Medford has a chance to crow over the showing made by the late census as disclosed in the reports recently issued. With one exception, says the census bureau, Medford shows the greatest percentage of growth of any city in the United States during the last ten year period. The city that outdoes Medford is Oklahoma City, Oklahoma, which has a percentage gain of 398. Medford's percentage of growth is 392 per cent.

The protected cruiser Boston has been ordered turned over to the Oregon Naval Reserve for use in maneuvers and in perfecting the training of the volunteer sailors who make up the organization. THE MONEY ORDERS Which we issue furnish the logical and safe way of making your small remittances. You can buy them with your

check the same as with cash, but if you choose to pay the money for them the actual cash is not sent away, as is the case with most other Money Order systems, but remains in the community and helps to carry on its busi-

ness. After being finally paid these orders are returned to us and are kept permanently, and in case of any question about receipt you can always come here and see the paid Order. They have proven very satisfactory to those who are acquainted with them and YOU will like them, too, after you have used them.

When going on a journey don't forget to take along some Travelers' Cheques, which we also issue. It is the safest and most convenient way to carry money. You can cash them anywhere, at any time and without identification.
