Hackleye greeted Johnson's rap with A nervous "Come in," and exchanged wan smile for Johnny friendly salutation. He had been writing and the 13 ble was strewn with piles of closely written manuscript. Johnny's eyes fell upon the pages, and riveted there. That they were the work of Hackleye's pen was evident, and-

The writing was absolutely unlike that in the letters found addressed to Cerisse Wayne!

"Writing a book?" asked Johnny, as he sat down with an effort to be composed.

"No, merely some instructions as to what I want done with my estate, in case anything happens to me," answ :red Hackleye. "It's on account of the children, you know."

"Don't let me bother you," politely suggested Johnny, "if I interrupt I'll

"On the contrary I'm glad to have you," replied Hackleye, "Tve had a mournful morning, spending it among reliquaries. Would you like to see some of my mementoes?"

He pulled out a deep drawer from the side of the table and began lifting might. out treasure after treasure. Folded in softest parchment was a long caressing curl of rust red hair, only too evidenty cut from the head of his dead wife. Then there were pictures of her from babyhood to maturity. And letterslove notes-all in the same handwriting. There were odd gloves, delicately perfumed, with the strange odor that had permeated the Desterle home that wretched morning of tragedy and woe, cobwebby lace handkerchiefs, and a bunch of faded flowers.

"Here is her wedding bonnet," mus ed Hackleye. "See, here is a program of an exhibition day in the convent where she played and sang. She had a voice like melted crystal. I worshipped her, made an idol of her, and I paid the penalty. I hope that death has brought her peace-life never could have done so. My wife, by beloved wife!"

"Hackleye," said Johnny, placing his hand on the bowed head, "you didn't kill her. I know it. Help us to find the man who did."

Hackleye looked up. "You're the first one who's had any faith in me," he answered, "except Francis, Le Malheureux as you call him, her brother, you know. Francis and I have tried to save her name."

"Why," questioned Johnny, striking while the iron was hot, "why does Le Malheureux ever walk among men thus veiled and concealed?"

Hackleye shot Johnny a gasp of terror. "As you would not injure the gentlest soul that ever walked," he pleaded. "try, never try to probe that mys-For your own peace of mind leave Le Malheureux alone."

Mrs. Harourt approached him very gently, and poke for the first time, "Are you not listaken? Are you not mlataken?" he asked. "Look again. I never saw our wife when she was alive, but I lieve we are very like each other." At the sound of her voice, Hackleye vas himself again.

"No, you're not the same," he assented. "But it is strange, miraculous. Who are you?"

"I am the woman who married Harold Harcourt," she replied, rather sadly,

and at a sign from the judge left the They brought Harcourt in next and asked Hackleye if he knew him. "I never saw him before," replied the defendant. "Who is he?"

"Tell him," said the judge. Harcourt, cringing and fearful, ammered out his name. Hackleye gripped the witness chair hard. "You'd better go away from me," he said, pe-"I have not committed murullarly der yet, for my children's sake, but I
