AN ERROR.

Just because your business happens to be small and the occasions when you absolutely have to go to a bank infrequent, you may think that you can get along all right without its help and that it is a matter of no consequence to the bank whether you do business with it or not.

The North Beach Push Club, with its combined effort, shouldering the wheel of Progress, has awakened an era of activity, which will undoubtedly secure the proper recognition of the unsurpassed advantages of the North Beach for enjoyable outings, and, at the same time, all the comforts of home.

Negotiations are now pending with Portland capitalists for the installation of a water system to supply the beach and surrounding countryside with fine mountain water. With the culmination of the project, one of the obstacles to an otherwise incomparable locality is obviated.

Apparently all danger of high water in the Columbia is passed for this season, all prophecy to the contrary notwithstanding. The river has been falling rapidly during the past week and the bottom land below the railroad will soon be dry.

The object of these meetings is united action in saving souls, and strengthening saints. We ask every one to come and help in these services, whether Christians or no. Let us all enter in for the good of Mosier. W. A. STARK, R. W. CHAFFEE, H. C. CLARK, Ministers.

A moral wave has struck San Francisco and prize fighting has been tabooed. Prize fighting is no doubt brutal and perhaps a majority of those who make a practice of attending them will not be found frequenting churches to any great extent; but if the San Francisco city fathers would put a ban on many more evil practices that are allowed full sway, corrupting the morals of the youth of the city, of both sexes, they would rise higher in the estimation of the public.

A Comparison. How rare the sense of proportion is among human beings is illustrated by the extraordinary amount of attention a projected prize fight receives, both from those who promote it and those who seek to prevent it. Rationally considered, a prize fight is nothing more than a bout of fist-cuffs between a pair of brutes who are too strong to hurt each other. When it is all over neither of them is materially injured. Such bruises as they happen to receive soon heal and then all is as if it never had happened, except that possibly the two fighters are a little wealthier than before.

Unfortunate children of the city, in whose lives there is too little sunshine, were given a treat this week when Portland automobilists gave the use of their cars for rides about the city that were much enjoyed by the children. Wards of the Boys' & Girls' Aid Society, the Children's Home, and the People's Institute were the recipients of this outing and it was a happy bunch of children that toured the city in the big autos for two hours.

The price on wool this year is rather disappointing and discouraging to sheep men, ranging from three to five cents lower than the price obtained last year. If the cost of living had dropped in proportion, the wool growers would not have so much of a kick coming. The buyers say the manufacturers claim they lost money on the price they paid for wool last year. They probably meant that they did not make as much profit as they wanted, and the wool growers must make it up to them this year.

Shaniko will hold a big three days' celebration on the 3d, 4th and 5th of July. All the sports and pastimes common in the West, including bucking and roping contests, will be held, with purses hung up for all of them.

Think of the fuss and fury spent over this foolishness and compare it with the real evils of the world which go on almost without notice. Pretty near all the preachers in California seem to have combined and used every weapon at their command from prayer to legal writs to stop the prize fight. How many of them would display as much zeal to keep a little child from working itself to ruin in a factory? Between the harm done by all the prize fights from the begin-
