GOOD WORDS.

The Mosier Fruit Growers' Association is in receipt of two letters of recent date, which we take pleasure in quoting in part. Steinhart & Kelly, of New York, under date of May 25th, 1910, say: "Your fruit the past year has been exceedingly fine, and we were very much pleased with our deal with you." Sgobel & Day, New York, writing under date of the 9th inst., say: "As far as Spitzenbergs are concerned, we can simply repeat what we told you, i. e., we consider you have the finest Spitzenbergs grown in the United States."

This verdict is justly deserved and Mosier fruit growers should feel greatly encouraged by the statements of both these firms, coming as they do from two of the largest fruit concerns doing business in New York City, the highest priced apple market in the world. These statements are based on experience and a thorough knowledge of conditions, values and quality of apples in the fruit sections of the United States.

OUR PORTLAND LETTER.

Portland, Or., June 14. (Special) By the end of the present year, it is promised that the most remote districts of Oregon will be served by railroad transportation. Central Oregon will have two main lines, the Oregon Trunk and the Deschutes Railroad and the building of these roads is of course the prime achievement of the year in transportation. In addition, the Harriman line to Tillamook will be completed and much progress will have been made by the end of the year on the Natron-Klamath road. This year the cost of contracts for new railway lines and betterments in this state will aggregate about \$30,000,000. Many other important new projects will undoubtedly be mapped out and started before 1911.

Portland will get the 47th annual convention of the National Wool Growers' Association, the dates for which have just been fixed for January 5, 6 and 7, 1911. On those dates there will be thousands of delegates from the wool growing states and the convention will be of wide interest to stockmen. In connection with the gathering there will be a big sheep show that is expected to draw many exhibits from the farms of Oregon sheep raisers, and many blooded sheep will be brought here from other parts of the country. Preliminary plans are now being made for the gathering, various committees being already at work.

Livestock shipments to the Portland markets for the month of May are far ahead of the same statistics for May of last year, showing the growing importance of this market. Particularly is a big gain shown in hogs, which is gratifying to the trade. A total of 515 cars of livestock of all kinds came to the stockyards during May of this year. The increase in hogs received was over 7000 head. The O. R. & N. Co. has decided to place in commission a regular stock train service, operating twice a week from Huntington to Portland and way points. This will begin June 21 and will be a great convenience to the stock raiser.

The Dalles to Have Exhibit Building at Depot.

Superintendent W. Bollons, of the O. R. & N., last evening wired permission to the Business Men's Association to commence the exhibit building at the depot. The committee in charge, George W. Chesbro, F. M. Sexton and James Snipes, this morning had workmen on the ground laying water pipes and sewer connections. F. C. Tyler & Co. will commence the erection of the building next Monday morning and it will be ready for occupancy within two weeks. -The Dalles Chronicle.

A PERSONAL MATTER.

Your personal business interests and the interests of the community would be bettered by a bank connection at home. We believe the MOSIER VALLEY BANK can help you and we know you can help us by doing your business here. We are trying in every way possible to meet the business needs and demands of the community, and that the institution was needed here and is appreciated, is evidenced by the fact that 250 people have become depositors with us. Many of these never had a bank account before and they are already appreciating the value of such a connection. We are deeply interested in building up the Mosier District—just as you are—but we are handicapped just to the extent that YOU do not do your business with us. Think this over and, if your other interests are here, we believe you will conclude your banking business should be here too.

Shall Mosier Celebrate?

Do the people of Mosier wish to celebrate the fourth of July at home this year? It has been suggested that this be done. It will not be necessary to go to any great expense. The main thing is to give those people a good time who do not care to leave home but who, generally, would take the day off for recreation of some kind.

The suggestion is made that a small celebration and a big time may be had with little labor and money. Speaking, music and various forms of amusement could be indulged in, with a basket dinner at the big spring on Rock Creek, where there is cool water and shade. The base ball enthusiasts are making arrangements for several games of ball to be played here on that day, providing the people are in favor of the movement. Altogether, the day can be passed very pleasantly at home and the ball boys ask, thru these columns, that a meeting of the citizens who are interested, or will interest themselves, be held tomorrow evening at 8 o'clock, to decide whether or not Mosier will have a little celebration of her own. While this is short notice, it is unavoidable, as it will be necessary for the out-of-town teams to know immediately what to depend on, as they will want time to make other arrangements if they are not coming here.

No place of meeting has been suggested but, in lieu of a better place, the Bulletin office is open to them if the citizens care to use it. It is desired that there be a good attendance to thoroughly discuss the proposition.

How Much are You Worth?

C. J. Littlepage, deputy assessor for this district, began the work on Monday of ascertaining the amount of taxable property in the district. C. J. is "on" to his job, and if you've got your money cached away in an old sock, or if you haven't any money at all, at all, or if there is a flea in the hair on the end of the tail of the dog, he'll find out, so give up gracefully.

Change in Firm.

This week the real estate firm of Burggraf & Vogt made a change in its management, Mr. Wm. Vogt disposing of his interests to Mr. Felix Wilfert, who will continue the business with Mr. Burggraf. By this deal Mr. Vogt becomes possessed of a small but valuable tract of apple land in the Grand View district, and Mr. Wilfert, in exchange, gets half the profits in the real estate firm. Here's success to all parties concerned.

Notice.

The fruit growers of Mosier are urgently requested to make up their crop estimates of all varieties of fruit to be packed in boxes or crates, and send or phone same to the Association at once, so that an order for box or crate material may be placed with the factory immediately. This is very important and all growers are asked to give same their prompt attention, as the factory must have due notice in order to get the material here on time. H. M. HUXLEY, Manager.

Leslie Root, who was taken to the hospital at The Dalles about two weeks ago to have his leg operated on, returned home last Friday. The leg, which was injured a number of years ago, and from which injury he never fully recovered, has been giving him much trouble of late, so he went to the hospital to seek surgical relief. An operation was performed which, it is hoped, will prove entirely successful. Leslie is now getting about on crutches.

A. E. Negus came down from The Dalles last Sunday morning, returning on the evening train. Mr. Negus is an expert well digger and thoroughly understands pipe laying, rock and cement work. His business here was to estimate the work of putting in a water system for Mr. Mayer, at the Sellinger ranch.
