OUR PORTLAND LETTER

Portland, Ore., Aug. 9 (Special)—Never before in the history of the Pacific Coast has there been such a close feeling of co-operation as there is at present. A recent trip to San Francisco and through the Northwest cities has convinced Manager Chapman of the Commercial Club Promotion Committee that a concerted movement for the good of the whole Coast is opportune and will be supported. He has evolved the slogan: "All the Coast for all the Coast all the time," and will use it in the work of the new Convention Bureau that will strive just as hard to bring conventions to any Coast point that wants them as to Portland.

"This helpful spirit was manifested wherever I went," said Manager Chapman. "Tacoma, San Francisco, Spokane, Seattle, Victoria, Vancouver and New Westminster all realize that the strength of the Coast is in concerted effort. They are organizing along the same lines to capture conventions and for mutual work. This is a splendid prospect and will be productive of great good in future. A united Coast will be a great factor in development work."

Coos Bay cities will have a week of festivities beginning August 15. Mayors of Oregon cities have been invited to attend the Coos Bay Carnival and it is expected a Mayors' Association will be formed. There will be all kinds of water sports, races, music, clam bakes, dances and many varied forms of entertainment for all who attend. Many are expected from Willamette Valley points and Southern Oregon, while Portland will send down a large delegation to participate.

Freewater will celebrate Peach Day on August 17. This has become an annual affair and the festival of the peach is widely attended. This delicious fruit is served free to everyone attending and there is to be an all-day program, with prominent speakers. There will also be races, a baby show and other attractions.

Commercial bodies of this state are being invited by the Twice-a-Week Spokesman-Review, Spokane, to express an opinion on the most promising agricultural development in their own sections and the means used to further the advancement. An interchange of ideas along these lines will be helpful. This paper has taken an active interest in the intensive development of the Northwest and is doing much to further it.

Premiums for livestock exhibited at the Harvest Festival in Portland September 5-10, have just been authorized aggregating \$10,000. In addition there will be a purse hung up for the races totaling \$30,000. A large part of this figure, however, is paid by the entry fees, whereas the livestock premiums are a straight outlay by the Fair Association. This gives the Harvest Festival a premium list equal to the State Fair, which has the most liberal premiums of any fair on the Coast. A pony, harness and cart will be given away by the Fair management on Children's Day, each child entering the grounds having an equal opportunity to secure it free.

Than Henderson, one of Sheridan's young inventive geniuses, and if he doesn't make a successful flying machine, it will be because he doesn't attempt it. One of his inventions was the making of a wood saw from a cream separator. His latest and most successful machine was perfected this week in the shape of a combined automobile and traction engine. This was made from a common four-wheel truck with harvest-drive-wheel behind and propelled by a gasoline engine, and seems to get over the ground with the best of them. A wood saw is attached, and both business and pleasure may be developed, and all from a little thinking and skillful execution.—Sheridan Sun.

When It Is Hot.

[And Nebuchadnezzar commanded the most mighty men that were in his army to bind Shadrach, Meshach and Abednego and to cast them into the burning fiery furnace.—Daniel 1:3.]

Consider Mr. Shadrach
 Of fiery furnace fame,
 He didn't bleat about the heat
 Nor fuss above the flame.
 He didn't stew and worry—
 And get his nerves in kinks
 Nor fill his skin with limes and gin

And other "cooling drinks."
 Consider Mr. Meshach,
 Who felt the furnace too,
 He let it sizz, nor queried, "Is it hot enough for you?"
 He didn't mop his forehead
 And hunt a shady spot,
 Nor did he say: "Gee what a day!"

Believe me, it's some hot.
 Consider, too, Abednego,
 Who shared his comrades' plight.
 He didn't shake his coat and make himself a holy sight.
 He didn't wear suspenders
 Without a coat and vest,
 Nor did he scowl and snort and howl!

And make himself a pest.
 Consider, friends, this trio—
 How little fuss they made!
 They didn't curse when it was worse
 Than ninety in the shade.
 They moved about serenely
 Within the furnace bright
 And soon forgot that it was hot.

With "no relief in sight."
 —Bert Lester Taylor in Chicago Tribune.

How Shall We Vote?

There will be 32 measures to be voted upon at the Fall election. Of these six are for the creating of new counties. It will be easy for the voter to determine how he shall vote on these six. But many, perhaps the majority of the voters, will not take the trouble to inform themselves properly in order to vote intelligently on the other 26. It strikes us that it would be a wise thing for the voters of each precinct or district to get together and hold public meetings at which the different questions to be decided shall be discussed pro and con, so that every voter will know what he is voting for. There are always some in a community who are better posted than others, who give questions of public welfare more thought, who can instruct the average voter as to the meaning of the different measures and the effect their passage would have upon the state at large or the community.

This method would be a good education, politically, to many who do not take the trouble to study and think for themselves, and would oftentimes prevent the passage of what outsiders are pleased to term "Oregon's freak laws".

THE MEASURE

OF YOUR ACHIEVEMENT

Is not the size of your income—that may be only the measure of your extravagance.

The real Measure of Achievement is the DIFFERENCE between your income and your outgo.

To achieve a substantial success, to get ahead with certainty, to get above the ceaseless grind of necessity, the best way is to regularly put this difference where it won't scorch your pocket every time you see something you'd like to have but which you could easily do without. Put it in the MOSIER VALLEY BANK where it will be kept safely until such time as you really need it or until you have opportunity to invest it profitably.

CALIFORNIA'S STATE FAIR

The Panama Exposition To have "San Francisco 1915" Booth.

WRITE YOUR CONGRESSMEN

The Panama-Pacific International Exposition will have a booth at the California State Fair, to be held at the State Capital, Sacramento, from September 3d to 10th. Special representatives of the Exposition will have charge of the booth, which will be elaborately decorated. In addition to a miniature representation of the Canal Zone and other educational features, literature pertaining to the Exposition movement will be distributed to the throngs attending the Fair. Thousands of people will thus be reached directly and put in intimate touch with the 1915 Fair and given a clear idea of what it means, not alone to San Francisco, but to the entire Western Slope.

Up to August 1st San Francisco has raised close to \$6,500,000 toward financing the proposed Panama-Pacific Exposition to be held for the celebration of the completion of the Panama Canal in 1915. It is going before Congress next December to ask for Government recognition and confidently expects to get it. Meanwhile the entire West is lining up in support of San Francisco, endorsing the big project. As between San Francisco and New Orleans, which also wants the fair, Western men feel there can be no comparison. The building of the canal is essentially a Pacific Coast event, opening the Pacific to the commerce of the world, and that means surely that the celebration should be held at the largest American port on the Pacific. Then, again, the summer climate of San Francisco is worth coming far to enjoy, while nothing can be said for New Orleans in this respect. Another big argument

is, Eastern visitors can easily go through the canal on their way to San Francisco, returning home overland. Again, there are many things worth seeing in the West—the Yellowstone, the Grand Canyon of the Colorado, the Yosemite, Shasta, and a vacation country generally. Still another strong argument that might appeal to Congress is the fact that San Francisco has within a radius of 200 miles fully 1,500,000 people and it is that nearby population, according to previous records, that makes such affairs successful financially.

This Exposition is essentially a Western project and the directors of it are urging all friends of the movement to get busy with their congressmen. Not only should Western congressmen be seen and written to and pledged for the Exposition, but all Eastern residents who know Eastern or Middle West congressmen, or have friends in the East who have influence with any members of Congress, are expected to lose no time in securing desirable support in favor of San Francisco as the one place where it is fitting to hold this Canal-Celebration Exposition.

Oregon Crops Are Good

Washington, Aug. 9.—Crop growth throughout the United States was unfavorable during July, according to the statement of the bureau of statistics issued today. Conditions average lowest in North Dakota.

By states, the aggregate of crop conditions on August 1, (100 representing the average on August 1 of the last ten years) follows:

- Montana, 83; Wyoming, 74;
- Arizona, 100; Utah, 94; Nevada, 102; Idaho, 91; Washington, 88;
- Oregon, 106; California, 111.—Oregonian

Church of Christ Notes.

Next Lordsday morning the subject will be "Bible Study". Hear the thoughts on this theme.

Our Bible School was about as large as in the revival times. Thanks to those who came. Come again, and others come.

Wanted, a dozen boys, aged 12 to 16, who don't attend Bible School anywhere, to be at our Church, next Sunday morning at 10 o'clock.

H. CAMPBELL CLARK, Minister.

An exchange says: We Americans swear too much. Profanity has become one of our common vices. Lexicographers declare that Americans have invented and make use of more "cuss" words than any other people. We ought to be nationally ashamed of ourselves for our lack of poise and self restraint, because that is what swearing means. We ought to be ashamed of our lack of reverence, because that is what swearing indicates. Swearing is downright vulgarity and our national mouths need a scrubbing out with soft soap such as mother used to administer in the olden days when John-ny used swear words.

Looks Like Business

A number of surveyors came up from Portland the first of the week and went up into the hills south and east of Mosier. It is supposed their object is to run a permanent survey for the electric road up Mosier Creek.

The company responsible for the work has large holdings of timber south of town, and to get this timber on the market requires transportation facilities. Hence this activity. They own 400,000,000 feet of pine timber and control much more. This timber will be cut into lumber at a big mill which will be erected in the hills. It will then be brought down on the electric road to Mosier where the yards will be located. It is reported that a box factory will also be built here and all second-grade lumber will be worked up into fruit and packing boxes.

This new industry will be a great thing for Mosier, as it will lessen the cost of lumber, much of which is now imported here, will make fruit boxes cheaper, besides giving work to many people.

New Real Estate Firm

Since the real estate firm of McGregor & Bothf dissolved partnership several months ago, J. K. McGregor has been playing a lone hand until this week, when he took unto himself a new partner, and now the firm is McGregor & Ross, Mr. John Ross having assumed an equal share in the "profits and loss" in the land business. We wish the new firm much success.
