This offer is for all our present subscribers who renew their subscriptions to the BULLETIN on or before March 1, as well as for all new subscribers.

This offer withdrawn March 1st

and asked him if he wanted to be shown anything. "No," said the nervous man, "I just want to sit around. My physician has recommended quiet for me and says above all things that I should avoid being in a crowd. Noticing that you did not advertise in the newspapers, I thought that this would be as quiet a place as I could find, so I just dropped in for a few hours of isolation."

Lafean Bill Pigeonholed.
According to a dispatch from the Oregon News Bureau in Washington, the Lafean apple package bill, which is being opposed by growers of the Northwest, has been pigeonholed in committee and stands little chance of passing. Congressman Hawley, of this state, is a member of the committee on Agriculture, before which the bill is pending, and should a move be made to report it to the house he will summon the Oregon growers to show that it is unfair to this part of the country.—Glacier.

Safe Anesthetic Found.
A Philadelphia special to the Record-Herald says that years of investigation by surgeons for a perfect anesthetic which would have no detrimental effect on the heart or other vital organs of the patient, have apparently been rewarded. Electricity has come to the attention of the surgeons, and investigations going on here and abroad, the results of which have just been made public, show that electricity is far superior to any of the drugs now used. It produces a state of insensibility, called "electric sleep," by acting on the nerve centers of the brain.

The sleep is not fatal, and when the electric current is opened the influence is immediately lost and the patient becomes conscious without feeling any of the after-effects common with drug anesthetics.
