**Unfortunate New Yorkers.**  
 In New York we have become so hardened to eating the strange products of the cold storage vaults that the fresh foods of our childhood would probably seem unpalatable. To the diner accustomed to the pale, tasteless chicken of our hotels and restaurants, a real full-blooded broiler, slain within the current year, would taste "strong" and obnoxiously assertive. Similarly, a really fresh egg, neither leed nor partially hatched, might seem to our sophisticated palates to possess too many of the attributes of the Ingenue.—New York Evening Sun.

**The Innocent.**

**Population for Mile of Railroad.**  
 According to Canadian railway statistics for the year 1907, the United States has a population of 381 for each mile of railway, and Canada 289. France has 1,500 for each mile of railway, and the United Kingdom 1,821. In India there are 10,119 people for each mile of railroad. In the United States there are 13.61 square miles of territory for each mile of railway; in Canada 161.8 square miles; in the United Kingdom 6.29 square miles, and in France 8.46 square miles for each mile of railway.

**Swallowed His Model.**  
 "Object" drawing has brought a new anxiety into the schools. In certain districts youngsters may be seen moving schoolward with hatchets, carvers, hammers, chisels, etc., as material for their drawing lessons. The other day, just as one of these lessons was about to begin, a small boy was found standing tearfully at the headmaster's desk. "I've swallowed my object," he explained, with an alarming gulp.

**Dust a Thousand Feet Thick.**  
 China has its "bad lands," all dust and dreariness, and its frigidation wheels, and its "soul appalling" Gobi desert, along whose southern boundary lies the Great wall. In some of these regions the famous yellow dust of China lies to a depth of 1,000 feet, and when the wind blows the whole landscape is obscured. Yet it is upon this dust that the fertility of northern China depends. The Chinese call it "ginger powder."—Harper's.

**45 DEAD, 38 HURT IN IOWA WRECK**

**Double Train on Rock Island Road Goes In Ditch.**

Occupants of Day Coach, Smoker and Pullman Killed and Maimed and Many Badly Mutilated.

Marshalltown, Ia., March 22.—Forty-five persons were killed and 35 were injured, many of them fatally, in a wreck of a Chicago, Rock Island & Pacific train four and a half miles north of Green Mountain, Iowa, at 8:16 a. m. today.

The train, which was a consolidation of No. 19, from Chicago, and No. 21, from St. Louis, bound for Minneapolis, was being detoured over the tracks of the Chicago Great Western road.

Running at about 30 miles an hour in a cut north of Green Mountain, it struck a spread rail, it is believed. The pilot locomotive jumped the track and, with terrific force, was buried in the embankment of soft clay.

A second locomotive, coupled behind the first, rolled over and the sudden stop hurled all the rear cars forward. A coach, a smoker and a Pullman car were smashed to splinters, and all the occupants being killed or injured. The superstructure of the Pullman was literally shaved off and was jammed like a ramrod through the smoker and day coach.

Many passengers were killed outright. Heads were severed from bodies and arms and legs were cut off. The wreckage was crimson with blood, some of the bodies being crushed beyond recognition in the mass of twisted rails and splintered cars. A few of the passengers were found still living with a rod or splinter impaling them in the wreck. Decapitated bodies were picked up and it was almost impossible to assort correctly the dismembered parts.

The wreck occurred at a point difficult to access. Such bodies as could be pulled out were stretched out in an adjoining pasture.

First attention was given to the wounded. Their cries coming from beneath the cars were pitiable. Fortunately, the wreckage did not take fire. The rescue party, reinforced later on by wrecking trains carrying nurses and surgeons sent from the nearest available points, worked all day and until long after dark.

The injured were rushed to a hospital, several of them dying on the way.

**DOUBLE WRECK ON O. R. & N.**

Two Dead; Two Engines and Five Box Cars Demolished.

Pendleton, March 22.—Two men are dead, two engines demolished, and five loaded box-cars, with their contents, are piled in confused mass, as a result of a double wreck, the first in the history of the O. R. & N., which occurred eight miles east of Pendleton at 7:45 o'clock yesterday morning. The dead are Edward Hopple, La Grande, Or., and Engineer S. L. Risk, La Grande, Or.

Engine No. 215, in charge of Engineer Risk and Fireman Hopple, was running "light"—without a train—from Meacham to Umattila, after having helped extra freight No. 385 up the mountain from La Grande. In rounding a nine-degree curve at a point where the track skirts the Umattila river on one side and runs under a high bluff on the other, the engine left the track and plunged into the bluff.

As both the engine and the tender were clear of the rails, the block signal registered a "clear track" to the oncoming freight, 20 minutes behind the engine. The crew of the latter did not know of their danger until they dashed around the sharp curve and were almost upon the wreck.

**Man Drops Far, Bounces.**  
 Los Angeles, Cal., March 22.—While 6,000 people were watching Gen. Ayres make a descent at Long Beach yesterday afternoon, his balloon collapsed when 300 feet from the ground and he plunged to the earth, hit on his feet, bounded up like a rubber ball and then fell backward on the curbing of Pacific avenue. He was unconscious for a few minutes, but under medical attention quickly recovered. Examination showed that no bones were broken and he had no internal injuries. He is sore and bruised and will have to keep to his bed for a few days.

**Cruisers Ready to Sail.**  
 San Francisco, March 22.—When the cruiser North Dakota joins the cruiser Tennessee off the Farallon islands tomorrow afternoon the 8,500-mile voyage of the two warships to Buenos Ayres through the Straits of Magellan will begin. The vessels go to join the armored cruisers Montana and North Carolina, and with them will represent the United States in the naval demonstration at the Pan-American exposition to be held at Buenos Ayres.

**Philadelphia, March 22.**—Repudiating the offer of settlement from the Philadelphia Rapid Transit company through the assistance of United States Senator Penrose, the executive committee of the striking carmen, late tonight voted to continue the strike against the company until all their demands were granted. W. D. Mahon, the national president of the carmen's union, who has assisted in drawing up the proposed settlement, advocated its acceptance, but was outvoted by the local carmen.

**Jap Sealers on Ground.**  
 Victoria, B. C., March 22.—Japanese sealers will come to Behring sea in larger numbers than ever this season, according to information received from Japan. The Victoria schooner Peschawa, which is reported from Monterey with 209 skins, spoke a Japanese schooner off California on January 17. Her captain said that a large number of the Japanese schooners will cross the Pacific this season, several having crossed already.

**Pepper Duel.**

A certain literary and diplomatic friend of ours once took part in a pepper duel at a foreign restaurant. He was provoked to the contention by the quantity of stimulating condiment that a stranger across the table indulged in. The stranger sprinkled an unconscionable quantity of red pepper upon his food and proceeded to devour it, to the wonder and admiration of onlookers. Thereupon, with studied nonchalance, the American swallowed an immense piece of chill pepper. Then the stranger added more red pepper, then the American another larger slice, covered with cayenne, and so on, till it seemed as if both would explode, while the other diners looked on aghast, the American finally winking out with a prodigious dose defying all emulation.—Century.

**Suppressions of History.**

Amplion had just built the city of Thebes by the magical twanging of his harp. "How do you expect to make posterity believe it?" asked the spectators. "I leave all that," he said, "to the city archivist."

When it was too late he realized that he had made a fatal mistake by not having a phonograph and a motion picture machine on the ground.

I am fair to me, Bryonia, and I am not going to stand it any more. You'll have to listen to me this time. I am determined."

The outworn ideals of yesterday should be taken up very guardedly, if at all.—Puck.

**Wealth.**

**THE HYPOCRITE A GENIUS.**  
 Really to be a hypocrite must require a horrible strength of character. An ordinary man such as you or I generally fails at last because he has not enough energy to be a man. But the hypocrite must have enough energy to be two men. It is said that a liar should have a good memory. But a hypocrite must have not only a good memory of the past, but a consistent and creative vision of the future; his unreal self must be so far real to him. The perfect hypocrite should be a trinity of artistic talent. He must be a novelist like Dickens to create a false character. He must be an actor like Garrick to act it. And he must be a business man like Carnegie to profit by it. Such a genius would not be easy to find in any country.—G. K. Chesterton.

**Too Much for His Faith.**  
 "The late Bishop Hare," said a Sioux Falls physician, "was, very responsibly, to impugn skepticism to misunderstanding. He once told me of a Philadelphia business man of skeptical tendencies who said to him: 'My dear Mr. Hare, I do not refuse to believe in the story of the ark. I can accept the ark's enormous size, its odd shape, and the vast number of animals it contained. But when I am asked, my dear doctor, to believe that the Children of Israel carried this unwieldy thing for 40 years in the wilderness—well, there, I'm bound to say, my faith breaks down.'"

**Looking Ahead.**  
 "Doctor," asked his hypocondriacal patient, "do you think that when people go to heaven they follow the same occupation they did on earth?"  
 "Not all of them, madam," said the family physician. "I shall probably have to learn a new trade unless you happen to be there."  
 But he added this inaudibly.
