Church of Christ Notes. We had a good service last Sunday morning and our hearts were gladdened by a new member joining our circle. In the evening we heard Dr. Hargreaves who gave us something

about which to think. Next Lordsday morning our subject will be, "John, the Baptizer", and in the evening the subject will be "Dad's Boy and Ma's Girl". Come and hear this, and most especially do we want all the boys and girls to come.

BOOSTING.

Like Charity, should begin at home. In a broad sense, boosting means not only to advertise abroad the natural resources of your community. but means also the maintenance and further development of the industries and enterprises that you already have, in so far as they are creditable and deserving of support. Without this no business institution that is dependent on local patronage can hope to succeed.

The MOSIER VALLEY BANK has succeeded beyond the expectations of its organizers and is constantly increasing the volume of its business, but ALL the banking business of the Mosier District is none too much at this time. If we cannot supply your needs then no objection can be raised to your going elsewhere, but if we can then we feel entitled to your consideration and you will further your own interests by giving us your business.
