**Nursery "Don'ts."**

Don't treat children's troubles lightly; their trials are as big to them as those of grown-up people. Don't fail to instill a deep sense of kindness to dumb animals—a cruel boy generally makes a cruel man. Don't neglect an untruth or dishonest action—teach your children to face these and they will make them courageous. Don't encourage whining or tale-telling. Don't lose your children's confidence—try to live close to their hearts.

**What Ailed It.**

"I wish you would tell me what the trouble is with this watch," said the customer, handing it to the jeweler.

"The trouble," said the jeweler, looking at the number of the timepiece and referring to his ledger, "is that I haven't been paid yet for the cleaning I gave it two years ago."

**Had Figured It Out.**

"If you get strictly fresh eggs," the city man was saying, "you've got to pay for them."

"That's so," remarked the suburbanite. "Mine have cost me \$2.87 1/2 a dozen this winter."

"Impossible!"

"Not at all impossible. I keep half a dozen hens."

**New York's First Ferry.**

Cornelius Dirksen was the first official ferryman on the Island of Manhattan. The mooring place on the Manhattan side was about where Water street crosses the present Peck slip. He started the system in 1637. Passengers who wanted to be rowed over blew a horn for the skipper if he chanced to be absent when they arrived. From Dirksen's skiff grew the present ferry system of the city.

**PREVENTION THE BEST SAFEGUARD**

If for any cause the horse or other domestic animal exhibits a lack of energy, proper relish for food, or an appearance of general debility, timely action should be taken for the restoration of its health. In the natural food of our domestic animals Nature provides certain peculiar medicinal herbs, leaves, barks and roots which seem necessary for their health. Pacific Stock Food in greatly condensed form is intended to supply the essential virtues of these health-giving natural remedies and is prepared expressly for those animals deprived by man of their natural food. It is an alternative tonic which stimulates the various organs of the body, promotes the secretions, tones up the general system and restores the disordered conditions to a normal state. It stimulates the appetite, improves the digestion and assimilation of food, purifies the blood and insures a good, healthy condition. Booklet free.

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

**New Perfection WICK BLUE FLAME Oil Cook-stove**

Given no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

**Hero Policeman is Dead.**

Philadelphian, May 10.—W. Weiss, a policeman, died here today of injuries received in saving three children from death under the hoofs of the horses in a chariot race at a circus performance last Thursday.

Three chariots, drawn by four horses, were rounding the turn into the home stretch, when the children started to run across the track. Weiss dashed in front of the chariots and tumbled the children back to safety, but was himself knocked under the horses' hoofs.

**Throat Affected. T. R. Rests.**

Stockholm, May 10.—Ex-President Roosevelt shortened his program today even more than it had already been abbreviated by King Edward's death, because of the hoarseness from which he is suffering. A throat specialist visited the palace twice today and recommended that Colonel Roosevelt stay indoors, as the weather was rainy. Colonel Roosevelt left his apartments only once. He took lunch with Charles H. Graves, the American minister.

**POWDER WORKS BLOWN TO BITS.**

Storage Magazine at Hull, Quebec, Destroyed by Fire.

Baseball Crowd Gathered to Watch the Fire, Disregards Warning, and Many are Slaughtered.

Ottawa, Ont., May 10.—In an explosion today the plant of the General Explosives company, of Canada, near Hull, Quebec, was totally wrecked. Fifteen persons were killed and 50 others injured. The force of the explosion was terrifying. The country for miles around was laid waste and many small buildings in the city of Hull, on the side nearest the explosion, were laid flat on the ground.

A baseball game was in progress a short distance from the powder works, about 6 o'clock this evening. The teams were playing the last inning and when a fire was seen in one of the small buildings of the powder plant, the crowd began to swarm up the hill to get a better view of the blaze.

Warnings of danger soon came to the onlookers in two small explosions. Sparks and fragments of the wrecked building fell among the spectators and there was a scurrying from what was considered the danger zone.

Some men in the crowd, aware of the possibility of the danger when the main magazine should be reached, pleaded with the crowd to go still further back. Many heeded the warning. Others, apparently enjoying the element of danger in the spectacle, stood within 1,000 yards of the burning buildings. They were kept on the qui vive by the continuous detonations that sent showers of burning brands in all directions.

The scene where the crowd from the ball game stood resembled a battlefield. Headless, armless and legless bodies were lying about among scores of unconscious forms. The silence that followed the final death-dealing blast was broken by the terrifying cries and moans which came with a return to consciousness of the badly injured.

**RECLAMATION SHAKE-UP SURE**

Ballinger Says If He Stays Every Disloyal Suoordinate Must Go.

Washington, May 10.—Reorganization of the reclamation service, long rumored, is regarded as a certainty since the declaration on the witness stand yesterday of Secretary Ballinger that if he continued at the head of the department of the interior, the "snakes" would "all be killed—every one of them."

Secretary Ballinger makes no secret of his determination to have a loyal force around him. Washington knows pretty well the difficulties with which he has had to contend, which are the difficulties that beset any man in high position whose subordinates resort to "office politics" to prevent the results he is seeking to attain. Hence, regardless of views as to the merits of the Ballinger-Pinchot controversy itself, there is a general sympathy with the attitude of Ballinger himself.

Any secretary, says that part of Washington officialdom that has had real experience and undertakes, would be justified in enforcing loyal action by those lower down and in discharging those subordinates who are insubordinate. Consequently Washington—again without reference to how it may divide upon the personal issue—applauds the secretary's statement yesterday.

"I have found that the only way to control some of these fellows is to discharge them."

For other official Washingtonians have been in the same boat.

Ballinger refused pointedly to specify which "snakes" will be killed, but his previous testimony has helped Washington to make some predictions as to heads that will fall.

**Date for Revolution Set.**

Changsha, China, May 10.—The general uneasiness has been greatly increased here by the appearance of a large number of posters unsigned demanding the destruction of foreigners and of native Christians, and setting May 27 as the date for a general anti-Manchu uprising. Government officials have destroyed the posters and the city is being strongly patrolled. Agitators are holding secret meetings, but it is believed that the presence of foreign gunboats will act as a check to the movements.

**FASHION HINTS**

This amethyst linen suit was charming with its simply shirred waist, and the embroidery of amethyst and white.

The shirred sleeves were of very sheer batiste.

The jaunty black and white hat had an owl's head as the only trimming.

**SINGULAR JEWELRY.**

The esthetic and decorative uses to which barbarians will turn objects which to civilized races are things of the humblest utility are amusingly illustrated by this "fashion note" from West Africa, taken from an Italian newspaper:

For some time the officials of the German colony in Southwest Africa noticed that the telegraph wires and other accessories of the electrical plant disappeared as by magic immediately after they had been put up. The most diligent inquiries remained fruitless.

From other parts of the German possessions came reports of strange predilections for articles of German commerce, as, for example, rubber heels, garters, buckles and so forth, things which the natives of those countries do not generally use.

The governor of the colony gave an entertainment one year in honor of the emperor's birthday, and invited the chiefs of the different tribes to it. What was his surprise when he saw these native gentlemen appear with his stolen telegraph wires twisted round their illustrious necks. The higher the dignity the more rings of the wire were round the neck.

Inquiries were soon started in the outlying villages, and it came to light that the white china insulators of the telegraph poles had become ear rings. A young lady of the highest distinction in native society wore a rubber belt hanging from her nose, and a young man who was a well known dandy wore dangling from his ears a pair of beautiful pink silk garters.

**A Substitute for Alcohol.**

The tendency of people to contract some sort or another habit is shown by the common use in various countries of tobacco, tea, coffee, opium and the like. In Abyssinia and parts of Arabian Turkey the place of alcohol is taken by the kat plant, which the natives almost universally chew. In parts of Abyssinia certain tribes chew the leaves of the kat plant commonly when they are compelled to exert special or long-continued effort, the immediate effect of which is to produce an agreeable sleeplessness and stimulation. The freshly-cut leaves have a rather pleasant taste, and produce a kind of intoxication of long duration, with none of the disagreeable features of ordinary inebriety. Messengers and soldiers are enabled, by chewing the leaves, to go without food for a number of days.

In parts of Arabian Turkey there are cafes for the consumption of the kat plant which correspond to the cafes in Europe and America where coffee and alcohol are used.

**The Important Problem**

confronting anyone in need of a laxative is not a question of a single action only, but of permanently beneficial effects, which will follow proper efforts to live in a healthful way, with the assistance of Syrup of Figs and Elixir of Senna, whenever it is required, as it cleanses the system gently yet promptly, without irritation and will therefore always have the preference of all who wish the best of family laxatives.

The combination has the approval of physicians because it is known to be truly beneficial, and because it has given satisfaction to the millions of well-informed families who have used it for many years past.

To get its beneficial effects, always buy the genuine manufactured by the California Fig Syrup Co. only.
