CHAPTER XX. Half an honur later Le Malheureux foined them in the rose and hummingbird patterned chintz drawing room. Benoni withdrew and Le Malheureux, still veiled, congratulated Larry Morris

"If you wish to be married before you leave here," he said, "there is the mother's chaplain still here. He is a nonogenarian, but still a priest for all that. He will marry you yet to-night, if you wish, and I think, Miss Lancey, It might be better if the ceremony wer celebrated. Do you not think so? There's no knowing what may await

Betty blushed, but Larry hesitated not a minute.

"Bring him on, bring him on," he cried. "We'll be married to-night!" "And I'll be the best man," shouted

Johnny. "And City Editor Burton can ush-

"Will you let Meta be the -bridesmaid?" questioned Betty. "Oh, but what shall I do for a wedding gown?" "If you weren't so big," said Tyoga, surveying her critically, "we could loa : you Mrs. Hackleye's mother's bridal robe. I have it still upstairs in an old

Meta and Tyoga had come in sliently in the wake of Le Malheureux. "But, the children. I beg of you that. We mother," interposed Meta, "there are will try to get to Khartoum. From other garments up in the old chest. Perhaps we could make some of them

"Your wedding clothes will fit as well as mine, anyhow," ventured Larry. Put a woman on a desert island and the prospect of a wedding will cause her inventive faculties to evoke the flesh-pots of Egypt from the barrenest and Johnny reached the yacht that had

"The old chest" proved a treasure of time, but exquisite still. There were quaint old slippers, and a bridal veil of the filmiest Honiton that ever came

No bride could be decked with more scarlet satin and faintest amber lace, and great topages about her shining ebony neck, and Tyoga produced a new frock from somewhere. But Betty, ah, Betty! An old court gown of cloth of gold and yellowed satin was her bridal robe. Over it all ran delicately wrought roses in faded pinks. The marvelous web of Honiton draped her sweet face and rippled to the hem of her dress. The neck of the dress was low, and Betty's white shoulders were a sparkle of diamond pendants falling from a high diamond collar Tyoga had placed around her throat, and her plump arms were half covered with flowery bracelets. When they reached the chapel Le Malheureux himself put a diamond girdle around the bride's none too slender waist.

"My gift to the bride," he explained spot in the chapel. From the musty odor within and the drip of water on the moss-grown walls, the chapel, which had been reached through weird ways, was evidently a subterranean altar cloths of exquisite workmanship. through the heart with a long, fine arcarvers' art, and the ever-present leopard skin rugs were on the floor. The priest, bent double with years, and with hair and skin as gray as the pelt long Latin ritual, at a slow, nerveracking pace. The candles flickered tled about the yacht, but glanced harm with which Benoni had wreathed the altar, and filled the great vases that

The wedding supper was laid in the little sitting room. There were many flowers, and the viands, oddly assorted to occidental eyes, rested royally on platters and dishes of pure gold. Nobody ate much, though Meta, Tyoga and Benoni served assiduously. Malheureux touched nothing at all.

Betty, after several urgings, forbore to press him. She had noticed that he never drank before anyone, and had long since grown accustomed to the down-dropping veil, the closely shroud- Malheureux, with not a little pride in ed figure, the well-concealed feet and

CHAPTER XXII. December was crisping the air when they told Narcisse Harcourt she might

leave the hospital. "Not for any length of time, but just for a trip down town, if you wish," said Dr. Fothergill. "Who do you want to go with?"

"I'd like you, and Mr. Hartley," an swered Mrs. Harcourt, frankly. "I want to go and buy some presents for these nurses who have been so kind to me, and I want-I want to go and see my husband.'

Dr. Fothergill telephoned for Philip and he was there shortly before no as the doctor had asked. Philip had not been able to buy a new overcoal that winter, and he felt more the Peri outside the gate than ever, when Mrs. Harcourt, in her rich furs and radiant beauty, followed the doctor into the parlor. The months in the hospital had worked wonders with Mrs. Harcourt. The old, unfathomable brilliancy had left her eyes, but there was a sweeter, a more human look within them, and the weird alabaster tones of her skin were replaced with a more babyish purity of luster. She was more a woman, less a strange, unreal phantom from another world. They did their shopping first, but curtailed it ecause the crowds in the stores stopper to gaze open-mouthed at the startling beauty of Mrs. Harcourt, the grim plainness of Dr. Fothergill, and Philip Hartley's assiduous attentions to both the ladies. Then in one department store, some one whispered that the woman in the luxurious furs was "that mysterious Mrs. Harcourt, you know. and Phil had much ado to get both his charges unharmed into a waiting taxi-

Thither they went direct to the fail. the Cure, and Hackleye," counted Le Marcourt had not been told of their coming visit, as his wife had expressly wished it so. She went rapidly through the dingy hall, and rattled imperiously at the bars of the door. Harcourt was sitting moodily in one corner of the room, as had been his habit of late. He did not heed the rustle of silken skirts nor the faint perfume that aureoled his wife.

"Harold," she called, "Harold, oh, Harold." At sound of her voice he turned and gasped. Then he rose, and like an old,

old man, walked over and thrust his hands through the door. "Narcisse," he faltered, and whether it was fear, or wonder, or admiration in his face and voice, one could not tell. Plainly he was ill at ease.

## (To be continued.) AN UNMISTAKABLE BOND.

Illustrations of the Relatio of Victuals to Music.

As we have more than once suggested in the past, there is a sort of subtle bond between great victuals and great music. The exact nature of that bond eludes scrutiny, but there it is, the Baltimore Sun says. Find a lover pages. of sauerkraut and you will find a man who understands and admires the nine superb symphonies of Ludwig von Beethoven. Such a man would warmly indorse the idea of playing the grand finale of the fifth symphony during the kraut course at dinners. The determined reiterations in the coda of that His famous thoroughbred horses are movement seem to suggest in a mystic appraised at \$25 to \$50 each. way the benign endlessness of the yard lures you on. FLOUR BOTTLE BLOWS UP.

Chemist Tells of Injurious Effect o Doctored Article on Stomach.

Kansas City, Mo., June 15 .- The contents of a bottle, said by government attorneys to have contained Doings of the World at Large bleached flour, exploded during the "bleached flour" trial here today. It was while Professor S. F. Acre, of the chemistry department of Johns Hopkins university, was on the stand that the explosion occurred. "What caused it?" asked an attor-

"The formation of peroxide gas in

the flour," answered the professor. "Decomposition as well as bleaching would cause gas to form in flour," he explained. On cross-examination the professor

admitted that there were nitrites in air, rainwater and melted snow.

Alfred Steigel, professor of clinical medicine in the University of Pennsylvania, testified that nitrites, when introduced into a human body, lowered the grade of the blood, depressed the circulation, had an injurious effect on the muscular tissues and excited injuries to the stomach and intestinal tracts by impairing indigestion. added that in 50 years of practice he had never seen a case of nitrite poison-

Miss Hanna L. Wesslyng, of the government food laboratory, Chicago, brought into court biscuits of her own avers that it deals in 21 different lines baking. The biscuits had been made by Miss Wesslyng from some of the flour seized by the government. Those which had been subjected to the Greiss re-agent test were pink. Biscuits made from unbleached flour subjected to the same test retained their normal color. Miss Wesslyng said the pink color indicated the presence of nitrites.

OPEN SHOP COUP IN VIEW.

400,000 Men Will Be Taken to Los Angeles if Unions War.

Los Angeles, Cal., June 15 .- Owing to threats by San Francisco labor union leaders to spend a fortune, if necessary, to make this a union city, the Merchants' & Manufacturers' association, which stands for the open shop, he East, and allow the West to care for has arranged with 400,000 working men in the East to come to Los Angeles to live if a general strike is called here. These include trained men in all branches of the metal and building trades.

Secretary Zeehandelaar stated today that if all the union workers in the city were to strike their places could

be filled in ten days. He added: "We have a list of over 400,000 names of non-union mechanics of every character registered in Eastern cities. who can and will be brought here if ever an attempt be made to force an industrial war.
